Mr. and Mrs. W. R. Kelly are people who are deeply grateful for a kind intervention of Providence whereby the life, health and hap-piness of their twelve year old son, Macter Harry, has been restored and preserved. Mr. Kelly is one of the best known conductors on the Midland division of the G.T.R., and is now reciding in this city. A San reported having heard of the cure of the little fellow and the joy of his parents, called at their home and was met by Mrs. Kelley, who on being informed of the object of his visit, at once told the story of the cure and how the results were attained. "We were living in Madoc when our boy was about five years of age, and in the spring I went to call him one morning. He replied to my call by caying he could not rise. I at once went to his and found that he was unable to walk. Medi cal aid being summoned we discovered that inflammatory rheumatiem had our little boy in its grasp. All that attention and doctors could do was done and the attack passed off, but the following spring while in Peterboro he was again seized with the dread disease and again we were in terrible dread of losing attractive and looks thirty years younger the child. The doctor here pronounced my case a complication of Bright's Disease and dropsy, and said I could not get well. Dr Mo-Donald advised me to try Doan's Kidney Pills as it was my only change to get well. I did so and now can truly say that I owe my life to following his advice for I am strong and well today. My life has been spared to my three children and I think Doan's Pills are worth their weight in gold."

Horse dealers of France are apparently no longer able to supply the demand for the flesh of that animal in Paris. An order from the French capital for 5,000 barrels of horse meat has been received by a company of Portland, Ore. The animals used are the half-wild cayuse of Oregon, which are bought for about \$2.50 each. As the use of horse flesh for food seems to be growing in several foreign countries, it may become a profitable article for export.

The Press of this country is giving Canada all the blame for the refusal of Great Britain to have anything to do with a Behring Sea conference to which Russia and Japan are parties, but Canada regards the statement as rather complimentary than otherwise, for, if true, it would be a proof of the influence she is acquiring over the policy of the Empire.

The frog industry is growing. A statistician enumerates "fifty seven frog farms now in successful operation" in various sections of the United States.

There were thirty-six failures in Canada last week, against forty in the corresponding week last year.

Dear Editor.—Please inform your readers, that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest, home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous deblity, sexual weakness, night losses and weak shrunken perts, I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy. Address with stamp, WM. T. MULFORD, Agents' Supplies, P.O. Box 59, St. Henri, Que.
