Asthma and Bionchitis Cured. HALIFAX, N. S.

C. E. Puttner, Esq., Ph. M.:

Sir,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. I am, yours, &c.,

Hard Hit at Smoking. To the Editors of the Carleton Sentinel: I wish to call the attention of the Board of lealth to the diegusting, sickening and unawful habit of smoking on the sidewalk ; corners of the streets and public resorts. man must smoke, let him go behind some barn, or in some unfrequented resort, where those who do not want to inhale the fumes, will not be annoyed. As it is at present, the smoking redestrians disregard the finer secentialities of others, and claim is as their right to puff their dirty smoke in the face and eyes of whoever is near them; they will sometimes tell you that such smoke is healthy. To settle this point let the en pairer take a look at the crater from whence this smoke issues, examine the old stinking pipes, and the molars that grip it, with the surroundings of the average walking volcane and any same man will say—not that kind of medicine for me. My legal opinion is that no person has a lawful right to impure the

air we breathe, and if the proper auth rices will take the matter in hand, much of the eidewalk smoking can be stopped A gentleman will not smoke in company without permission, neither will he on the sidewalk where you will find the company with the same sensibilities as elsewhere. Before I lay my pen down let me say. I am often as onished to see pretentious gentlemen indulging in this filthy habit. What about their example? Christian, what about your example? Are you a smoker, do you occupy the smoking car and the pulpit alternated and appropriate the proposed in the smoking car and the pulpit alternated and appropriate the smoking car and the pulpit alternated and appropriate the smoking car and the pulpit alternated as the smoking car and the smoking car and the smoking car are the smoking car and the smoking car are the smoking car and the smoking car are th nately, do you occupy a responsible place in any church and indulge in this filthy habit? t so, quit it forever.
