The Carleton Sentinel.

SATURDAY, APRIL 17, 1897.

SENTINEL Office, in Vanwart's Brick Building, King Street, up stairs.

The Montreal *Witness* is authority for the statement that the Finance Minister intends to reduce, after July 1st, the rate of interest paid to depositors in the Government savings banks, from 3½ to 3 per cent., and save a hundred and seventy thousand dollars next year to the country by the reduction.

The victory of the Conservatives in Chamblain was both a triumph and a defeat. The constituency had always gone strongly Conservative; in June the Conservative candidate had a majority of 376 which reduced last week to 154 shows that Liberal sentiment, notwithstanding the peculiar canvasses and the clerical influences operating, is flourishing in that hitherto unfavorable constituency.

It has been observed that since the revenue returns for March were published, there has been little offered by the Opposition as to an expected deficit. With a decreased expenditure, the revenue for March was $1,400,000 greater than in the same month of the previous year. The total revenue up to the 31st March was $23,552,165, an increase of $616,000 over the revenue for the same months of the previous fiscal year, while the expenditure was $23,552,165, an increase of $832,000 over the same months of last year. The expenditure has been swelled by the fact that the late Government left more than $1,200,000 in unpaid bills, which the present Government has had to liquidate.

British Feeling Aroused.

No wonder that public sentiment in Great Britain is becoming most thoroughly and strongly aroused to a pitch of indignant and disgusted remonstrance, as it is learned that British ships and British troops have been and are giving aid to the Sultan against the Cretans. Gladstone, in his clarion like utterances against the lustful and bloody butcher of Turkey, only voiced British feeling; and that feeling must soon compel the Government to respect its demands.

The Tariff.

It is easy to appreciate the anxiety with which business men, importers and manufacturers, look for the new tariff about to be launched at Ottawa. And, no doubt, the Government are equally anxious to discharge their duty in the matter and redeem their anti-election pledges. At the same time, it is appreciable the vexed and mixed nature of a tariff bill and, especially, the difficulties facing the Government under all existing circumstances. Hence deliberation, even seeming dilatoriness, is preferable to undue haste. We have seen tariff bills introduced in parliament, so imperfectly digested as that they have been torn to pieces under discussion. When the new tariff is submitted, it is expected to be so complete in form and provisions as to recommend itself to parliament and the country. The Opposition decry the Government for delay, influenced possibly by a desire that hasty preparation may develop weakness.

More Profitable form of Investment.

If it is a fact that the Government intend to lower the rate of interest on savings bank deposits to 3 per cent. it will probably effect the disposition of money holders and lessen materially the amount of investment in savings bank in future. While such local industries as the canning and pork packing factory, and others, are being promoted, we think our farmers and others might find it more profitable to invest in stock in such enterprises We use the term local as applying to the whole County, for the changing of our raw material, whether it be fruits, vegetables, grain and wood, etc., into manufactured or preserved articles, in constant demand, and for which the market is very large, and upon which the profits, in the aggregate, should be considerable, is a matter that touches the pockets and appeals to the enterprise of all producers and handlers of the material required.

Civil Servants—Dismissals.

As it is well to understand just what the Government's policy is, with regard to civil servants, etc., we copy from Hansard the following paragraph from the Premier's speech on the address. Replying to Sir Charles Tupper, Mr. Laurier said:—

"When he spoke of superannuations and of the civil service, I listened to him, I must say, with some interest, for he dared to utter the words emissaries and spies. This is, I am afraid, the only reward we may expect at the hands of the Opposition for having been generous in our treatment. We announced on the floor of Parliament last session that no member of the civil service, whether of the inside or outside service, would be dismissed, except for cause. We declared that every man against whom a charge was brought would have an opportunity of defending himself before a court of inquiry. We appointed commissioners, to investigate charges against members of the civil service, and all the reward we have at this moment is that honorable men, discharging their duty faithfully, are called by my hon. friend emissaries and spies. Sir, the temptation might be great not to be generous. The temptation might be great to recall those spies and emissaries, as the hon gentleman describes those men who are dealing justly and honorably with the members of the civil service, on the charges brought But we shall not do that. We shall be generous as well as just and fair. What we have done and are doing, we shall continue to do. We shall dismiss no man except for cause. Every charge shall be investigated and justice be done, but no mercy shall be shown to a delinquent officer."

Great Linen Sale for 15 days beginning Monday, March 29th, at B. B. Manzer's.

T. V. Railway.

The terms of settlement in the case of the Tobique Valley Railway vs. the C.P.R., are that the Canadian Pacific shall pay the taxed costs and $100 additional cost for plaintiff's solicitor, the plaintiffs to obtain good titles to lands they were to acquire under original agreement; that the defendants spend $4,000 on repairs, to be deducted from the gross earnings of the line which would otherwise be paid to the plaintiff; that the defendants be given the written consent of the bondholders of the plaintiff; that a train be run one way each day, and, when necessary to hold the charter, it is to be run oftener. That the lease is to be arranged as soon as possible, and the operation of the road to begin immediately; that the C. P. R. is to account for 40 per cent. of its former earnings and apply these on the $4,000.

Town Council.

Tuesday evening, April 9.—Full board; his Worship in the chair.

The Mayor read a letter from Sir Donald Smith asking for photographic views, etc., which letter has already been made public; the letter was referred to the Printing committee, with power to act.

Report of Town Marshal showed licenses collected in March, $45. Received and Marshal's commision ordered paid.

Coun. Lindsay read a contract prepared, to be executed by the electrician John Brown, who is to keep clean, repair so far as such can be done in Woodstock, light, maintain in good condition and fit to run all night, the electric lamps, for $33 34 per month, during the running of the lights, the town having the right to shut down the lights for such period as they may deem proper. On motion the Clerk was authorised to have contract properly executed

Coun. Lindsay reported from the Police committee that they had investigated the charge made against the Chief of Police and could not find that the prosecutor had any just cause of complaint. Report received.

Coun. Graham said that in looking over the bills against the town he found that they were accumulating fast, and he thought that the system of getting work done by the day was costing too much; where possible he thought all work should be let by competition.

Fraser Richardson was ordered paid $125 on account wood; and officers salaries due 1st inst. also ordered paid.

Coun. Graham said Finance committee found that the town was paying men for labor who had not paid their taxes; he thought the Marshal should be instructed to see that the amount of their tax was deducted from their wages.

Coun. Lindsay called attention to the fact that the statute made tax due on property where the property was about to be sold, the first lien; parties selling or buying property would do well to remember this.

On motion Jones, seconded Lindsay, John McCormac was made a surveyor of wood and bark.

Coun. Jones, referring to the bequest of the late John M. Connell to the town, said he understood Mr. Fisher was in favor of investing it in a park, and if that was to be done legislation would be necessary He moved, seconded by Lindsay, that a committee be appointed to confer with Mr. Fisher, executor of the estate of the late J M. Connell, in reference to applying it to the creation of a park. The resolution carried and his Worship appointed Couns, Jones, Lindsay, Graham, Ketchum, such committee.

A petition from Jacob Vanwart was read, calling attention to the danger his property was in from the frequent firing of the Davis buildings and praying that said buildings might be removed,

Coun Lindsay thought Mr. Vanwart had made his complaint to the wrong body; that Council had no right to order the buildings torn down, unless under such circumstances as he had previously stated. The matter was one which should be referred to the Grand Jury.

Coun. Flemming stated that he brought the petition at Mr. Vanwart's request, but he had told him that he did not think the Council could do anything in the matter. Mr. Vanwart said that it was an easy matter for those living at a distance to say oh, it is only the Davis building, but to him whose property was adjoining and exposed to destruction it was quite a serious affair. He thought that after notifying the Council, if his property was damaged by these buildings being allowed to remain as they were, the town would be liable for the damage. However, he had presented the petition as requested and Council would act as they thought right in the matter. The petition was placed on file.

Mr. D. G. Haire, representing the Good Road Machine Co., of Hamilton, Ont., was on motion heard, who stated that he was present for the purpose of selling a machine to the town of Woodstock, if possible. With a machine, he contended, two teams with two men would do as much work in one day as fifty men. The machine would pay for itself the first year. The town could buy the machine and put the streets in order for the amount of the appropriation for this year. The price of the machine is $250.00. Mr. McDonald who is their agent here, would place a machine here, and set it up and start it going for that amount and wait till January 1st 1898 for his pay, without interest.

Coun Ketchum said he was in favor of buying the machine. He thought it would be a saving; the roads are in a very bad state. He moved that this Council purchase the machine, to be paid for out of street appropriation. Coun Flemming seconded the motion

Couns. Graham, Lindsay and Jones hadn't any objection to purchasing the machine; but there was a question in their minds as to whether or not it would work satisfactorily on these streets They thought it would be advisable to hire one for a short time and if it worked all right, buy it.

Mr. Haire here explained that they would put the machine in and if it worked to the satisfaction of the Council, they would expect them to buy it, if not they needn't keep it This met with the approval of the councillors and Coun. Ketchum's motion was carried unanimously.

On motion of Coun. Lindsay the clerk was instructed to prepare a by-law to cover the dog tax.

The Board of Trade.

The annual meeting of the Board of Trade was held in the Town Council chamber, Monday evening, with a very respectable attendance of members.

The President, W. P. Jones, occupied the chair, and in delivering his valedictory address, referred to the efficient work, in certain directions, the board had accomplished during the three years of its history. The interest in the organization had increased year by year, as had also been increasingly developed the necessity for and benefit of such an institution. Referring especially to the operations of the past year, President Jones said (we quote the *Dispatch*):—

"It has affiliated with the Maritime Board, now a settled institution. The passenger service between Woodstock and points North has been re-arranged through the board's exertions. At one time it was impossible for people living up river to come to Woodstock, do any business and return the same day. The board took the matter in hand, had correspondence with the C P. R. authorities, and as a result the present satisfactory service was put on. There was still work for the board in trying to improve the stage accomodation between Woodstock and Hawkshaw and Pokiok. It was by the initiative of the board that the departure in selecting mayor and councillors was made this year, something which had commended itself to all well thinking citizens. It would be good news that the Canning Factory and Pork Packing Factory, was assured thing. The more industries we can get in Woodstock the better. Concluding Mr. Jones drew attention to the fact that while the board, in the first year, had succeeded in getting the arbitrary rate of 24c. a hundred pounds on first class freight between McAdam and Woodstock reduced one half, there still remained the arbitrary rate of 12½ cents. He urged the board to use all efforts to have this extra rate cut off."

The report of the Secretary treasurer showed receipts during the year, from subscriptions $55 90, expenditure $54 45, leaving a balance of $1.45 at credit of board in the bank.

Election of officers was then proceeded with and resulted as follows:—

President, Williamson Fisher; Vice Pres, George Balmain; Sec. Treas., T. C. L. Ketchum; Council, Wm. Dibblee, Jas. Watts, Charles Appleby, A. Henderson, M. E Smith, J. T. Garden, W. W. Hay, H. P. Baird.

President-elect Fisher, on taking the chair, thanked the members for the honor conferred upon him. He was no speaker, but would do all he could to further the interests of the board. The past three years had been quite successful, and he trusted the present year would not fall behind the past, in this respect.

The Vice President, as also the Secretary Treasurer, gracefully returned thanks for their appointment to office.

Votes of thanks were then passed to the retiring President and to the delegates to the Maritime Board.

The Secretary was instructed to enquire of delinquent members as to whether they desire to remain members; if not, to erase their names from the list of members.

Who is Responsible?

To the Editors of the Carleton Sentinel:

For seven years back tax on real estate in the Town of Woodstock, the owner being well able to pay? Is this a sample of a good deal more of the same kind? Your answer will oblige very many.

A RATEPAYER

Woodstock, April 14, 1897.

NOTE—It appears to the SENTINEL that the responsibility must rest with the Town Councils. It certainly is not fair to the ratepayers that such a laxity, in reference to collecting the assessment, should exist.

Just opened a large assortment of the renowned Perrin Kid Gloves, New Fastenings New Shades, at B B Manzer's.

The Late George L Marsh.

To the Editors of the Carleton Sentinel:

Please permit space in your valuable paper to record the death of one of our oldest and best respected citizens, in the person of George L Marsh, who departed this life on the 4th inst, at noon. For the last ten years he has been our merchant, opening the the first store in this Settlement, in which he was fairly successful, but this last year, owing to failing health, he went out of business. The deceased was seventy-six years of age. Something over half a century ago he, with his wife, in Prince William, York Co, under the labors of the late Rev George Orser, were converted, and when he became a resident of this place he united with the Free Baptist church here, in which he was chosen a deacon, which office he has held and filled until he was taken to join the church triumphant above. According to his request his funeral services were conducted by the Rev G A Giberson, who is pastor of the church He took for his text fourth chap of second Timothy, 6 7-8 verses. Although the day was wet and the roads bad, the church was crowded and during the services many were the tears that were shed for the parting of one whom the whole community respected and loved. Surely the Judge of all the earth doeth right, and in submission we bow to the mandate of Heaven.

NEIGHBOR.

Windsor, April 12, 1897.

Mrs. L. P. Ferris was waited upon by a number of friends, at her residence, White's Cove, Queens Co., on the evening of the 8th, and through their spokesman, Rev. C. W. Townsend, presented with a very complimentary address from the members of the Baptist church and congregation, in recognition of her valuable services as organist. The address was beautifully engrossed and illuminated on parchment, and enclosed in a massive and handsome gold frame.

The A. O H, have shown commendable zeal in adding to their library; they have now a most complete one of some 200 volumes. The President of the society, I. E. Sheasgreen, who has been much interested in that object, has given an order to the Collier firm for $100 worth of standard works, which will arrive this week, and include 8 large volumes of Shakespeare, 9 of Bulwer Lytton's, 30 of Wilkie Collins', 30 of Dickens' and 36 of Scott's.

Never was there a finer display of millinery made in Woodstock than is being shown in the respective establishments at the present time. We dare not attempt to discriminate between them, but must content ourselves with saying that for beauty, variety and richness of material; for ingenious and attractive display, and for excellence of taste in arrangement, our milliners, always noted for high excellence in these respects, this year, at their openings, excelled even themselves.
