

Pembroke Items.

As your late correspondent seems to be resting after the fatigue of writing the last items, I thought it would be right for the readers of your valuable paper, to be kept informed as to the movements of the people of Pembroke, until he was able to resume his duties again.

When the Observer was giving the description of Pembroke and what it could boast of, he did not mention our choir. We have a nice choir now, they meet for practice every Thursday evening.

Miss Alexa Shaw, of Lower Wakefield, is the guest of Mrs C W Betts.

Mr and Mrs George Cogswell are receiving congratulations on a domestic event. (It is a boy.)

Mr and Mrs Fred Kent are visiting Mrs Kent's sister at Jackson Brook, Me.

Mr and Mrs Enoch Miller, of Tracey Mills, paid us a flying visit; the guests of Mrs Rigby Shaw.

We have had a number of coasting parties lately. The young folk of Union Square joined those of Liberty Hill, and among the young ladies that were the most conspicuous were Miss Bertie DeWitt, Miss Ada Phillips and Miss Lucretia Phillips.

Mr S Hayden, one of our energetic farmers, seems to be pushing things right along this fall and winter. He has been pressing hay and threshing, and now he has taken the contract of hauling logs for Mr Hayden of Woodstock. We wish him success.

Miss Ada Phillips entertained a number of her friends at a birthday party last Thursday.

Mrs H D Shaw is visiting friends in Queensbury, York county.

Mr Geo Phillips, of Fort Fairfield, is visiting friends here.

We are glad to hear that the family of Mr John Brownlow are rapidly recovering from the effects of scarlet fever.

Mr Charles Sewell, who has been spending the past year in the United States, has returned to his old home thoroughly convinced that there is no place like Carleton county for a young man to succeed in.

Dame rumor announces we are to lose one of our most amiable widows; and that the western side of the river is to gain by our loss. We extend our heartiest congratulations.

Hoping the Observer will be able to resume his duties soon, I remain, yours.

Debec Items.

Rev. Geo. Howard, father of Doctor Howard of Debec, is making his friends in this place and Greenville a visit.

Rev. Mr. Barker, Presb., who has been on the Richmond circuit for seven years, preached his farewell sermon in this village on Sunday evening. Many of the congregation seemed to be very much affected because of his removal from our midst. All wish him success wherever he goes.

On Wednesday evening, March 13th, C. W. Dickinson's hotel was taken charge of by the young folk from Benton; the road being good a goodly number was present; it being a kind of a surprise party only one of the young folk of Debec witnessed the evening's enjoyment, and were it not for the young man who has fishing grounds leased in this place such would not have been the case; I suppose, however, a good time was enjoyed. And all partook of the oysters served by the hostess in her usual pleasant and dainty style, after which they wended their way back to their respective homes, satisfied Debec was a good place to come and spend an eve.

The prohibition meeting, C. W. Dickinson acting as chairman, was very well attended, considering the short notice given. Rev. George Howard, from Hampton, gave us some very interesting things in connection with his remarks concerning prohibition.—Mr. L E Young, the candidate for the third party, showed how far the temperance cause had been advanced by the old parties, and in order to get anything done in that line we must strike at the fountain head and elect temperance men to advocate their principles. I think the third party will get quite a boom in this place, if the temperance men are not tied too closely to party. Where will they be found at this time? will they be as earnest as when in their lodge rooms, now they have a chance to cast their vote in the right line for temperance? I am afraid not.

Rev. Mr. Frizel is holding special services at Watson Settlement, attended with good success, according to reports from there.

This place is becoming noted for its Jersey stock; Mr. J. B. Grant has added another to the list.

Monday night was one very much enjoyed by the folk of McKenzie Corner and others for miles around. The young people of that place gave a very interesting concert, consisting of dialogues, recitations, songs and tableaux, which were very well rendered indeed. Parody on Sweet Mares called forth the second time, rendered by Wilmot Carron in his theatrical style; Why did he not come at me with the other end, was another good one; in fact it is hard to separate one piece from another, as all were good and well rendered. Proceeds to go towards a school library; receipts \$18.50; that's encouraging, Burt come again.

Mrs. Amos Rideout of Peel, is visiting her son, who teaches school in this place.

C. W. Dickinson has been appointed Parish Court Commissioner in the place of Ivory Kilburn, deceased.

The council of the R T of T, of Hay settlement, paid Dufferin Division S of T, a fraternal visit on the evening of the 16th inst. There was a good literary programme well rendered; refreshments were served and a pleasant time enjoyed.

On the morning of the 17th inst. fire was discovered in the building owned by A J Marsten, and occupied by P Girdwood. All efforts to save the building proved fruitless; the furniture was nearly all got out, but in a damaged condition. Mr Girdwood also lost a valuable cow and some hay. Edward Higgins had a phaeton burned, which was stored in the barn. Cause of fire unknown. Loss between \$800 and \$900; insured for \$600.

Distribution of Samples of Grain from the Experimental Farm at Ottawa.

To the Editors of the Carleton Sentinel:

During the past eight years samples of those varieties of grain which have succeeded best on the Experimental Farms have been distributed on application in 3-lb bags to farmers in all parts of the Dominion free through the mail. The object in view in this distribution has been to improve the quality and character of these important agricultural products throughout the country. This work has met with much appreciation and a considerable degree of success.

Last year I was instructed by the Honorable Minister of Agriculture to forward, as far as practicable, two samples to each applicant, but the applications received were so numerous that on this basis of distribution all the available stock had been promised by the middle of February, and all later applicants could not be supplied.

This year my instructions are to send one sample only to each applicant, with the hope that with this limitation every farmer in the Dominion who so desires may share in the benefits of this useful branch of the work of the Experimental farms.

The distribution now in progress consists of some of the most promising sorts of Oats, Barley, Spring Wheat, Pease, Field Corn and Potatoes. Already more than 7,000 applications have been filled. All farmers desiring to participate in this distribution should send in their applications early, and state which of the above named samples they would prefer, and their wishes will be met as far as practicable, until the available stock is exhausted. The grain can be sent early, but the potatoes will not be distributed until the danger of being injured in transit by frost is over. Letters addressed to the Central Experimental Farm may be sent free of postage.

WM. SAUNDERS,

Director Experimental Farms, Ottawa, March 11th, 1895.

John Hussey, while offering prayer in a Methodist prayer meeting at Montego Bay, N. S., Friday night, suddenly stopped, and exclaiming, "Lord, I am dying," fell dead.
