

1877. NOTICE. 1897.

TO my many esteemed customers who, during the past twenty years have given me a generous portion of their patronage, and to the public in general, I desire to announce that after the 1st day of June, 1897, I will close my books and thereafter will do only a strictly cash business. When goods are taken on approbation the money will be refunded on return of goods. The amount of money I will thus be enabled to save in the management of my store will be given to my customers in the way of Reduced Prices, and in premiums on purchases. As heretofore I will give a beautiful piece of German Furniture with every purchase of \$25. I desire to request that my customers will not ask me to break my cash rule, as it is only by making the rule inexorable that I can effect the saving that will enable me to sell at almost wholesale prices.—I warmly thank my patrons of the past and respectfully ask a continuance of the patronage that will in the future be even more beneficial to them than it has been.

Yours faithfully,
B. B. MANZER.
