Canadian butter makers will need to improve if they are to do the export trade which is theirs if properly looked after. Addressing the Quebec Board of Trade, the other day, Hon. Sydney Fisher said that he was compelled to state the unpleasant truth, that owing to the inferiority of Canadian butter, its trade had decreased.

The steamer Aberdeen left here for Fredericton last Friday, but was unable to return owing to the lowness of the water. The Fredericton *Herald* says the Bear Island bar is the cause of the trouble and very properly adds: 'It is a great pity that after all the money that has been expended by the Dominion government in endeavoring to make the river navigable between this city and Woodstock, that a steamer drawing scarcely more than two feet of water, cannot make the trip at this season of the year, when her doing so would be such a great benefit to the people residing along the river."

Farmers should read and ponder the following from the St. John *Globe*. The fact is, and we know it, that while in this county excellent oats are raised, many farmers by carelessness, in seeding and cleaning, put grain on the market which is of a disreputable chararcter;—

"The City Council has decided to purchase for feed, for civic horses, Ontario oats costing several cents a bushel more than either New Brunswick or P. E. Island oats. Some farmers say New Brunswick can and does beat the world growing oats. Others say provincial farmers are careless and do not keep the oats free from other grain. The conditions are worth serious consideration by the Local government and the agricultural societies."

McKinley Wins.

The presidential election, or the election of delegates to the Electoral College, on Tuesday, in the United States, resulted in Mr. McKinley securing 300 electoral votes, carrying 24 States, and Bryan 124 electoral votes in 13 States.

The number of electoral votes necessary to a choice was 224, so that McKinley has 76 votes more than necessary and 176 more than Bryan. McKinley carried California, Connecticut, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Nebraska, New Hampshire, New Jersey, New York (36 votes), Ohio, Pennsylvania, Rhode Island, South Dakota, Tennesse, Texas, Vermont, West Virginia.

This is a great triumph for sound money and business standards, and it is a triumph for the Republicans. Of course it must be remembered that in this instance the stable Democracy refused to accept the Chicago Democratic platform and nominee, and assisted the Republicans in securing the present victory.

In Houlton the vote was: Republican, 405; democrat, 20, national democrat, 11; prohibition, 30; people's, 2; total, 568.

Spoils System.

The latest ministerial utterance respecting removals from office of civil service employes was that of Hon. Mr. Davies, at Charlotte, P.E.I., at a banquet, given in his honor, last week. He said he did not favor the spoils system.

"A competent civil service is a necessity which must be maintained. It would be an unmitigated curse to change the civil service with every change of government. But neutrality is the price of civil service permanency. Every man has a perfect right to vote just as he pleases. But when he goes beyond that, takes an offensive partizanship and evidently strives for political fame we propose to give him such a chance by ridding him of the ties which bind him to his office."

This is plain talk to which few will object. The civil servants of Canada are virtually appointed for life or during good behavior; they may not be displaced except for cause shown. Incapacity, physical or mental, is a good cause for displacement and, evidently, another good cause is what is meant by the term offensive partizanship.

There is a phase of the civil service system which should be considered. The superannuation system was adopted in order to make provision for civil servants whom it became necessary to retire owing to incapacity from physical or mental causes. But the fact is patent that the original intention of the superannuation fund has been, in hundreds of cases, departed from of late years. Officials still fully capable of continuing in discharge of duties which they had satisfactorily performed, have, without previous notice, and without reason given, been removed and their places given to men who, aspiring to office, have been able to do such service for local candidates, for parliament, as seemed to entitle them to consideration. Thus injustice has been done worthy individuals and a wrong done the people by unnecessarily increasing the charges upon public revenue.

William Taylor Dead.

This community was surprised to learn that, on Sunday morning last, Mr. William Taylor had died. Deceased was 68 years old; for a length of time he had suffered from a kidney disease for which, recently, an operation had been performed.

He leaves a widow but no children; by his death a good man and good citizen of retiring yet most genial personality has gone from us.

Mr. Taylor was widely known as for many years he carried on the business of general trader and, afterwards, that of a lumber mill operator at Victoria Corner.

Removing to Woodstock he invested largely and profitably in real estate and here for a time he was concerned in connection with Mr Hugh Hay, in the manufacture of iron fencing for grave lots. He has been a Town Councillor and was, at the time of his death, Town Street Surveyor in which office as in civic affairs generally he showed much interest.

The funeral took place Tuesday morning from his residence, Green street, Rev. W B. Wiggins officiating, assisted by Rev. Dr. Chapman, Rev. Mr. Whiteside, and Rev. T. Todd. The interment was at Victoria Corner.

Notes at Hartland.

On Wednesday of last week, Dr. I. B. Curtis had a cow killed by a freight train, near the Beckaguimic bridge. She was a very valuable pure blooded Jersey, imported by the Government, in 1891, she then being a yearling. Dr. Curtis paid $50 for her, and her value he considers had been greatly increased. An enquiry will doubtless be made.

The Commercial Hotel has been greatly improved in appearance and convenience by the building of an outside entrance stairway. Mr. Rideout says business is good.

Shaw & Dibblee have erected a fine warehouse near the railway track.

The Hartland Woodworking company is doing a good business, orders coming in readily. Some new sash machines have recently been added to the equipment of the mill. Mr. James Alcorn is now associated with Mr. Richardson in this enterprise.

The new Baptist church is being quite rapidly completed and will be an ornament to the place which has so many excellent buildings. Nearly every church will be provided with its independent building.

The ferry boat, through a mishap or carelessness on the part of a passenger who crossed over on her, on Wednesday night of last week, broke the wires and went adrift. She was picked up five miles below Woodstock. Getting her back into place involved much labor and delay.

Messrs. Gillin ship large quantities of live hogs to Montreal. They loaded a car last Friday, the third within a short time. They ship 120 hogs in a car. We are told they only pay 3c. a pound.

The foundation is laid and erection being proceeded with of a building intended for a Foresters' Hall and an Orange Hall on the second floor, and a skating rink, etc., on the ground floor. The size of the building is 35 by 65 feet, 2 stories and an annex, 12 by 25 feet, 1 story. Henry Stevens is master builder.

Ladies, do not fail to supply yourselves with Flannelettes while you have the opportunity to purchase them below cost at B. B. Manzer's.

Summer Tourists.

Under the auspices of the St. John Board of Trade a committee called the "New Brunswick Summer Tourist Association" has been formed with a view to advertising the attractive features of this province.

This is a timely and very proper movement. The SENTINEL has often referred to St. John as an inviting point for the visiting and lingering of tourists seeking fine air and healthful surroundings.

The movement is one, too, that must demand the countenance of the entire communities of the St. John River districts. With better facilities for comfortable and rapid travel on the river by means of improved steamers to Fredericton which are promised, potent inducements will be offered to tourists to "do the river." We, in the up-river districts, are interested because we have resorts and scenery unsurpassed in attractiveness and beauty, from Woodstock to Grand Falls, as yet almost unknown to summer seekers for change. Then the sporting opportunities which nature has provided, up this way, are manifold and superior.

We shall be very glad to have this subject aired through our columns by correspondents, and Mr. Ira Cornwall, St. John, will be pleased to receive communications from parties interested on the leading attractions, fine scenery, attractive drives, mineral springs, in fact anything likely to interest tourists.

Mr. Cornwall will also gladly receive any ideas or suggestions, and he is particularly anxious, on behalf of the Association, to make a collection of photographic views of scenery to be used in illustrated pamphlets. Any such photographs, suggestions, etc., we will, if desired, forward to St. John.

Smith—Connell.

St. Luke's church was the scene of an interesting event on Wednesday afternoon when, in the presence of a large company, Ven. Archdeacon Neales pronounced the words which united for life in the bonds of holy matrimony, Miss Helen Ella Connell, daughter of the late Dr. C. P. Connell, and the well-known and popular head clerk in W. F. Dibblee & Son's hardware establishment, B. Harry Smith. There was a full choral service, and the church was beautifully decorated with fruits, flowers, grains, etc. The bride was very neatly arrayed in a dress of blue mixed cloth trimmed with blue velvet and astrachan sable and hat to match; she carried an exquisite boquet of white roses and maiden hair ferns, and looked "lovely as a bride" as she entered the church leaning upon the arm of her uncle, Wm. M. Connell, Esq. Messrs. Aubrey and Herbert Connell, cousins of the bride, gracefully discharged the office of ushers. The bridal gifts were profuse in number and quality, the groom's present to the bride being a costly diamond ring. From the church the bridal couple made a call upon the bride's aunt, Mrs. W. F. Smith, who is confined to her house from the result of her recent accident, and from there they drove to the train where was waiting a large crowd of friends to shower them with confetti and good wishes as they started on their bridal tour to Boston, Newport, New York, etc.

The SENTINEL joins in the general congratulations.

Do not fail to call and see the Great Bargains in Flannelettes, at B. B. Manzer's.

The Ethel Tucker Co.

The above popular company opened a week's engagement, in the Opera House here, Monday evening, and have since been playing to large audiences nightly. The most casual observer is at once impressed with the fact that Miss Tucker is a first class artist, and in her several roles she is most ably supported by H. P. Meldon and his excellent company. Their repertoire comprises new and popular plays, each piece being richly costumed and beautifully set. It is seldom indeed that our citizens have the privilege of listening to so highly talented artists, or that a company appears on the boards here that in its entirety is so commendable. To night (Friday) the beautiful comedy drama in 4 acts, "The Wife," will be placed on the boards, and on Saturday evening will be presented the startling melodrama, "Alone in London." There will also be a Children's Candy Matinee, Saturday, at 2.30.

Dairy Association.

W. S. Tompkins, president of F. & D.A., organized a Dairy Association at Middle Southampton, Saturday evening, Oct. 31. The following officers were elected: F. R. Brooks, president; Burns Akerley, vice president; F.C. Brown, secretary-treasurer; with Messrs. J. N. Grant, Geo. S. Ingraham and John Akerley, directors. This Association starts out with a large membership and we believe, judging from the progress made in agriculture in this place in the last few years, the promoters of this Association will make it a success as the farmers here are availing themselves of every possible source for a practical education in their business.

The latest novelties in Ladies' Cloth Jackets, just opened, at B. B. Manzer's.

Of Interest to Farmers.

Mr. W. S Tompkins, president of the N. B. F. & D. association, will, at the instance of that body, visit different localities in Carleton and York counties, in order to reorganize and institute local dairymen's associations and arouse an interest in the working of agricultural societies.

Farmers will give this matter consideration and communicate their wishes to W. W. Hubbard, Sussex, secretary of the provincial association.

On the Tramp.

The Bangor *Commercial*, of Oct. 29, states that Lorenzo Murphy and Charles Mitchell, one white the other a mulatto, were arrested in that city, they being intoxicated to a slight degree. They were in the lock up awaiting action by the police officials. Murphy enclosed some papers in an envelope and sent it to the chief of police; among the papers was a clipping from the SENTINEL which gave a statement of their arrest for burglary in Woodstock; in manuscript were jottings apparently of pointers for defence.

Shaw & Dibblee, at their hardware store, Hartland, are showing something new, in which horseshoers are specially interested. They are steel toe calks for ready application to the shoe and appear to be a very desirable article.

The Benefit supper in Cole's Hall, Monday evening, was generously patronized, and a handsome sum was realized for the most commendable object the ladies in charge had in view. J. S. Leighton, jr., was the winner of the quilt.

On Wednesday, 28th ult., Geo. Leslie, a brakesman on a C. P. R. freight train, when shunting cars at Kilburn, was caught between a car and the switch rope and, it is feared, badly injured. Leslie was taken to his home at Grand Falls.

It is reported from Montreal that the C. P. R. has sent a circular to every agent and operator on the railroad line, asking them to state their grievances. The step arises out of the recent strike and is with a view to remedy the causes of complaint where such are shown to exist.

The shingle machines manufactured by Connell Bros. have earned for themselves a very widespread and enviable reputation. Orders for them from abroad are being constantly received; the other day the Messrs. Connell shipped one each of the machines to Quebec and Ontario.

We are glad to learn from the *Aroostook Pioneer* that there are many signs of recovery in that county from the depression through which it has passed during the past year. The feeling of discouragement is passing away. The farmers have learned that their safety lies in raising a diversity of crops.

Balmain Bros. are agents for the sale of Albert's Concentrated Soluble Horticultural Manure. We have been putting this fertilizer to a practical test on house plants and can confidently recommend it. It is easy of application, free from any unpleasant smell, clean to handle, and is most marked in its vitalizing effect upon plants.

Capt. William Forester, of the Royal Canadian Dragoons, a son-in-law of Senator Thomas Temple, has been granted three certificates in England. The first was obtained from the army veterinary school at Aldershot, the second from the cavalry school at Shorncliffe and the third was granted by the musketry school at Hythe.

In trephining the skull of a young man in Indiana, recently the surgeons discovered a plant nearly an inch long, of threadlike structure and long, fibrous roots, growing in the brain. Two years before the young man had fallen from a wagon and injured his head. The only way of accounting for the presence of the plant is by saying that some of the seed was driven through the skull at that time.

Proprietor of the Dufferin Hotel, St. John, LeRoi Willis, has had a jumbo oak and wicker easy chair made and sent it to Boston to be presented to the President elect of the United States. It is a notable fact that recently and, in fact, within a few hours of each other, four young women committed suicide, without, in either case, any very apparent reasons. One of the instances was in Massachusetts, one in Ontario, one in Nova Scotia and one at Nashwaak, in New Burnswick. These girls were all well situated as regards their several surroundings. The circumstances are alike distressing and notable.

The ladies of the Hartland Baptist church will have a chicken supper in the basement of their new church building, on Friday evening, Nov. 13. Not only chickens cooked in a variety of forms will be served, but everything else also belonging to a first class supper. Tickets for supper 50 cts. Proceeds for the benefit of the church building fund. Everyone is cordially invited and a pleasant time may be expected.

It will be seen, on reference to his advertisement in to-day's supplement, that G. W. Vanwart is selling out his entire and extensive stock of dry goods, at a great reduction, in order that he may dispose of the goods and retire from the business. This is an opportunity that seldom presents itself, and those in need of dry goods, from the richest and costliest, to the commonest and cheapest article, will now have a chance of supplying their needs at rock bottom prices.

Pastors, S. S. Sad Suicide.

Miss Grace Humble, aged 24, daughter of George Humble, of Cross Creek, committed suicide by drowning herself in the Nashwaak river on Friday night of last week. She had resided with her uncle, Daniel Elliott, of Stanley, ever since she was a child, and on the night in question the family retired leaving her sitting in the kitchen sewing. The following morning no trace of her could be found. A diligent enquiry was kept up among the neighbors and relatives of the young woman during Saturday and Sunday but nothing definite was learned of her whereabouts until this morning, when her lifeless body was found floating in the river, a short distance below the Stanley bridge. It was covered by nothing except a night gown, over which there was a loose wrapper. An inquest was held and the jury returned a verdict that Grace Humble came to her death by drowning herself while temporarily insane.

Wicklow and Simonds S. S. Convention.

Sunday school superintendents, teachers and friends of the work in the above parishes take note that in a few days, somewhere between the 15th and 22nd of this month, our Convention will meet in the Baptist church, Florenceville. Preparations for the Convention are being made. The exact date will be duly announced, nothing preventing, in next issue of SENTINEL, as also in the *Press* and *Dispatch*. Get the lesson for the 22nd up ahead. Look forward to a convention in accord with modern progress. Look out for S. S. items and come to give us the benefit of them. Get your thoughts to work. Write out some questions to be answered and hand them in the day of Convention to our Secretary, Mrs. Bradford Smith of Summerfield. Delegates to Provincial Convention, so recently held and so packed with good things, come with brief, happy suggestive reports written with which to enliven and profit the Convention. Delegates of Kent parish to Woodstock come too and lend us your aid if you can arrange to do so. All pray and expect. Come to give and receive and to enjoy a convention long to be remembered.

D. FISKE.

Marriage is exhaustively discussed in the November *Ladies' Home Journal*—by Mrs A D T Whitney, who tells her girl friends 'The Truth About Marriage,' and Dr Parkhurst, who writes of 'The Young Man and Marriage.' The same issue contains the first of 'Mr Moody's Bible Class' articles, which the famous evangelist will contribute to the *Journal* in the future—as the leader of a great National Bible Class. The initial article of 'Great Personal Events' series—in which the conspicuous occurrences of the past half century will be told by eye witnesses—is also given. Of special artistic and timely interest is a page illustration by W L Taylor, delightfully portraying 'Thanksgiving Time in the Colonies,' and the cover by R A Bell, artistically typifying the season of Thanksgiving. Edward W Bok emphasizes the virtues and value of the bath, and deprecates the tendency of mothers to escape the responsibility and care of training their own children. In the line of fiction the November *Journal* presents the conclusion of Ian Maclaren's charmingly told story. 'The Minister of St. Bede's,' and a story of fascinating interest, 'The Assistant Librarian Pro Tem.,' by Robert O V Meyers. Lilian Bell writes of 'Other Girls' in her characteristically bright and crisp vein; Clifford Howard tells the 'Origin of Our Names'; Ruth Ashmore advises 'The Girl Alone in the City,' and J Harry Adams describes how to make ornate and useful articles of household furniture. The Thanksgiving *Journal* is replete with interest and attractive artistically; it is a magazine that appeals to every home. By The Curtis Publishing Company, Philadelphia; one dollar per year; ten cents per copy.
