Asthma and Bronchitis Cured.

HALFAX, N. S.

C. E. PUTTICK, Esq., Ph. M.

Sir—Consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, at this time of year, to present to you my "Expectorant or Cough Cure." It is the most wonderful cough effect it has. Having suffered for some time with Asthma and Bronchitis, and having carefully read your book on the combination and use of these remedies, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief. Such after using three bottles I was completely cured, and am today perfectly free from either Asthma or Bronchitis. I can with great confidence recommend it to those suffering as I did previous to taking your compound.

A Visit Among the Lumbermen on Rocky Brook.

To the Editors of the Carleton Sentinel:

After a drive of forty miles through the forest, over streams and lakes, I have reached the large camp of Fraser, Richardson & Co., Carleton county. I was greeted with a hearty welcome by his boss, Mr. Falconer, of Windsor, invited to dinner and a good one, could be otherwise when prepared by Mr. Falconer. On Sabbath morn I was driven by Mr. Falconer to the second camp, where I found a large crew of men ready for service, and how they all help; what hearty singing; few churches have such a choir and seldom the preacher favored with much attention. After service the dinner was ready which I enjoy, prepared by another Mr. Falconer. Again we are in the sleigh on our way to the third camp; here I preach again to a nice number, after which we leave for the Depot Camp, a drive of eight miles. On our arrival tea was ready and such one, surprised many of our hotel spreads. What a surprise waiting to worship the Lord and he take charge of the singing, excellent; what a solemn season, all glad to hear the gospel preached and the Sabbath has been a good one. At the close of this service a liberal subscription was given to the minister. I found the men all well and doing well, some I had known years ago. On Monday morning I leave for home.

Carleton Co. Boys Always to the Fore.

To the Editors of the Carleton Sentinel:

Knowing you always have space in your valuable paper to make honorable mention of our boys and their doings, I am writing to you to send you the following:

I am working on the Ramford Falls and Rangely R.R., now under construction. O. W. Bates, of Pembroke, has the contract to build all the woodwork on the line. He has a crew of New Brunswick boys that is hard to beat. He has built in the last about two hundred and fifty thousand feet of timber and is now pushing to completion the Gammon Falls bridge which is 300 feet long, and to the satisfaction of all concerned. He has four more small superstructures to erect and then he will be done on this road. I understand they are trying to retain his services on this road next summer. Ramford Falls is a thriving village of two years growth, rough, rocky and hilly, not much like the other Carleton county towns. Any Carleton county boys can make themselves useful on any kind of surface.

If this meets your approval, it will not be the last communication from—
Yours, etc.,
RAMFORD FALLS, ME.

Your correspondent was wrongly informed as to where the Blomidon boys were at work. They were in the woods on Dead River, Me., instead of Red River, N. W. T.

The Foresters' ball on the 26th ult., was a success in every way, the public in the supper and dance, the fullest extent, and the Foresters enjoying the receipts to the amount of \$40, clear of expenses. The proceeds go to the general purpose fund of the Court.

R. E. Gray preached here yesterday morning in the F. U. church. Text, Prov. xviii, 24. A man that hath friends must show himself friendly; and there is a friend that sticketh closer than a brother.

In the evening, Rev J. R. Hopkins preached a sermon on "Christian Unity" from Eph. iv, 3. Endeavouring to keep the unity of the spirit in the bond of peace.

It is said that the engineer who looked over the Rapids Bridge stated that he thought the government would rebuild the bridge during the coming summer. If this should be correct, it is only another instance of misdirected money. In the winter season, the work could be raised from the ice, and the ice could be used by travellers while the bridge was being erected. "But put not your trust in"—the government.

Seeing that your correspondent of this community has neglected his duties, I hope that a few lines from my pen will not meet with disapproval.

Miss Blanche Olmstead, whom her friends hoped had recovered from her long illness, is again seriously ill.

Several of our farmers are doing quite a business in lumber, wood and bark, this winter.

We are sorry to learn that Mr. William Monteith is quite ill. Dr. Sprague is in attendance.

Our day school is under the supervision of Miss Annie MacCosh, of Douglastown. Miss MacCosh has proven herself worthy of the position which she now fills.

Mrs. W. O. Clark, who has been visiting her parents in Minnesota, has returned home.

We have reason to believe that a series of revival meetings will be held in the church at Ferrisville in the near future.

Peel Items.

Sammie Miller paid this place a dying visit a few days ago. He is of the opinion that Peel should have a shoe shoe club.

Mrs. Wood, of Mass., is holding a series of meetings in the school house here, and in the Advent Church at Middle Simonds. On Sunday morning, at the latter place, she preached from the words, "Come ye out from among them." Her discourse was very interesting. On Saturday, the 2nd inst, 2:30 p. m. she is holding a children's meeting at the school house here. All are invited.

The farmers of this vicinity find it hard work to dispose of their hay this season. Prices are very low and cash is out of the question. Oats are a fair price, and those who have hay to part with can get the "bundle" if they bring them along to Stan.

We are much pleased to see the smiling countenance of W. N. Burke again in this community. He has lately returned from one of the western cities, where he has been engaged as proprietor of a bowling alley. He reports time well in the west.

THE BELLE OF THE EVENING.

HER LOVELY PINK SILK DRESS.

A few weeks ago a ball was given in a flourishing Ottawa town. Youth and beauty were fully represented, and many of the ladies were charming costumes. The belle of the evening was a young lady of twenty years; she was the personification of grace and beauty, and won the admiration of all who were present.

Her brother, an intimate friend of the writer, told the following secret: "My sister looked charmingly beautiful at Mrs. Y's ball last evening. From what I had heard about her ball dress at home, I fully expected elegant and disappointing as far as I was concerned, because I understood she was to wear a dress that had been dyed with Diamond Dyes."

For some time she had worn a cream silk, but it had become somewhat soiled, so mother and sister determined to dye it a light shade of pink, and I fully expected a failure.

Before going to the ball I was called to see my sister in her new dress, and I could hardly believe it was the old dress dyed. The lovely light pink was a marvellously rich shade, and the whole costume so becoming that I was greatly delighted. Young and old were charmed with the dye. It was a good taste, but of course they had no idea that Diamond Dyes played so important a part in the success of the costume.

Mother—When you dye any valuable material always use the Diamond Dyes, if you wish success; they never fail to give good results.
