C. E. FORTUNE, Esq., P. M. 1.  
Sir—I consider it my duty, not only to myself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time been unable to find relief from either of these ailments, and having carefully read your Essay on the combination and use of your Eucalypti, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely cured and am now in perfect health. I have found it very pleasant and palatable, and with no taste of oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. I am, yours, &c.,

A ROUSING TEMPERANCE MEETING.  
Last night a gospel temperance meeting was held in the Baptist church after the regular services. The chairman was Chas. A. Lewis, J. P. Rev Mr. Todd, who is an earnest temperance man, did everything to help the meeting along. The temperance speakers were I. G. Calkins and Louis E. Young. The audience was large and representative, and good interest was shown. The meetings were a grand success.

Mr. Calkins spoke first. The gist of his remarks was as follows: Gospel and temperance cannot be parted. We may have sobriety without godliness, but never godliness without sobriety. Intemperance is the greatest foe that the church and humanity have to meet. It lowers men in many cases beneath the brute. Rumblers have no spark of principle; their charity is done from motives of policy. Liquor traffic is not stopped because so many people fear to take hold of it, but they injure the temperance cause. Merchants are afraid of losing business, if they oppose the sale of liquor. So many Christians are practically hand in hand with the rum-seller. They should come out squarely and oppose the evil. He urged the Benton people to keep liquor out in the future as they have done in the past. He highly commended the W. C. T. U. and spoke of the great reform lately in Gloucester.

Mr. Young followed, speaking fifty minutes. He gave the figures of the financial loss entailed by liquor in Canada each year: Direct cost of liquor, \$40,000,000; value of grain used in manufacture, \$2,000,000; cost of support of paupers made so by intoxicants, over \$3,000,000; value of labor wasted, \$75,000,000; on account of death caused by intoxicants, \$14,000,000; lost by misdirected labor, \$7,000,000; Total, \$143,000,000 a year. The revenue gained from it is about \$7,000,000, Dominion; \$1,000,000, Provincial, and \$500,000 by the municipalities—in all, about \$8,500,000, leaving a net loss per year of \$134,500,000.

In the United States, the consumption of liquor costs directly, about \$1,000,000,000, and indirectly, \$2,000,000,000, while the combined expenditures for educational, benevolent and religious purposes does not exceed one-tenth of the sum spent for intoxicants. The cost of labor exceeds by half a billion dollars that of all the necessities of life. In Great Britain, one-seventh of the grain raised is wasted in making liquor, while thousands starve for want of bread. Mr. Young discussed at length the great social and moral question of the day. Fifty per cent of insanity and four-fifths of crime are caused by it. He next took up the moral side of the question, and declared that while moral education would reach many, only total prohibition could cure intemperance throughout the country. He declared that church members, in league with the rum power, were keeping back the temperance cause. He advised employers to hire no man who paid part of his earnings to a saloon.

The Methodist Mission concert, Sept. 12th, proved very successful, and reflected great credit on all who took part in getting it up. The children and adults who took part, performed their share of the programme well. Among the latter were the Misses Mabel Speer and Janet Gibson, whose recitations were thoroughly enjoyed by the audience. The night-dress drill was unique and taking. Refreshments were served. The receipts were fifteen dollars and seventy-five cents. Mrs. Wm. Speer, and Mrs. W. H. Muriel, respectively, are president and secretary of the missionary society.

The Baptist church here has their programme nearly completed; it is a fine residence and adds greatly to the appearance of that street. Dr. Baker has the outside of his dwelling under completion; it is one to feel proud of. The Dr. is an artisan, save, judging by the fine finishing one may see, the design of his own hand. G. W. White & Son have added to the houses of the old store and placing under it a stone wall, and a good platform. R. W. Ballou is now behind; he has the painter to work on his store, giving the roof and walls a coat of paint which, when done, will make quite a change in the looks of his place of business.

Dr. Green, dentist, of Houlton, has decided to take up his abode here. The Dr. has started a good practice; he comes well equipped, and we hope the people will give him their work that his stay may be long among us.

J. Gallagher, of Woodstock's lawyers, has taken rooms in J. E. Alexander's building; those wishing law and justice had better give him a call.

Dr. Brown intends, in the near future, to build a fine set of office near his residence; the Dr. has a good practice.

The principal topic of the day in the Exhibition in St. John; most everyone talks of going.

J. W. Cheney is around looking after votes; he wants the Council to be elected by the parish of Wilcox. We hope the voters will remember Joe and vote for him.

For treating Rupture, Mr. Cluthe has no superior in this country, being the pioneer in this line, and his latest patent, which is a revolution in trusses, could not be appreciated unless adjusted in person by him. It weighs but two ounces, has no belts or underpans, body of wearer is entirely free and if instructions are obeyed, Rupture is Entirely Cured in 3 Months.

Harvesting is about completed. The grain that has been thrashed gives a good yield, especially oats. Mr. George Simms attends to the thrashing here; he is reported as doing extra good work with the Moody machine this season.

Mr. John W. Lawson and Mr. Emory Macdonald are busy preparing for the lumber show, which will be held at the end of the month. Mr. Lawson very successfully did the overhauling of a large lumber party for Mr. Michael Welch of Gloucester, last winter. He will again start with the lot of this month with a crew of Mr. Welch's men whom he will again have the overhauling, to do an extensive operation on the Miramichi the coming winter.

Mr. William Gueyver will shortly leave to again work at mechanical work with Mr. David Lamoit at Gloucester.

Messrs. Robert and John Hallett, lumbermen of Millville, York Co., are now here on route to the New Brunswick to crane the ground where they intend to cut lumber the coming winter.

Crown L. O. L., No. 59, holds interesting meetings on the first Friday evening of each month. At the last session, District Master Rev. J. B. Fennison presided. The following Sabbath he held service in the Hall, which was largely attended and much appreciated.

Since the Orange Lodge was instituted here a little over a year ago, they have built a nice hall, the upper part being used for a lodge room, and the lower for meetings and lectures.

The Sunday school was reorganized last Sabbath by the Parish Vice President. There were 29 present and the following officers were chosen: W. C. Brooks, superintendent; W. E. Grant, assistant superintendent; and Miss Ella Broad, secretary. Teachers were also chosen for the three classes.

Another S. S. has recently been opened in the adjoining district in Mr. Jerry Dyer's chas't house, which is also used as the public school in that district, since the school house was burned some time ago.

Mr. W. C. Brooks is building a new house, and David Broad is preparing to build near the corner.

The school is taught by Miss Julia Dugan of Moose Mountain.

Dr. Cox and family have removed to Tilley Settlement in Victoria county.

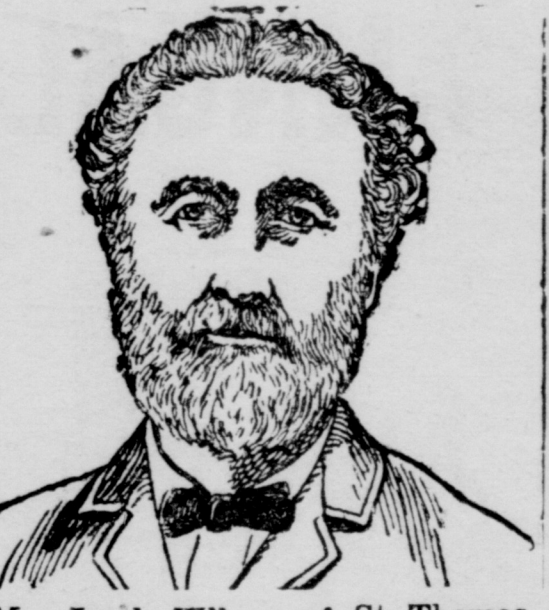

Mr. Pat O'Neill has announced himself a candidate for the County Council on the Orange Hall.

**Canada's Trade.**  
OTTAWA, Sept. 12.—The report of the Department of Trade and Commerce, showing the foreign trade of Canada for the fiscal year ending June 30, 1895, has been issued. Imports, being goods entered for consumption, amount to \$105,557,000 against \$113,093,000 last year and \$121,705,000 the year before. The imports of the same kind in 1875 amounted to \$119,618,000.

The exports eliminating bin and bullion from both years, amounted to \$105,440,000, compared with \$112,649,000 in 1894. The total trade for 1895 amounted to \$211,997,000, compared with \$225,742,000 in 1894, a decline of \$13,745,000.

The duties on imports amounted to \$55,545,000 and the duty collected to \$17,830,023, or 30.5 per cent on the average, against \$55,450,000 in 1894 and \$55,450,000 in 1893. In other words the rate of duty in 1894 was not reduced the rate of taxation. The monthly statements in the *Gazette* show that there is a revolution in the record of the first full year under the revised tariff, proving it beyond cavil. It will not do to say that more free goods were imported under the revised N. P. tariff because this class of imports declined by \$3,152,000, below 1894. Rice with the specific duty of one and a quarter cents per pound, was taxed almost fifty per cent. The value of coal oil imported during the year was \$505,008, and the duty levied \$433,273, over eight-five per cent, and the inland revenue taxes have to be added. The exports classified were as follows:—

Mining.....	\$ 1,300,000	1894.
Fisheries.....	\$ 1,300,000	1895.
Minerals.....	\$ 1,300,000	1894.
Animals.....	\$ 25,500,000	1895.
Plants.....	\$ 25,500,000	1894.
Manufactures.....	\$ 8,800,000	1895.
Other.....	\$ 8,800,000	1894.

**Important Action.**

L'Electeur publishes a report of the sub-committee of the Privy Council of Canada dated July 27th, made after the reply of the Manitoba government had been received to the remedial order of the Canadian government. It will be recalled that the Manitoba government had declined to comply with the remedial order for several reasons, which reasons were set out in a document already published. The sub-committee of the Privy Council, after reviewing this answer and saying some points in its deserv consideration, says:

In the interest of all concerned, it will not be disputed that, if possible, the subject of education should be exclusively dealt with by the Local Legislatures.

Upon every ground, in the opinion of the sub-committee, this course is to be preferred, and with the hope that this course may yet be followed, the sub-committee have now the honor to recommend that Your Excellency will be pleased to urge upon the government of Manitoba the following further views which may be pressed in connection with the remedial order.

The remedial order, coupled with the answer of the Manitoba government, has vested in the Federal Legislature with complete jurisdiction in the premises, but it by no means follows that it is the duty of the Federal government to insist that provincial legislation be actually satisfactory to the Federal government. It is the duty of the Federal government to insist that the exact lines of this order.

It is hoped, however, that a middle course will commend itself to the local authorities, that Federal action may become unnecessary.

With a view to settlement upon this basis, it seems desirable to ascertain by friendly negotiations what amendments to the act respecting education in public schools, in the direction of the main wishes of the minority, may be expected from the Manitoba Legislature.

It is believed by the sub-committee that the religious opinions and rights which have been recognized in the judgment of the Judicial Committee of the Imperial Privy Council could be sufficiently met by the Local Legislatures without impairing the efficiency of the act, and without the actual regulation of the public schools.

It is with this view that the Canadian government at its last session of the Federal Parliament made the following announcement:

"Though there may be differences of opinion as to the exact meaning of the reply in question, the government believes that it may be interpreted as holding out some hope of an amicable settlement of the Manitoba school question on the basis of possible action of the Manitoba government and Legislature, and the Dominion government is most unwilling to take any action which can be interpreted as prejudicial or precluding such a desirable consummation."

The government has also considered the difficulties to be met with in proposing and passing legislation on so important and intricate a subject during the last hours of the session. The government has therefore decided not to present a bill to the House of Commons, but to leave the question to the action of the Manitoba government and Legislature, and to leave the Dominion government in a position to take any action which may be necessary to carry out the remedial order of the 1st March, 1890.

The sub-committee have therefore the honor to recommend that Your Excellency will be pleased to urge upon the government of Manitoba the following further views which may be pressed in connection with the remedial order.

This important report means that the Canadian government has further explained by Amy Rayson. Bookbinding as an occupation for women is interestingly described by Evelyn Hunter Nordhoff. Lucia M. Robbins describes a new and interesting form of Entertainment. The Re-opening of the Schools is remembered in an account of things suitable for the Children's Luncheon Basket, while A. B. Langstreet contributes a practical exposition of How to Carry. The return of cooler weather makes timely the admirably illustrated series on Drapery. The papers on the K. Edgar by S. M. Miller, Kirby, on Floral Work for October by A. M. Stuart, and the designs for Burnt Work by Harriet Keith Folles fully answer the long-looked-for needs in these topics. Around the Tea Table has its usual admirable variety, and the Newest Books are sympathetically reviewed. Further contributions are given in Quizzes, Netting, Tatting, etc.
