The way a number of people did who put off ordering a Crown Mower until the 10th of July and found them all sold.

Tnanking those of our customers who obtained their Crowns, for their patronage, we wish to call their attention as well as those who got left, to the fact that we have only 24 Little Giant Threshers for sale this season, and that if they wish to purchase, it is advisable that their orders be placed as soon as possible. The reputation our threshers have attained has placed them so far above all competitors that they have become the standard Threshers of the Maritime Provinces, and it is unnecessary for us to attempt to describe the numerous points wherein they excel. They are well known to thresh fast, save grain, and clean it in a first-class shape. We guarantee them to be the most durable machines in the market, costing less than \$5,00 per year for repairs. ### Keep Milch Cows In Good Health

IT PAYS .- It is useless to expect a lean, run-down cow to have a good flow of milk, though she will eat more than an animal in good flesh. The difficulty is the nutriment is not all extracted from the food because her digestion is out of order.

Dick's Blood Purifier will strengthen the digestion and make the food produce milk. It will cost

but fifty cents to try it on the poorest cow you have and you will get back your money with interest in a few weeks. For sale b. Druggists, at general stores or sent post paid on receipt of 50 cts.

Women are not all Beautiful but all women are attractive who are beautifully dressed. Beauty unadorned may do in poetry, but the nicely fitting gown is the desire of every true woman. Priestley's dress fabrics have done much to realize a woman's ideals by offering, in their texture, appearance, fit and wear, a character and distinction, which no other derss goods, however excellent, have quite attained to. And now Priestley's have something new. The "Eudora' is all the rage. It is even better than the Henriettas so much admired. The "Eudora' has something which the Henrietta lacks—to wit: greater width, greater weight, and a superior dust shedding quality. And then it has an exquisite surface which gives it an almost regal presence. Wrapped on "The Varnished Board," and the name, Priestly, stamped on every five yards.
