Town Council.

Friday evening, 14th.—Full Board.

Coun Lindsay, when the reporter entered, was directing attention to the fearful condition of the road from Dickinson's tannery to Upham Brook. His Worship had driven two of the Local members of the Legislature over the road, and they interviewed the third member, and these members said that the government would pay half the expense of putting the road in condition. Supervisor Bull was sent by J T A Dibblee, M P P, over the road, who had staked out some 40 rods and prepared specifications. He proposed to remove the top of the road and fill in with stones, to turnpike the road, making it 14 feet on the sides and two feet in the centre.

Coun Graham thought the expense would be great, perhaps $400 or $500, and the Council could not appropriate such a sum for the purpose. The road was a great road and the government should help build it.

Supervisor Bull was heard. He was much interested in the road for he had to drive over it frequently: this spring it had been very bad, wagon wheels sinking in the mud as much as three feet. The road could be made solid only by putting in stones. He cited the Hodgon road, a portion of which formerly was almost impassible. Government assisted in repairing that road, the cost being $300, since then the only repairs necessary to that piece of road was putting in a little gravel occasionally. Mr Bull said the cost would probably be about $5 a rod, distance 40 rods, total cost, $200, the town's proportion being $100.

After remarks by Coun Ketchum, Henderson, Flemming, it was moved by Graham, seconded by Flemming, and resolved, That the matter be left to the Street committee and Supervisor, they to provide specifications, and ask for tenders.

On motion Graham, seconded Flemming, the Printing committee was instructed to advertise in one of the St John papers the sewer bonds about to be issued.

Coun Ketchum desired to know the intention of Council in regard to the road machine. He thought after having submitted it to a week's test, and the test proving so satisfactory, that they ought to purchase the machine. He had already had two applications for it and he wanted to know what about letting it when not in use by the town. On motion Ketchum, seconded Grahrm, it was resolved to accept the road machine, and on motion Lindsay, seconded Graham, it was resolved that the chairman of the Street committee be authorised to let the machine, with a man to accompany it, for $6 per day.

Coun Flemming called attention to the sewer needed on Broadway, it was time they were getting to work on it. He moved, seconded by Jones, and resolved that the Sewer committee be authorised to procure specifications and ask for tenders for extension of sewer from Merritt's corner to St Gertrude street.

His Cheque Good

For Hundreds of Thousands of Dollars.

He Finds in Paine's Celery Compound a New Life.

In one of our large Canadian cities there resides one of Canada's merchant princes who can at any moment write his cheque for hundreds of thousands of dollars.

Some time ago this merchant prince was a very sick man. Liver troubles, headache and insomnia were fast pulling down a strong physical frame. Doctors bestowed great care and attention on their wealthy patient, but no cure came to cheer him; in fact no perceptible benefit was felt after months of treatment.

A voyage to the south of Europe was then undertaken, and weeks were spent at one of the most famous watering places, but no change for the better was experienced. Returning home, the merchant prince received a visit from his faithful pastor, who strongly urged the use of Paine's Celery Compound, a medicine that had some years before cured a member of his family. The good advice of the ministerial friend was promptly taken; the great healing compound was used, with the result that in five weeks the sick man and his family were overjoyed with proofs of recovery and new health. Restful sleep was restored, digestion was improved, and a brighter look came into the eyes and face. After four months' careful use of Paine's Celery Compound and proper dieting, every deadly and treacherous symptom of disease had banished, and the merchant prince was a new man.

What a wondrous and happy proof of the life-saving virtues of Paine's Celery Compound! Surely the statement is powerful enough to lift all poor and helpless sufferers from the dark pit of despair.

This story of a true cure was related by an intimate friend of the cured man, who gave permission to refer to it publicly without giving the name of the once-dying merchant.

The Coming Premier,

Mr. L. O. Macnutt, Editor of the Fredericton *Herald*, has recently made an extended visit to Ottawa. In his printed impressions regarding the membership in the Commons, he says:—

"The visitor must be struck with the preponderance, in both the front rows, of Maritime men. On the Opposition, Tupper and Foster lead. They are undoubtedly both able men in many respects, and they come from down by the sea. On the Government benches, outside the Premier, there are no other members of the cabinet who are equal in ability and experience and popularity to Mr. Blair, Mr. Davies and Mr. Fielding, and they are all Maritime men. The Minister of Railways occupies a most commanding position among his colleagues in the administration, and in the House. If for any cause Mr. Laurier should retire from the premiership, there is little doubt but that Mr. Blair would be his successor. That is the concensus of both Grit and Tory opinion here, so far as I can gather it, without giving a personal coloring or submitting a prejudiced or preconceived feeling favorable to Mr. Blair.

The Minister of Railways has taken practically no part in the general debates of the House as yet, but he has given his undivided attention to mastering the details of his department and thoroughly informing himself on all the principals and details of administration. Naturally, however, Mr. Blair is often on his feet in the Commons, answering questions, and explaining matters in connection with his special charge the Railways and Canals Department, and he receives the most respectful attention on both sides. In the Railway Committee, which has to deal with large and important interests, he is recognized as not only a gentleman of great political sagacity, but also as one with a grasp of public affairs, and possessing the shrewdest quality of common sense and business ability. If Mr. Blair is not the leader of the Liberal party of Canada within a very few years, it will be because Mr. Laurier is still in his place as the popular and beloved head of a great united and enthusiastic party; that is the way matters are shaping here, and the development of the strong feeling in favor of the Minister of Railways is the result of conviction that no other gentleman in the party possesses so many traits necessary in the successful political leader as does Mr. Blair."

A SPECIAL WARNING TO LADIES.

The proprietors of Diamond Dyes are the only people in the world that make special dyes for coloring cottons and all mixed goods.

It is now admitted by all the best color chemists that a dye prepared specially for all wool goods will not color cotton or mixed goods successfully.

When Diamond Dye Pink, Purple, Orange, Garnet, Navy, Yellow, Blue, Scarlet, Turkey Red, Green, Cardinal, Brown and Black for Cotton and Mixed Goods are used, satisfaction is always guaranteed.

Beware of the dyes that pretend to color all wool goods and cotton with the same package of dye.

The verdict of millions on this continent is, "Diamond Dyes are first and best."

ST. PETERSBURG, May 15.—A military train between Rockenhof and Eliva has been derailed. Fifteen cars filled with soldiers went over a low embankment into the water. A panic ensued and nearly a hundred lives were lost and about a hundred injured.
