Three years ago got down so low that I could scarcely walk I looked more like a corpse than a living being. I had no appetite and for five weeks I nie mothing but gruel. I was badly emaciated and had no more color than a marble statue. Hood's Sarsaparilla was recommended and I thought I would try it. Before I had finished the first bottle I noticed that I felt better, suffered less, the inflammation of the bladder had subsided, the color began to return to my face, and I began to feel hungry. After I had taken three bottles I could eat anything without hurting me. Why, I got so hungry that I had to eat 5 times a day. I have now fully recovered, thanks to
