

# Carleton Sentinel Supplement, April 27, 1895.

## Brother Farmer Again.

To the Editors of the Carleton Sentinel:

Another Brother Farmer in SENTINEL of April 6th is anxious to vote, but not being posted in political matters seeks information. I would tell him that all monies levied above a tariff for revenue are extorted. I would inform the Brighton man or engineer that children suffer to the extent of the extortion, that is unless they be children of the manufacturer. Also that the United States tariff is lower than that of Canada. From 1881 to 1891 the population of New Brunswick decreased. The United States is a world of free trade, covering fifty odd states, nearly independent on account of her variety of climate, of all the rest of the world, relying on its strength of 72,000,000 millions of people and still marching on to other millions. Business multiplies and induces immigration; five persons go to the United States for every one that comes to Canada. A community of 73,000,000 is something to contemplate where trade is free. It is with such a competition that freights are low. Large amounts of goods coming to Canadian ports go to the States in bond, hence my brother is in error as to 50,000,000.

It must be painfully admitted that in Canada, a new country with great and unlimited resources, real estate has decreased 50 per cent, and every fourth person of the United States immigrants is a Canadian. The great trouble in Great Britain is on account of the rents of the wealthy land owners being, perhaps, too high, so that the owners are getting richer at the expense of the tenants. This country is not thus afflicted, but is held down by a high protective tariff to enrich a few. As for free trade with Britain, our coming rulers see the point and the people see it. At the close of the financial year, 1878, Canada's net debt was \$140½ millions; 31st Jan, 1895, the government had piled up a debt of \$250,000,000, or \$50 per head for every man, woman, and child in the Dominion.

BROTHER FARMER.

## Wakefield S. S. Convention

The Wakefield Parish S. S. workers met in convention, in the Baptist church, Jackson-town, on Friday, April 12, 1895, at 2 o'clock p. m. Devotional exercises were led by Rev Mr Morgan; after singing hymn 101, reading the Scriptures by the leader, and prayer by Rev Mr Williams, the president took the chair and made a few remarks on S. S. work. Minutes of last session were read and approved. Last Sunday's lesson was efficiently taught by Mr Branscombe. Reports from schools were made as follows: Jacksonville Baptist, reported by Mr McCreedy as having a membership of 40, average 30; Jacksonville Meth, by Rev Mr Williams, as being prosperous and doing good work; Jacksonville Baptist, reported by Mr Kitchen; Waterville by Mr Etey; Upper Waterville by Mr McLeod, as improving, 15 of its members added to the church; Third Tier by Mr Alexander. Just half the schools in our parish were reported.

Rev Mr Morgan spoke on 'The Purpose of Sunday School work in our Parish;' he emphasized the thought that in all our life work we must have a purpose and work for the accomplishment of that purpose if we would succeed. Discussion on same, participated in by Messrs R. Alexander, J. Connolly, Geo McLeod and G. Kitcher. An address on 'Means of accomplishing this purpose,' was given by Rev Mr Williams.

On motion the fixing of the time and place of next meeting was left with the Executive Committee to arrange for.

The session closed by singing doxology, and the benediction by Rev Mr Williams.

## EVENING SESSION

The devotional service was led by Rev Mr Williams, after which the president took the chair and the work of the convention was resumed. The minutes of the afternoon session were read and approved.

Rev Mr Williams gave an able address on 'Co-operation by pastors, parents, scholars.' Mr Branscombe gave an interesting address on S. S. work; Rev Mr Morgan gave an eloquent address on 'Our organized work;' next Sunday's lesson was taught by Mr Alexander in his usual able manner. The questions were ably answered by Revs Messrs Williams and Morgan. Collections at both sessions amounted to \$2.05. Interspersing the programme the choir rendered several fine pieces, Miss Connolly presiding efficiently at the organ. Convention closed with benediction by Rev Mr Morgan.

MRS J. T. FLETOHER,  
Secretary.

## Peel Items.

April 24th, 1895.

### Bad roads.

Did you notice the new caps?

Several men are engaged getting the frame ready for the new church, which is soon to be erected.

Sanford has the new office nearly completed. It's a 'Bute.'

Mr and Mrs Milberry, of Woodstock, are visiting their son, Jud, at this place. Jud is blacksmith for W. B. Harmon. He is a good one and can repair anything from a farm boiler, with the bottom out of it, to a Niagara cook stove. If you don't believe it, —well you needn't.

A gentleman, who claimed to be working in the interest of the Patrons of Industry, appointed a meeting, in the school house, for Tuesday evening, but owing to the inclemency of the weather, and other reasons, the meeting was indefinitely postponed.

EXWHYZEE.

## Richmond Items.

April 24th, '95

The ladies of the Guild of St. John's Church, intend having a May day entertainment next Wednesday evening, at W. H. McIntyre's; admission with cake and coffee 15 cents.

We regret to hear that John McLellan was badly hurt at a barn raising at Chester Carpenter's, Saturday evening; a large raft er falling on his head.

## RED GLEN Service Fee, \$15.

If you want a John R. Gentry, 2.03½ or a Ralph Wilkes 2.06½, breed to the blood that produces them, which will be found in the great producing line of RED GLEN, standard and registered — He is a Mahogany Bay, stands about 16 hands high, weighs 1100 lbs. Imported from the United States in 1893 by the present owners, F. Brown & Son. Trial one quarter in 35 seconds, a 2.20 gait, while in the stud. Red Glen is one of the most beautiful gaited pacers that lives; his action is perfection, being very rapid. Several good judges say of him that with half a chance he can pace a mile in 2.20 or better this fall on a good track, as he has already shown his ability to do so. The get of Red Wilkes, 2.27, have great courage and endurance, and for road qualities are excelled by none. Red Glen sprained his ankle in the fall of 1893, which has prevented him from taking a low mark. This horse is going as sound as a dollar now, and his many friends may expect great things of him this fall. This horse has a license to go faster than any other horse in this country. Red Glen has nine living foals of 1893, and the finest lot of colts in this County, all of which are bays, good size, with plenty of bone and substance. Moses Mills, of Monticello, has a very fine colt out of Annie Rooney, record 2.40, by Red Glen, that is a flyer, so Mr. Mills informs us. A word about pacers, which are becoming very popular as roadsters and racers, as they have more speed and endurance than the trotter, viz.: Robert J. 2.01½, John R. Gentry 2.03½, Online 2.04, Hall-dillard 2.04, Joe Patchen, 2.04, Mascot 2.04, and fifty one more with records better than 2.10; while there are only thirty-one trotters in the 2.10 list. In the 2.15 list there are three hundred pacers and two hundred trotters; going to show that the pacer is in advance of the trotter. Now, gentlemen, in view of all these facts, I ask your candid opinion as to whether Red Glen is not the best horse to breed to, who carries the blood of the fastest trotter, the fastest pacer, the greatest runner and the greatest roadster. Red Glen was sired by Red Wilkes 2.27, sire of 109 standard performers, including Ralph Wilkes 2.06½, holder of the world's stallion record of 1894. Good judges said of him that he had been specially fitted for a low mark he would undoubtedly have gone 2 or 3 seconds faster. Also Abbott Wilkes 2.12½, Island Wilkes 2.13½, Blanche Louise 2.13, Prince Wilkes 2.14, Alie Wilkes 2.15, Wabash 2.14, and twenty others better than 2.20. George Wilkes 2.22, grand-sire of Red Glen, has eighty-two standard performers from 2.13 to 2.30; eighty-seven of his sons have produced 1260 2.30 performers, from 2.04 to 2.30; ninety five of his daughters have produced upwards of two hundred from 2.06½ to 2.30. This gives the sire and grand-sire of Red Glen and their produce. Sons of Red Wilkes, which are forty three in number, have already sired one hundred and twenty performers from 2.03½ to 2.30, including John R. Gentry, holder of the world's stallion record 2.03½, Al-lard 2.08½, Wilkie Knox (p) 2.10½, Florida (p) 2.14. Red Wilkes' daughters have produced Coleridge 2.09½, Mambrino Maid 2.15, Evangeline 2.11½, and forty-seven others from 2.12 to 2.30. — Note right here, gentlemen, that not only Red Wilkes is producing fast and game race horses, but his sons and daughters are breeding on as uniformly as their sire. Red Glen, trial quarter 35 seconds, first dam is Stella, trial 2.24½, by Lumps 2.21, sire of Alcone 2.15, Classmate 2.16½, Anna Dickinson 2.16, and seventeen others better than 2.30. Lumps is a son of George Wilkes, record 2.22; this gives Red Glen a double cross to the great George Wilkes through his sire and dam. Second dam of Red Glen is Maoria Clay, dam of Stella 2.24½, by Harry Clay 2.29, sire of Shawmut 2.21, Clayton 2.19, and five other standard performers; also sire of the dam of Harietta 2.09½, St. Julian 2.11, Victor Von Bismark, sire of twenty-five, and Louis Napoleon, sire of twenty-eight 2.30 performers, and fourteen other producing sires; also the dam of Electioneer, sire of one hundred and fifty-two from 2.07½ to 2.30, Palo Alto 2.08, Sunol 2.08½, Arion 2.07½, and also forty daughters have produced from 2.09 to 2.30. Red Glen's third dam, Maoria, is by imported Australian, sire of the second dam of Alcantara 2.23, and sire of eighty-two standard performers, such as Nightingale 2.11, Alar 2.11½; also the second dam of Alcone 2.27, sire of forty-seven standard performers, such as Martha Wilkes 2.08, Harietta 2.09½; both are sons of George Wilkes 2.22. Red Glen's fourth dam is by old Lexington, the long distance runner, who has won over \$40,000 on the turf, and sire of the second dam of J. I. C. 2.08½ (p), Sunol 2.08, Nancy Hanks 2.04, the third dam of Fantasy 2.06; Red Glen's fifth dam is by imported Glencoe, sire of the second dam of Attorney Jr. 2.12½, Favonia 2.15, third dam of Little Aliz 2.08½, the fastest trotting mare in the world the third dam of Lema Hill, two year old record 2.12½; Red Glen's sixth dam was by the famous Boston, sire of the dam of Ansel 2.30, at three years, Mand S. 2.08½, Balcon 2.14½, Trueman 2.12, and the great Nutwood 2.1½ and sire of 139 standard performers from 2.06½ to 2.30.

The great Ralph Wilkes 2.06½, who died about three weeks ago, was one of the fastest and most popular stallions ever foaled. Fair Bros, his owners millionaires refused an offer of \$90,000 for this fast son of Red Wilkes; he was valued at \$150,000.

Note.—The Wilkes family are the greatest money winners of 1894, having won \$160,000. Almont, Belmont, Dictator, Nutwood, Mambrino Chief and Fiske's Mambrino Chief, won \$180,000, thus showing the Wilkes' won within \$30,000 of the other six combined.

Gentlemen, as I have already advertised Red Glen at a service fee of \$25.00, and have sent his stud cards to several of the towns throughout the Province, I will say right here that owing to hard times and to meet the wants of the breeder, I have decided to reduce the service fee of Red Glen to \$15.00, with the privilege of using the horse, if in my hands, until the mare proves in foal. Now, gentlemen, avail yourselves of this great privilege, as his book will fill very quickly at this small fee. Shall limit him to fifty mares, which must in all cases be approved by us.

Red Glen was catalogued at \$50 service fee at Glen Elm Stock Farm in the fall of 1893. Book your mares early in order to secure a chance.

Will stand at the Stable of F. Brown & Son, Connell Street, Woodstock.

For further particulars enquire of

F. BROWN & SON.

Woodstock, April 23, 1895.—17.

## Canadian Finances.

The gross debt of Canada on 31st March, 1894, was \$303,990,671. A year later, 31st March, 1895, it is \$318,017,526. The net debt, at the same periods was \$240,189,703 and \$248,150,854. In other words the net debt has increased eight millions of dollars in the year between 31st March, 1894, and 31st March, 1895.

The revenue of Canada for nine months of the fiscal year ending March 31st, 1894, was \$27,845,846. For the same period in 1895 it is only \$24,553,099. But while the revenue has fallen off \$3,300,000, the expenditure has increased from \$23,331,755 in nine months of 1894 to \$23,844,991 in 1895. On 31st March, 1894, the government had an apparent surplus of \$4,514,000. The present year its apparent surplus is only \$708,107.

## Debec Items.

April 21, 1895.

The farmers of this community have organized an Agricultural Society in this place and about fifty have banded themselves together, through the efforts of John B Grant, who is very much interested, and others are falling into line. The officers of the society are: J B Grant, President; W V Benn and C W Dickinson, V Presidents; G B Martin, Secretary; A Harron, Treasurer; B D Hoyt, J T Flemming, Richard Orabb, Wm Hilley and H H Kirkpatrick, Directors.

The Easter service and concert held in the Methodist church at McKenzie corner, under the auspices of the Woman's Missionary Society of this place, was a success. They had a full house as usual, and the programme was well rendered, especially the portion allotted to the children. Over \$17.00 was realized.

To the joy and pleasure of one of our fair sex, Mr McMurray, of Fredericton, is spending a few days in our village.

Miss Della Henderson has gone to St Andrews to visit friends.

William Johnston is prospecting among the mountains and forests of the Tobique to make ready for another winter's operation.

Problem: If a dressmaker is worth \$1,000 a year, what would a blacksmith and dressmaker be worth together?

Saturday night our village was very much disturbed by the abusive tongue of a young man, who was urged on by king alcohol. Not often we hear the like at midnight, nor do we want to hear it often. In a calm, still night your voice will ring out in tones loud enough to wake the peaceful sleeper for quite a distance. Don't speak so loud next time.

James Pickles is filling lots of orders for horse hoes and axes.

O L Clark, while taking out a chimney for Mr Grant, narrowly escaped being seriously hurt; the staging gave way, letting him slide feet first to the ground; no damage done.

## Windsor Items.

April 23rd, 1895.

The snow has about all disappeared and the roads are quite bad; it needs a warm rain to take out the frost and settle the ground.

Some of our men have gone on the drive.

Mr John Thompson expects to raise the frame of a large barn in a few days. Mr J S. Falkner, with his crew of men, are doing the work getting the frame ready to raise.

Mr James Ackerman is preparing to build a new house this summer.

Mr Manly H. Colson died at his residence on the 10th inst, after having been confined to the house for nearly a year by sickness. Mr Colson (better known as Captain Colson) in his younger days had been a sea faring man, and about 16 years ago he and his wife and stepdaughter moved here from Calais, Me., and during that time he has proved himself a good neighbor, an honest, straight forward citizen, worthy the respect and esteem of all who knew him. He leaves a wife here, a step-daughter, Mrs R Rolson, Woodstock, and numerous other relatives in the United States, to mourn. He passed away trusting in Jesus Christ as his Saviour. During his many months of sickness he had been frequently heard to say, 'I am ready to go;' and lounged some times to be released from pain and suffering here, and to go away to the rest he felt the Lord had prepared for him. Mrs Rolson is stopping awhile with her mother, Mrs Colson.

## The True Issue.

Says the Montreal Herald:

It is to be hoped that by the time the general election comes about the school question will be either finally disposed of or suspended, so that the tariff issue may have the fullest possible expression of opinion from the electors. It should be expected that the Government, as well as the Opposition, would be desirous to so shape events as that the mandate of the country on the trade question would be an authoritative expression of the popular will, which cannot be the case if a disturbing question of sectarian vs. secular education is permitted to assert itself. It seems to be a peculiarly fortunate dispensation that it is not the general elections that are taking place now. A general election, with the great issue put out of sight and a minor, although irritating, ground of contention made the real ground of division would have been a calamitous condition of things.

A very handy and desirable thing has reached this office in the shape of an 'Election Return Score Card,' published by B. Rautenburg, Truro, N. S. It contains blanks on which to mark returns from each electoral district in the Dominion, and gives the official returns of 1891, from each polling subdivision in York, Charlotte, Carleton, Queens, Sunbury and Victoria Counties.

A very large assortment of Gents', Youths and Boys Ready Made Clothing, just opened, at B. B. Manzer's.

The inmates of the Dorchester penitentiary showed themselves to have very benevolent instincts when they requested to be put, for a time, on short allowance, the remainder of their rations or its value to be sent to relief of the starving poor in Newfoundland.

The city of St. John evidently is of opinion that professional reformers when they secure the power do not reform. A year ago that city elected a tax reform council, but, at the annual election last week, rejected the men who composed it.
