Canadian farmer and offer sufficient encouragement to the iron producer. Mr. Davis could not understand why it was that the duties should be maintained when the N. P. had done its work so well as to enable the Canadian producer to place iron as cheap or cheaper than could be done in England.

Mr. Chabrey said the changes in the duties on scrap iron seemed to be prompted by the producers of pig iron, who wished to force the rolling mills to use puddled bars made from home produced pig, as their raw material, in producing merchant iron. He mildly suggested that the duties on scrap iron should be increased to 30 per cent, and that the duties on puddled bars should be decreased to 10 per cent.

There is also a very suggestive and entertaining paper on a Grammar School Commencement. Among the other articles are: "The Delinquent for June," and "The Delinquent for June."
