"A NEW WRINKLE." What is Sponge Crepon?

This question has frequently been asked. PONGE CREPON is the Ideal Interlining, and is pronounced the BEST TICLE for the purpose that is manufactured and no matter to what crushing it is subjected if shaken out it will at once regain its former shape. It keeps the puffed sleeves and flare skirts in shape, and will be used altogether for an Interlining as long as fashion decrees the present leeves and skirts.
