to the House of Commons:

I have been requested to give my ideas of

butter making; but my practice hes been rather small to acquire a great deal of science, but, from my limited knowledge, I should say begin with the cow or cows first, for if every woman or I don't mean to say that one cow is as good as another for butter, feed her as you may, and as for which stock or breed is the best, for butter, I am not prepared to say, as the most practice has been with one very fine cow dent adopted at the time of the death of the late President James A. Garfield, the British the cowe are not quiet and gentle; and do not be afraid to divide that eight quarts of cats of respect to the memory of the late President Which you are feeding twice daily to the home dent Carnot. The news of the assination of President that runs in the same pasture, and then take

It may be, of course, merely a provision to the time equally and milk the cows at a regular allow of a similar ratification by the French Jumber of Deputies and the simultaneous is quite apt to make the cows fretful and uncoming into force of the reduction of custom duties.

E. T. P. Shewap, government engineer, goes to Springhill this afternoon to make a survey of the river at that place with a view of making it navigable for Goo. F. Baird's steamer Aberdeen. The channel has always been through the grand pass, on the north side of Sugar Island, but since the find of I think the yield is quite as good as that from pass.

If one has only a few cows at a regular hour, night and morning, as irregular milking is quite apt to make the cows fretful and uncoming into force of the reduction of custom duties.

Then do not, on any account, allow the milk.

Then do not, on any account, allow the milk or or making it navigable into pass.

side of Sugar Island, but since the find of 1887 this pass has only been navigable is seasons of high water. Mr. Shewen's idea is to cut a channel out up the south side of the Island between the Island and Springhill After finishing at Springhill he will proceed to Bear Island, some 20 or 25 miles above, and m-ke en examination of the bar at that place, which has been a serious obstacle in the way of navigation since 1887. Mr. Shewen's is ention is to cut a straight chan nel through this place also. He says he will have a lew water dredge at work on these places within three weeks, If Mr. Shewen's ideas are carried out the Aberdeen will be able to run continuously between Fredericton and Whod-tock during the navigation season—Globe

HEART DISEASE RELIEVED IN 30 MIROTES.—
All cases of organic or sympathetic heart disease relieved in 30 minutes and quickly cured, by Dr. Agnew's Cure for the Heart. One dose convinces. Sold by Garden Bros. A Boon to Horsemen —One bottle of Eeglish Spavia Liniment completely removed a curb from the milk; then chura until it is done and my horse. I take pleasure in recommending the remedy, as it acts with mysterious promptness in the removal from horses of hard, soft or calloused lumps, blood spavia, spints, curbs, averny, stifles and eprains.

GENTLEMEN—For a number of years I suffered from deafness, and last winter I could poarcely hear at all. I applied Yellow Oil and I can hear as well as anyone now. Mrs. Tuttle Cook, Weymouth, N. S.

No other publication can supply the place of a good local paper. If both cannot be retained—if either the city journal or country newspaper must go, let it be the former; for pothing can supply the place of the local paper.—Printer's Circular.

Throwing off some of the foolish restraints of prejudice by coming to the front, and giving us the benefit of her experience in butter—as the benefit of her experience in butter—and an industry regarding which in all its branches—from the feeding and milking of the cow to the serving of giltedged butter on the luncheon table—she has snown hereafted in the luncheon table—she has snown hereafted in the luncheon in his paper on "fatelligent Farmpaper,—Printer's Circular.

Simpson in his paper on "fatelligent Farmpaper," has struck the key note of the 19th century. "Progress" is our watch word; A bill has passed the Diminion Parlia- too conservative. True, there are many not ment, allowing juvenile effenders to be sen- indiscolubly wedded to the traditiods of an-

experience, observation and Agricultural liserusure. The last of these farmers long ago had not. It is a great privilege of larmers of the present day. We have agricultural
