A Novel Idea. Mrs Egerton, an English lady who did nursing work in Dawson City, carried out an original idea in London, which greatly gratified the C P R people. Mrs Egerton had been much struck by the scenery along the line of the CPR, as well as with the service which the company rendered across the Continent, and she determined to let the tolk in London snow something about both. For this purpose she availed herself of a fancy pall at Covent Garden, to appear in a costume which took the first prize for originality, and which illustrated Canadian scenery and the CPR in a highly striking manner. The lady s hat was trimmed in a manner to show the CPR trains in motion; her cape set forth Lake Outario, Lake Superior and Too Nervous to Sleep, and Dally Grew the Rocky Mountains, while the front of her dress showed a train rushing at full speed through the wonderful ravines in Mrs. E.
