The North British Agriculturist tells of a case of continuous milking by which a cow has established a record. It says "A noteworthy milking record has been established by the red poll cow Crocus, which belonged to the famous Norfolk dairy herd at Whitlingham. She gave birth to her third calf on May 11th, 1890. Dr. Chase birth to her third calf on May 11th, 1890, since which date she continued uninterruptedly in milk till September 28th, 1899, a period of over nine years, her milk yield in the last year of her life being at the daily rate of 43 3 4 pounds, or Without the Danger, Pain or Expense of nearly 412 gallons. During the nine years four months that she was continuously in milk she yielded altogether 50,-428 pounds, or nearly 23 tons of milk. tity of butter fat in her milk was as high eries of piles by using Dr. Chase's as 4.3 per cent. Her live weight when sent to market, after being on grass feed for the last six months of her life, was 1,159 pounds. In the nine years since her last calving she gave something like her average production during that per- made among his acquaintances. iod was 5,403 pounds of milk, or considerably over 4,500 gallons per annum.

Plant Food.

In furnishing or replacing in the soil mineral or inorganic plant food practice has shown that, as a rule, it suffices to supply three elements—potash, phosphoric acid and lime. Others are used by crops, but the amounts so used are so small that the soil's store of them is not seriously diminished by cultivation. Potash, phosphoric acid and nitrogen are known as the essential elements of plant food, from the fact that it is continually necessary to return them in available forms if soil fertility is to be maintained and increased. For many soils lime must

Communication on Cattle. Summer Service Convention at St John.

Mayor Daniel here read a very interesting letter from Mr Joseph Magee, live stock dealer of Somerville, Carleton county. He wrote that Carleton county exported about 100 cars of cattle annually. The cattle trade was having a rapid increase. Several carloads would have been sent to Great Britain recently if space could have been had at St John. He continued: "We are now shipping live hogs to Montreal. During season will ship 20 cars hogs to Montreal. It is only sure market at present. We have now contracted for 4,000 export fat sheep to go by the cheapest route to London and contemplate shipping at Portland, Me. Freights are cheaper and time quicker han Montreal, also distance by rails less. Prices paid growers are not good because of shrinkage over long hauls there to Montreal-465 miles. When shipments 1 go down 350 miles further to, say River du Loup, we have travelled 800 miles to get as near London as is St John, and the shrinkage has been equal to ocean travel from St John to London. Of course all this has to be taken into account when buying from the farmer or grower. There could be nothing that would advance the interests of farmers in the maritime provinces like a sure market at St John for live stock. But you need not except any aid from Montreal. Shipping space at Montreal is so congested that we are not certain of any until September. Control of space gives control Convention, brought out the following of price in Montreal.

Since 1891 the population of London computed to have increased by 300,000.

HIS OWN FREE WILL.

DEAR SIRS—I cannot speak too strongly of the excellence of MINARD'S LINIMENT. It is THE remedy in my household for burne, sprains, etc, and we would not be without it. It is truly a wonderful medicine.

JOHN A MACDONALD. Publisher Araprior Chronicle,

A minister, well known as a great dancer, was one night dancing at a ball. day, the 14th day of July next, at the hour and place between two old women :—

It it better to have loved and lost than never to have loved at all-better for the jeweler, the florist, the confectioner. aud sometimes for the lawver.

Yet some people are never hungry. Whatever they eat has to be "forced down." There is, of course, something wrong with these people. By taking Hood's Sarsaparilla a short time, they are given an appetite and them they enjoy eating and food nourishes them If you find your appetite failing just try a bottle of Hood's. It is a true stomach tonic and every dose does good.

Southerly along the way five ro is more or less to the corner of a board fence; thence westerly along a fauce of post and boards (now set) a true line to the River Saint John; thence northerly along Saint John River about fourteen ro is, more or less, to the place of beginning, public highway exempted. Together with all the buildings and improvements thereon and appurtenances and privileges to the same belonging or in anywise appertaining. Dated this Sih day of June A D 1900,

WENDELL P JONES,
Assignee of Micregages. The best family cathartic is Hood's Pills.

A teacher was explaining to a little girl how the trees developed their foliage 'Ah, yes,' said the wee lassie, 'I understand; they keep their summer clothes in their trunks.' A BOON TO HORSEMEN. English Spavin

The above sale is again postponed until Saturday, the 14th day of July next, at the hour and place between two old women:

When the following conversation took of a Power of Sale contained in a certain Indenture of Morrgage, bearing date the seventmenth First Old Woman—What dae ye think o' oor minister?

Second Old Woman—Faigs, I think he's eddicated at the wrang end.

Hands Cracked with Salt Rheum.

Mr James Mcleases, 25 Eigin St, Ottawa, Ont, writes: "I suffered with salt rheum for upwarde of ten years, the skin on my hands cracking and breaking so as to make them useless. After trying all sorts of remedies in vain, I became discouraged and thought my sufferings would never end. Last spring I used Dr Chase's Ointerent and, in a short time, was perfectly cured." Dr Chase's Ointment is of unparalleled merit as a cure for all itching skin disease. All druggists.

'All that certain lot, piece or parcel of land, lying and being in the Parish of Kent, County of Carleton and Province aforesaid, and bounded as follows; Commencing at the River Saint John at the south western angle of land granted to the late Christopher Craig, and running easterly along southern line of land granted to said Unrieopher G aig about eleven rods, more or less, to the limits of the Canadian Pacific Kauway, thence
