Medical Testimony During half a century proves Cod Liver Oil to be the most necessary thing to take for consumption. But the trouble has been its improper methods of preparation for invalide.

Miller's Emulsion of Cod Liver Oil is the only reliable formula on the market. None but the livers of the Norwegian Cod are used in making it. In conjunction with the hypophosphites of lime and soda it has the most wonderful effect on consumptive patients, who, after taking it for a while, get new strength, rise from their beds and enter upon a new lease of life.
