Extract from Letters Received July 17, 1897.

lessre Wallace & Fraser, GENTLEMEN, - Today I met the President of a farmer's club to which you sold a carload of Alberts' Thomas Phosphate Powder. Each farmer split his order, some using a U.
S. make of Super-phosphate and some a
Canadian manufacture, costing 30 to 50 per cent more, along by the side of your Alberts' Thomas Phosphate Powder. There was a meeting of the club at the end of last week, where each member gave his experience with the different fertilizers, and you will be glad to hear that the verdict was unanimous in favor of Alberts' Thomas Phosphate Powder; a large number of the farmers stating that Alberts' Thomas Phosphate Powder gave equally as good results as the lis never questioned. The high priced brands before mentioned, and care taken and the neathe balance of the members claimed that it, ness and cleanliness of our (T. P. P.) was decidedly superior to the Establishment must appeal others as their crops were further advanced and of a deeper, richer color. to your good judgment. How is this for a report from a district that was prejudiced in favor of the other brands? Of course it is still very early in the season, but I think if the nitrogenous fertilizers could not get the start of Thomas Phosphate Powder, their chances are very slim for keeping up during the season.

NOTICE. Woodstock, July 20, 1897.—tf-30.

MUSICI

Is at home, and will teach (during the summer)
pupils in PIANO and SINGING. Miss Sharp is a pupil, in piano, of Dr. William Mason, and is prepared to teach his famous "Touch and Technic," which has been so highly praised and endorsed by Paderewski, and which is the best if not the only piano school known to

Miss Sharp has studied voice culture with Law-euce, Pattou and the New York Vocal Institute. The system used for cultivation of the voice is based strictly on scientific principles. Strength of muscle, freedom of action and intellectual develcpment are sought. Special attention is given to respiration, perfect control of breath, freedom of throat and loose condition of tongue. These combined produce good quality of tone, ease in singing, distinctness of enunciation, and pleasant facial expression. A special course for restoration At Woodstock, July 20th, to the wife of G. and strengthening of the voices of public speake At Samuel Loyd's, Bath, Carleton Co, on readers, and also for those who desire to study
