Asthma and Bronchitis Cured.

HALIFAX, N. S. C. E. Puttmer, Esq., Ph. M.:

Sir,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervens system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. I am, yours, &c.,

She foretells events, reads the mind, solves very difficult problems, and even answers questions which are written at home. The Dufferin hotel, after being closed for two summers, has been opened by E. R. Wil lie of this city. This hotel occapies one of

the best sites in the city, on the corner of Charlotte and the south side of King square. Carpenters, painters and plumbers have been at work upon the old hotel building for several weeks; as a result the interior has been greatly changed and every room made to look bright and cheerful. The furniture in the Dufferia was imported from London, Oat., and is of oak carved in many unique designs. The carpets are soft and yielding, those kind that make it a pleasure to walk from one room to another. Mr. Willis has spared neither time nor expense in fitting up and furnishing the Dufferin. Every room is heated with hot water and lighted with gas and electric lights. The main entrances are on Charlotte street. The old front is soon to be torn out and a plate glass one put in.
The office is light and airy and is furnished

in the most substantial manner. The floor of this room is to be of marble. A barber shop, a writing room, and a bar open off the office. The dining room is one of the finest in Eastern Canada. The sideboard and sil verware were imported from the best manu-Paine's Celery Compound Does

The kitchen contains one of the best ranges ever brought to this city; it was made by John Burns of Montreal and is nine feet long. This department is fitted up with everything that a first-class suisine should contain. In connection with the hotel is a beautiful grassy lawn with a flag pole, a summer house, etc. Mr. Willis has arranged to have two band concerts a week upon this lawn during the summer week upon this lawn during the summer. The carpenters will begin at once the erec gion of an ell which will give the Dufferin 30 more sleeping rooms. John P. Sousa, the leader of the great hand, his wife and the leading members of the band, were at the Dufferin during their stay in St. John. Upon leaving Mr Sousa wrote Mr Willis the following letter: "During my stay in St John I was delighted with the excellent management and the attention I received while at the Hotel Dufferin"

The case of Mr. Samuel Hanns, an esteemed resident of Manvers, Ont., has attracted the attention of hundreds living in the district. Since Mr. Hanna's cure, by the use of Paine's Celery Compound, scores who were previously ekeptical. are now thoroughly convinced that every word and sentence of praise written in favor of Paine's Celery Compound in the past, is true and deserving.

Photographic. Few among the arts have made more rapid advance of late than the Photographic, even in this age of vast expanse in all realms of human ingenuity. "Ten years of modern Europe are worth a century of Cathay." On all sides improvement has gone forward by leaps and bounds. The protographic art is a comparatively modern one, but so perfect has it become of late that there seems little yet to be longed for. It may be classed among the decorative arts, but those who think it confined to that only have but little conception of its wonderful utility. It has many practical illustrations; its value in il-Instration can scarcely be over-estimated. To many of us has it not been invaluable?
