June 22, '98.

Warden in chair; councillors all present Minutes of yesterday read and approved,

On motion, following accounts were ordered paid:

S Jones,	$28 85
J S Leighton,	12 99
J C Hartley,	81 73
Dr Commins,	64 60 Less $7.20 off mileage
Gord. McAdam,	4 10 Referred to Colpitts.
C O Connell,	6 50 Referred for explanation
R W Tompkins,	3 50 To be paid if Sec-Treas decides it a County charge.

On motion council reconsider action in A G McFarland's account, passed yesterday, and account of $9.00 ordered paid, less $4

On motion of Mr White, seconded by Mr Cronkhite, ordered that $10 67 be paid C E Gallagher for loss of sheep by dogs,

On motion, the Sec Treas gave the following financial statement:

FINANCIAL STATEMENT.

Secretary-Treasurer said debit balance was about $9,000, and that it would be necessary to provide about $2 000 to pay accounts ordered at this meeting, sheep claims, salaries, Court expenses, etc, and in August $3,400 will be required to pay School Drafts.

Balances due from Town and Parishes, June, 1898:—

Town Woodstock,		$2275 31
Parish Woodstock,		198 59
do Wakefield,		132 23
do Richmond,		229 67
do Wicklow,		214 74
do Wilmot Cr balance,	$ 12 10	
do Brighton,		399 2.
do Kent,		579 57
do Northampton,		86 99
do Simonds,		190 46
do Peel,		187 56
do Aberdeen Cr balance,	109 49	
		$4,394 37

Dog on dog tax list, $900.

Mr Saunders took the ground that the town should pay the same as the other parishes although by a technicality of law it was claimed that the town need only pay the county as the taxes were collected. They had, however, to provide for payment of accounts passed here. Probably the delinquent lists of this year would be as large as those of last year, some $4,000.

Mr White said they should consider whether anything could be done to reduce the balances due the county by the parishes. Something ought to be done. Why was it that Aberdeen had a balance to its credit? Because the proper persons were appointed as collectors. It was the case sometimes, perhaps, that persons not of sufficient energy and competency were appointed because they were influential in the parishes and not because they were energetic or interested in the collection of the rates. Councillors should be more careful in selecting suitable officers. Many men who would pay their taxes promptly did not do so because the collectors neglected to enforce payment. Woodstock owed nearly one-half of the indebtedness due the county; this should not be so. The councillors should endeavor to have the finances in a better shape next year.

There was a report to be submitted with reference to sending a commissioner to Great Britain and to secure legislation to allow the council to pay such commissioner. Now that they had the state of the finances before them it would be madness to carry into effect that proposition and that was why he hesitated about signing the report. Let them face the matter like men, pay the just bills against the county, but not incur increased liabilities.

Mr Gillmore—Many were not willing to pay their taxes because they were let stand uncollected for five or six years.

Mr White said Mr Gillmore had just struck the right chord.

On motion of Mr Moores, seconded by Mr Cronkhite, Resolved that the councillors of the different parishes instruct their collectors to collect the taxes according to law, and to have executions issued for all taxes and instruct collecting justices to have defaulters lists collected without further delay.

Mr Moores endorsed Mr White's remarks. Councillors should take an interest in this matter and instruct collectors to proceed sharply and collect every dollar possible before putting the lists into the hands of collecting justices Every parish should have a balance to its credit, and would have if collectors did their duty and issued executions promptly. Collecting justices should, also, be directed to collect without delay all delinquent taxes. He protested that the town of Woodstock should pay the balance it owes.

Mr Cronkhite said this was a step in the right direction. Twenty years ago he had made a motion that one-half the balance owed by each parish should be added to the assessment each year. He defended his own parish and the manner in which its business was conducted.

Mr Saunders again called attention to the law point that it was claimed affected the town of Woodstock.

Sec-Treas was understood to say that there was some doubt respecting the law point referred to.

Mr Saunders said they should confer with the town. The balance was increasing and should undoubtedly be paid. The town might be justified in only paying when the law required it.

Mr Gibson—The reason why many people don't wish to pay their taxes because much county money had been thrown away the past five or six years.

Mr Henderson was a member of the town council and also of the county council and this placed him in a peculiar position. The reason why the town had not paid was as stated by Mr Saunders. The town councillors were reasonable men and had the taxes been collected the town would not owe the county a balance. There was a large amount in taxes due the town; some rate-payers had not in the last 30 years paid their taxes.

Resolution now carried.

On motion of Mr Saunders, seconded by Mr Cronkhite, Resolved that a committee of three be appointed to confer with the town council of Woodstock in reference to balance due from town and try to have same arranged. Committee—White, Forrest, Moores.

Mr Saunders, from committee, submitted the following report which on motion of Mr Henderson, seconded by Mr Gallagher, was received and adopted

To the Warden and Councillors of the Municipality of the County of Carleton:—

Your committee, appointed at the January session to communicate with the Local Members, Secretary of Agriculture and Minister of Agriculture, to obtain the desired information of what the needs of Great Britain requires, beg leave to report that they have attended to that duty and from F H Hale, M P, obtained the following letter herewith submitted, which they consider very valuable and would recommend this Council to have printed certain extracts from such communications of the Finance department as statistician in reference to the exports of this and other countries, and would further recommend that the Secretary-Treasurer be authorized to prepare a Bill to go before the Legislature to ask authority to make a grant towards paying expenses of a delegate, who may be selected from this County to obtain all information required for the prosperity of this County.

Respectfully submitted.

GEORGE W WHITE,
W S SAUNDERS,
E S GILLMOR.

Woodstock, C C, 21st June, 1898

Mr Saunders when submitting the report read a letter from F H Hale, M P, accompanying voluminous statistics bearing upon the matter under discussion, prepared by Geo Johnson, Dominion statistitian, which statistics had not been made public, but were now given in advance of the publication of the official year book. Extracts from these statistics are by subsequent action of the council to be published for general information in this county.

Mr Saunders pointed out, as shown by the statistics what a small number of cattle, horses and sheep, and what a small quantity of other products are sent abroad from New Brunswick as compared with other provinces of the Dominion and the States. He dwelt upon the great producing resources of this county and its grand possibilities. What they wanted now was to inform the farmers; to let them know how profitable a market was open for them abroad; what the demand in those markets was for productions that could be produced here. To this end they should send a man to England to investigate, a practical and business farmer. It had been stated that he, Saunders, wished to get the appointment, but that was not so; he was not the man; was not fitted for the position. In European nations farmers with small farms grew rich because they know the demands of the market and seek to supply them. The present object was to secure necessary legislation and later the council could determine as to how to deal with the matter, interested as they all must be in advancing to greater prosperity this noble county.

Mr Gillmor referred to the large trade done by Russia in the article of canned eggs; in this county vastly more eggs could be produced than was now the case. Ontario exported large quantities of pork and bacon if not on the same food as used in Ontario we could raise and fatten any quantity of hogs on our rough grains, and any farmer might raise from 50 to 60 hogs, and so as regards other items which could be produced largely here if it was only known just what was wanted by the people of England, and how the productions should be prepared for shipment there. They should send a man abroad, as had been suggested, altho' some tew might raise the cry of taxation some of them whose tax would not amount to a dozen of eggs.

Mr White said all must be interested, in whatever was of benefit to the farmers and for one he would like to do anything he could for their advantage. He had signed the report conditionally and was to support it if he could see his way clear to do so. He had already expressed his views and did not feel that at the present time, in view of the state of the finances, he could favor any additional burden on the county, not absolutely necessary. Of course they might get legislation and then they could give it effect or reject it as they saw fit.

Mr Cronkhite said that as stated by Mr White they need now only ask for legislation which would enable them to employ a man to go to England if they concluded to do so When at Fredericton he had met a gentleman then recently from England who had been sent there to obtain such information as was here now sought He did not know who sent that gentlemen, but if either government had sent him it would seem useless for this council to send another. They should, at all events, first ascertain whether the information desired could not be had without sending a commissioner themselves.

Mr Henderson thought if certain extracts taken from the statistics sent from Ottawa were published in pamphlet form and sent out among the farmers it would help educate them and then hearing from them their opinions the council would, next winter, when asking for legislation, be in a better position to determine how they should act in the matter. They should have knowledge first, then action. They were all poor and their children would be poorer unless they became more enterprising, created business for themselves, and followed the lines of economy. He claimed that horses were used too numerously and oxen should be substituted; practicing economy, money would be saved and taxation reduced.

Mr Connolly thought they should pay more attention to educating themselves. What was needed now more than sending a man to England was for our farmers to so instruct themselves as to put their oats and other produce into the St John market in a fit state to compete with the produce of other provinces. It might be wise for the province to send a commissioner to enquire abroad, but it were foolish for this county to do so, even if its finances justified the expenditure.

Mr Saunders again pointed out the object sought in sending a man abroad to find out what we could raise and what, of the lots of things we might produce, that could find a paying market there. He thought Mr Connolly contradicted himself in his speech. All they wanted now was to place themselves, by legislation, in a position where they could, if they desired it, act and they could do so by the expenditure of a few cents. They should not sit down and let their opportunity go by; if they did what would posterity think of them?

Mr Gillmore said Ontario had taken the course now proposed here and her farmers had grown rich in consequence. Of oats, millions of bushels were exported from Canada mostly from the western provinces. Ontario had a richer soil, but down here the same kind of crops could be raised if the same care and judgment were used in fertilizing the soil; rotation of crops, proper selection of seeds and animals and cleansing and preparing for shipment the cereals.

Mr Connolly did not think he had contradicted himself. He claimed that much of the produce of this county was sent to market not in a condition to compete with Ontario. Did he, Mr Saunders, want to send a man to England to put off, on buyers there, inferior articles from New Brunswick? He did not see any advantage to send a man abroad to get information that was already available.

Mr Gallagher (Kent) said Carleton County could produce as good grain, pork, beef, mutton as was produced in Ontario, but shippers from this county were in the habit of buying all kinds of produce without regard to quality or the way it was cleaned and prepared, and they thus encouraged farmers to bring in poor stuff. The farmers needed to be educated, for their own advantage; educated to understand that it would pay to place on the market in good shape the grain and other produce It some one was employed to hunt up a sure and profitable market, to give to the farmers full information as to the market, its demands and its prices, the cost of freight and how to secure space in the ships, then those farmers would, in their own interest, seek to take advantage of the information given. Now, shippers from Ontario secure space in the trans-atlantic vessels to the exclusion of shippers from New Brunswick. He himself had been unable to obtain space for 100 tons of hay. For one he would pay $100 out of his own pocket towards the expenses of a commissioner.

Mr Moores.—If they sent a man he would simply get information as to what was wanted, now it should be prepared and who would buy it. He protested against the inference from speeches of some gentlemen that this county and its people were poor. He desired that the farmers should be given every possible information, but such information could be obtained, if it was not now at hand, without sending a man across the Atlantic. What was wanted was shippers to buy from the farmers and ship the produce just as some parties had already been doing. He could not see what benefit would be derived after the man, if any was sent, came back. It would be sufficient to print in a pamphlet information from the statistics and then farmers could decide what best to raise for sale. There was a great difference in location; a sea port town had the advantage over inland localities like their's; then Ontario had the advantage of having large numbers of wealthy people. If there was such a mighty opening as had been represented where was it? They could not get as reasonable shipping rates to England as could other provinces and countries and therefore not as profitable prices. No man could regulate the schedule of prices. He would do anything for the county and its farmers and did not want to vote against anything for their advantage, but did not see how the measure was going to benefit them.

Report was now received and adopted.

On motion of Mr Henderson, seconded by Mr Tompkins, Resolved that a committee of three be appointed to have printed, in pamphlet form, 2000 copies of extracts from the statistics submitted by the committee.

Committee—White, Saunders, Gillmor.

On motion, W M Connell was heard with reference to his old account against the county.

Mr Connolly moved, seconded by Mr Tompkins:—

Whereas—The present system of supporting our poor is not, in very many instances, conducive to the comfort and happiness of those so unfortunate as to require assistance from the Parish, and is attended in many cases with a great deal of unnecessary expense which might be saved by a different system, viz, by the establishment of an Alms House and farm, in connection therewith; therefore

Resolved—That this Board take such steps as are necessary for the establishing of such Alms House and farm, in and for the County of Carleton.

On motion of Mr Caldwell, seconded by Mr Gallagher, Resolved that consideration of above resolution be postponed until next January meeting.

Mr Connolly expressed himself as being quite in agreement with this action

Mr Forrest presented petition, signed by John H Bolger and 25 other ratepayers, Benton district, and, on motion of Mr Forrest, seconded by Mr Speer, Resolved that petition be received and prayer be granted and by-law ordained as follows:—

The following by-law was ordained: Be it ordained that the by law prohibiting cattle running at large on the highways, in this municipality, be repealed so far as it relates to the highway in Parish of Woodstock from the Eel river bridge in Benton, running north to Audley Caldwell's south line, also from said bridge running east to John Moxon's west line.

On motion of Mr Phillips, seconded by Mr Tompkins, Resolved that A J Caldwell be paid for one lamb killed by dog, in '97, at same rate fixed for other claims.

Mr Tompkins wished to submit a matter to the Board. He and his colleague disagreed as to the appointment of a collecting justice for Peel; while Mr Phillips preferred that Robert Hunter be appointed, he had recommended the appointment of H B Taylor.

The respective claims of these gentlemen was set forth by the two Councillors, when Mr Tompkins moved, seconded by Mr Cronkhite, Resolved that H B Taylor be the collecting justice for Peel and lists be sent to him by Sec-Treas.

In amendment Mr Phillips moved, seconded by Mr Caldwell, Resolved that Robert Hunter be appointed. Amendment lost; original motion carried.

Mr White submitted the following report:

Your committee, appointed to investigate the claim of W M Connell, Esq, desire to report they have attended to that duty They have had no bill of particulars in reference to the claim before them, except what could be gathered from Mr Connell, who was heard at the Board. They have seen no law bearing on the case and have only been referred to a post card from Mont McDonald, Esq of St John, in which he says: "I think the municipality should pay those claims," but gives no reference to any law bearing on the case. We have, also, had before us an extract from a letter said to be written by Attorney General Blair, in which he says "My impression is that the county is liable," and, like the first, does not refer to any law on the subject.

The opinion and advice from other sources laid before your committee is that the County is not and has never been liable to pay the said claim. Without the proper information and reference to law bearing on the claim, we do not at the present time feel justified in recommending this claim to be paid by the County.

Respectfully submitted,

(Signed) GEORGE W WHITE,
C E GALLAGHER,
W S SAUNDERS.

Woodstock, 22nd June, 1898.

On motion report received.

In the olden times, physicians accounted wise, searched vainly for the Elixir of Life, or the knowledge whereby life might be prolonged. We now know that there is no such thing as an Elixir of Life. But we have learned that life may be prolonged by those who take the right measures.

Any man or woman who will take care of health and take the right remedies for ill health, may live to a ripe old age. When a man feels out of sorts, when he gets up in the morning tired out after a restless night, and goes home in the evening completely knocked out with his day's work, without appetite or ambition, he is a sick man. If he does not take the right remedy he will soon be in the grasp of consumption, nervous prostration, malaria, or some other serious malady.

A man in this condition should at once resort to Dr. Pierce's Golden Medical Discovery. It is the best of all medicines for hard-working men and women. It makes the appetite keen and hearty. It gives sound and refreshing sleep. It tones and strengthens the whole system. It invigorates the heart and nerves. It makes digestion perfect, the liver active and the blood pure. It cures 98 per cent. of all cases of consumption. It strengthens weak lungs, and cures bronchitis, spitting of blood and obstinate coughs. It is the great blood-maker and flesh-builder. It does not make flabby flesh like cod liver oil, but firm, healthy, muscular tissue. It does not make corpulent people more corpulent. Thousands have testified to its marvelous merits. Sold by all medicine dealers.

You know what you want. It is not a dealer's business to tell you.

Send to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of the "People's Common Sense Medical Adviser. For paper-covered enclose 21 one-cent stamps to cover customs and mailing only. Cloth-bound 50 stamps.

BLANKS *Of all kinds can be had at the Sentinel Office, cheap.*

Grand Opening
OF
SPRING & SUMMER Dress Goods.

We invite the inspection of everybody to come in and look over our New Goods. We have bought a very large line of the Newest Goods and have decided to make a specialty of Dress Goods. Have just opened a magnificent line of **Blacks**, including **Henriettas, Sicilians, Serges**, and a number of Fancy Designs. We have a line at **25 Cents**—well worth 75 cents.

Now in Colors our range is very large and complete, including many

Individual Suit Patterns,

in COVERT CLOTH and new Weaves.

A very superior line of MUSLINS, LAWNS, Dimities, Percoles, and the new Linen Goods.

Just come in and see what we have. Glad to show you, whether you buy or not.

Watch for Weekly Bargains.

SAUNDERS BROS.
WOODSTOCK, N. B.

Carpets, Oil Cloths, Linoleums, Door Mats, Hearth Rugs Wool Mats, Matting, &c.,
—AT—
A. HENDERSON'S,
May 21st, '98. Queen Street.

Many persons cannot take plain cod-liver oil.

They cannot digest it.

It upsets the stomach.

Knowing these things, we have digested the oil in Scott's Emulsion of Cod-liver Oil with Hypophosphites; that is, we have broken it up into little globules, or droplets.

We use machinery to do the work of the digestive organs, and you obtain the good effects of the digested oil at once. That is why you can take Scott's Emulsion.

50c. and $1.00, all druggists.

Woodstock, April 13, 1896.—tf-16.

BETWEEN $200 AND $300 GONE.
STILL HIS CATARRH REMAINED.
A 25 CENT BOX OF DR. CHASE'S CATARRH CURE DOES EFFECTIVE WORK.

Catarrh sufferers and those afflicted with Cold in the Head, Hay Fever, Hawking and Spitting, Foul Breath, Loss of Taste and Smell and the many disagreeable and disastrous consequences attendant upon these, should lose no time in procuring Dr. Chase's Catarrh Cure.

Mr J. W. Jennison, Gilford, Ont., writes as follows: "I spent between two and three hundred dollars, tried all kinds of treatments, but got no benefit. One box of Dr. Chase's Catarrh Cure did me more good than all other remedies. In fact I consider myself cured, and with a 25 cent box at that."

Sold by all Dealers.

Complete with Blower at 25 cents.
