## P. BRADLEY, CONNELL'S BLOCK MAIN STREET.

Woodstock, Nov. 15, 1895

# \$7 for \$4.

Sounds strange, don't it? Well, that's just what it is, our Heavy Canadian Frieze Ulsters that were as big value as ever offered in Woodstock at \$7, goes now at \$4. We are not particularly anxious to lose money, and do not on most of our sales; but sometimes we like to surprise our patrons and give them more for their money than we can buy ourselves. Of course we make many such surprises. We buy for cash, sell in the same way. Cash both ways, you see, covers all other holes for losses. Therefore a loss like this goes in with necessary expenses. Some time ago we advertised a \$5 Ulster: it was worth more money; they looked it, they had the materials and make up that were surprising to the buyer—result, not even an odd size left; but this one we are now offering caps the climax. Think of a Great Big Heavy Canadian Frieze Ulster—one that you've paid \$9 and \$10 for, going for \$4. It's ridiculous! but it's not sentiment nor fiction; we advertise only what we can and do. It's a leader; we admit it—you get the benefit.

For the Better Goods you'll make no mistake in coming here. We're specialists in this clothing business. It's to our interest to give you the Best garments that can be obtained at the closest margin possible. We are doing it despite all claims, however spicy they may look. Drop in with us, it's like home here.

## Town Council.

Friday, Nov. 8.—(By Mr. Jones, Chairman.)

Coun. Jones, from a Special Committee, reported the State of the Union, and the committee was authorized to have the necessary repairs made at once.

Coun. Gallagher, from Street Committee, said that he had expected that chairman of the committee, Coun. Carr, would have been present to report concerning the complaint made by Mr. Jones regarding curbs on St. Gertrude street. He was anxious to have the matter investigated at once, but he thought the first step to be taken was to have the street surveyed.

Coun. Leighton said in his opinion they had got to take notice of the complaint made; if they noticed one complaint they ought to go along the whole line. It came, he thought, with poor grace from the committee to say they were not ready. Two of the committee were present, and Coun. Carr were here he would probably want to wait a week to make up his mind. The ratemakers were waiting to see what the Council would do, and they should act promptly. If two members of the committee were not enough to make a report, then let another member be added to it. He thought they had better have another meeting of Council at once and instruct the committee to report thereat.

Leighton moved, seconded by Jones, That when this Council adjourns it adjourns to meet Monday night next at 7.30, to hear report of committee on encroachments on St. Gertrude street.

Coun. Bailey did not see the necessity for a special meeting; thought it might be left to the next regular meeting. He would like to be present when the report was presented, but his business prevented him running to a Council meeting every night in the week. It was not to do to get a report from the street survey and there was no survey that they could get that by Monday night, and if not they would be no further ahead than then now.

Coun. Leighton said that time as councillors were short and what they intended to do should be done quickly. He was afraid if they left this matter till next regular meeting, the chance was it might go over indefinitely.

Coun. Gallagher said that the committee wanted was authority to have the surveyor survey the street, so as to find out who was encroaching on the street and how much. He was as anxious to have the matter settled as was Coun. Leighton or any other councillor.

His Worship said the trouble appeared to be that Coun. Carr had the complaint and the other members of the committee were waiting for him. It was only fair that they should treat all parties alike. These complaints should be examined into, the street committee should look into the matter thoroughly and then report. He understood that some residents on St. Gertrude street admitted that they encroached on the street.

The resolution was then changed to read Friday night instead of Monday, and carried.

Coun. Gallagher from Street Committee, submitted a report of what had been done in the Queen encroachment matter. Report received and filed.

Coun. Leighton read a written statement from Patrick Gallagher, to the effect that he had worked on St. Gertrude street, between Broadway and the cemetery, over 20 years ago.

Coun. Nicholson called attention to the fact that the electric lights on Broadway were not burning that night, and to the general complaint of ratepayers in reference to the curbs on the street. Something should be done to remedy the evil. The committee had asked for and been granted the right to employ an expert, but he did not know whether anything had been done in that direction. He thought it would be a good idea if the night watch was directed to report all lights out.

The Mayor and Coun. Jones expressed dissatisfaction with the way the lights were being handled.

Coun. Arnold thought that if they had not done so already, they should at once secure the services of an expert.

Coun. Gallagher said the committee had secured the best of experts, but the lights did not improve. He had come to the conclusion that a great deal of the fault was in the electricity; he had got to do better, or give up the job.

It was understood that Coun. Gallagher would communicate with electrician Brown on St. John, and bring him here at once to examine into and give instructions regarding the running of the lights.

On motion Nicholson, seconded Arnold, Resolved that the night watch be requested to report to the Electric Light committee, any lights found out.

A large number of bills and salaries of officials were ordered paid.

On motion Leighton, seconded Gallagher, the Fire committee was authorized to have necessary work done of covering up water pipes at Lower Corner engine house.

On motion Jones, seconded Leighton, it was resolved to let against one Ketch street, providing he pays the assessed rates.

The Poor committee was given permission to purchase a steer. And the same committee was instructed to advertise the fire children, at the Poor House, will be given to any suitable person desiring them.

His Worship said the complaint had resolved him that Ketch and Queens Ward were getting more than their present share of rats.

If this were so he was surprised that some of the councillors for Wellington Ward had not stood up for their rights.

Coun. Nicholson thought it was not in the interest of ratepayers to bring every little street corner complaint to this Council. If he were told a certain thing, he would examine into it, and if he found it baseless, he would not trouble the Council with it. Of course he did not mean but that the fullest information should be given the ratemakers, but he referred to frivolous charges.

Coun. Leighton thought it was the duty of a councillor to lay every complaint made to him before the Council, so that it might be investigated.

His Worship endorsed the sentiment of Coun. Leighton and thought the Council was the place to bring complaints, so that in full gaps of the entire ratemakers, it might be investigated and they be made fully aware of all that the Council was doing. He did not believe in any sort of chamberlain, and wanted their business done in a way which would lay it open to the criticism of every ratepayer.

Supt. Munro, in answer to the intimation that Wellington Ward was being unfairly dealt with in the way of sewers, showed that according to McKenna plan, the immediate placing of sewers involved, in Kings and Queens Wards, the laying of 4,318 feet of pipe, costing \$2,848; in Wellington Ward, 2,885, cost \$4,265. He thought the work of placing the sewer, for the present, would be about completed this week. He believed McKenna's estimate of cost would be exceeded. The question of fixing the rate of taking the sewer for entering the sewer was laid over till a future meeting, and the Sewer committee was asked to consider and report on the question.

A mild laxative, do not sicken—the best family medicine.

### Communicated.

Through Carleton County.

To the Editors of the Carleton Sentinel:

Having finished the pressing farm-work for the season, in company with my wife and daughter, we made our annual visit to Carleton county. Leaving our home at Middle Southampton, on Wednesday morning, Oct. 30th, we arrived at the Turner House, Woodstock, in time to partake of an excellent dinner. The superior character of this house is becoming widely known through the country. We found your beautiful and usually active city in a state of commotion. Groups of men were engaged in digging ditches and laying sewerage pipes. Practically building over one more chain obstructing the way to modern perfection.

Turning our back on your city (perhaps one of the most active commercial centres in the Province), we went our way through Jackson town, the agricultural garden of the county. If there is one thing more than another that will make a farmer feel proud of his calling it is to drive through Jackson town. The extensive and well fenced acres of arable land; the magnificent and commodious buildings; the stonemasons of farm machinery; the sick and contented herds of well bred cattle; the number of horses, whose glossy coats and elastic step betoken blood; the slow carriage, rolling on iron wheels, and comfort and, best of all, the prosperous and contented men and women engaged in tilling the soil, all go to show the possibilities attainable in our profession. Passing for twenty miles through such pleasing scenery as described, we reach Mr. Thos. Orchard's, where we are to pass the night. Mr. Orchard is a farmer of no small pretensions; his buildings occupy a convenient site at the crossing of two highways. Being a native of Quebec county, he applies, in his avocation, the practical knowledge of two noted farming counties. He has a blacksmith shop on his premises in which he does all his repairing and horseshoeing. Across the road from Mr. Orchard's, in well finished and neatly designed buildings, lives the Rev. E. B. Gray. We missed the genial genial of the Elder was away visiting friends in Lowell, Mass. We spent a pleasant afternoon, however, with Mrs. Gray, who noted for her generous entertainment of guests. Thursday afternoon we drove to Mr. W. Owens, Tracy Mills. He owns perhaps as good a farm as there is in Carleton county. One hundred and fifty acres under a high state of cultivation. He has grown over two thousand bushels of grain; he had a very fine crop of turnips this year; he utilizes this crop in the manufacture of pork and a glimpse of his hogs would satisfy any man of the adaptability of turnips for making pork. We cannot pass without expressing our appreciation of the attention Mr. and Mrs. Owens are giving to dairying; with a neatly finished dairy room, and all necessary utensils, coupled with a careful study of the requirements for a superior quality of butter, they have gained such a reputation for their butter that it is in demand all over the county. We are unable to supply the orders steadily coming in. Leaving Mr. Owens' we attended to a long standing invitation to visit Mr. Mark Tracy and wife. We were glad to meet and enjoy a sociable smoke with Uncle Fred who, with his respected wife, lives in the same house with his son Mark. Mr. Tracy has a fine farm and gives special care to the production of hay and oats; notwithstanding we are opposed to selling the raw material, yet we are glad to know our old friend Mark is pulling in the shanks.

## In Advanced Years

The strength and pure blood necessary to resist the effects of cold seasons are given by Hood's Sarsaparilla.

"I have for the last 25 years of my life been complaining of a weakness of the lungs and colds in the head, especially in the winter. Last fall I was again attacked. Reading of Hood's Sarsaparilla I was led to try it. I am now taking the fifth bottle with good results. I can positively say that I have not spent a winter as free from coughs or pains or asthma as this winter. I can lie down and sleep all night without any annoyance from cough or pain in the lungs or asthmatic difficulty."

E. M. CHAMBERS, J. P., Cornhill, N. B.

## Asthma and Bronchitis Cured

HALFAN, N. B.

C. E. PUTNER, Esq., P. M. 1.

Sir,—I consider it my duty, not only to you, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Cure for Coughs, Colds, Asthma and Bronchitis," to give my testimony to the most wonderful good effect it has. I have suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and use of your "Expectorant," I was persuaded to give it a trial, and on using two bottles I began to feel better, and after using three bottles I was completely relieved and am today perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. I am, yours,  
ALAN STEPHEN, S. S.,  
Merchant.
