This is more particularly the case in Westmorland, where there is not much hope for the opposition. Of course at this writing it is not possible to say what will turn up in St. John city and York county. Both of these are in solid opposition now, and the government has nothing to lose in either of them."

Record vs. Record.

Mr. Fenety is now, as Editor of the St. Tuesday. John Record, engaged in the Herculean task of proving that his present paper was in error while supporting the Local Government in the past and proving, as it has frequently, that Government to be worthy of public confidence. This sudden change of sentiment is, we notice, attributed, by some, to the fact that Mr. Fenety was recently reformed out of the Queen's printership. This reform, by the way, is one that the SENTINEL has al- College. ways advocated.

The Record tells the story of most notable reforms achieved by its present Editor and the St. John News in the olden times and concludes, we suppose, that it can with the same instrument now defeat the Blair Government and prove all the excellent things ville, Me., and Miss Delia B Grant, formerly said by it, of that Government, in the last of Canterbury, is announced. year or so, mistatements of facts. We have never indulged in fulsome applause of the Premier and his Government; we have doubted the wisdom and policy of some of their acts and votes but, taken as a affairs we have given the Government a support justified by the ever increasing confidence expressed by the Provincial electorate and their representatives in the Assembly. No reason that we are aware of why the electors of this County should go back on the Government in view of their dealing here with all or any public matters within their jurisdiction.

We find that people generally think the policy of short notice given of the elections is a wise one. It prevents the country and its order of business being disturbed for a long time by a preliminary agitation, which serves no good purpose

The Candidates.

The three candidates, for seats in the Local Assemby, are now by their card before the electors. Carleton county has now, thanks to the Government, and its representative the privilege of returning one more member than before. The three candidates referred to are running as independent supporters of sociations to the electorate.

GARDEN BROS.,

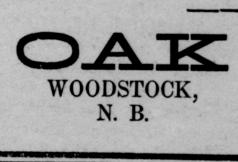

The Suits in pictures always look pretty smooth and slick. The suits in stores look real nice. It's easy to get a good fit, too. The average man isn't an automical freak, and out of most any well selected stock a good fit can be obtained. But when a suit begins to mingle with the multi-

sorb the radiant rays of shimmering sunshine—then the materials won't stand the usage; the shape goes first, and that means the fit and color. When the color is gone the wear of a garment is practically at an end. Good materials will stand wear. Our BLUE-BLACK CHEVIOT SUITS at \$12, are all wool and fast color, full of life, strength and elasticity; they are reliant; will resume shape—and is the best suit for the money that can be found anywhere. Our knowledge and experience in the business enables us to buy only the best. If you'r a gilt edge buyer you'il do well to see us.
