From a letter by D. Innis, secretary, to The Co-operative Farmer, we learn that the 00 regular meeting of the Upper Kintore Dairy-1 70 ing Association was held on the 5th June. with a large attendance, Mr. Connor in the

Mr. D. Curry then took up the subject, "Would a cheese factory pay if started in this district?" Mr Milus asked some very important questions on establishing a cheese factory. Mr. Ourry answered the questions as follows:— Account as co..stable of B Colpitts, Inspector under Canada Temperance Act.

It would take from 200 to 400 cows to furnish milk. He thought it would take 3c. 400 a pound to make the cheese and haul the milk, but is in doubt about a factory paying, 17 60 milk, but is in doubt about a factory paying, the way the cheese market is at present. He thinks the supply is equal to the demand.

Mr. Coutts thought that 70c a hundred for the milk would pay the farmer. He asked the question, "Would it be a co-operative plant or would any individual start one?"

Mr. Curry said he would either go it

single or in a company.

The president asked the question, "Would the members present give their ilea how much milk they could supply a day?" It was moved and carried that this question be answered at a future meeting. The subject for next meeting will be, "What breed of cows is suitable for cheese

oo making?" by George Findley.
