Facts do not warrant the belief that women, as a rule, desire to press the right of franchise. In the school board elections in Cleveland, Ohio, the other day, only 706 women voted. The year previous the female vote was 6,000.

News from the Country.

Miss Blanch Britton, of Monticello, was in Bloomfield Sunday.

Miss Eunice Graham, who has been visiting at Monticello, has returned home.

Mrs Hawkins is the guest of her sister, Mrs Alterton.

The attendance at Sunday School was unusually large last Sunday.

Lindsay.

There has been much sickness in our community of late. Mr J. A. Lindsay is still confined to the house.

Mr Wm Lindsay is recovering from a relapse of La Grippe. Mr G. A. Thomas and family who have all been laid up with La Grippe are convalescing.

One of our young men while on the sick list disappeared from home causing his parents and friends great anxiety. After three days absence he returned safe and well. It appears he had taken the cross road and becoming very fatigued had to put up at the house opposite the cheese factory, where he was very

agreeably entertained until he was able to return home.

Mr Warren Simmons is becoming famous as a wood carver. He has made some artistic picture frames and has presented several of the young ladies with one of these beautiful gifts.

The road between Lindsay and Jacksonville is now open again. Hitherto travellers between these two places had to walk or go round by way of Hartford or Woodstock.

The Rev H. E. Thomas has charge of the Methodist Church of this place. He continually reminds us that Good is our highest attainment. Mr Thomas is a man who practices what he preaches. We hope we may have the good fortune to have him with us another year.

Our school is taught by Miss Annie McIntyre, who is very much liked both by the people and scholars.

The maple honey season is now over. Mr J. Briggs & Sons secured quite an amount of excellent honey. The season has been a very poor one.

Mr Daniel Niles and sister have moved into one of Mr Judson Briggs' tenement houses.

Mr. Chipman Giberson and Mr. Judson Giberson of Manchester, N. H., are visiting their parents, at this place, after an absence of five years. They were met at the depot by a large number of their old friends and relatives, who were very much pleased to see them. They intend remaining until fall.

Mr and Mrs Arvard Harmon have gone out to their farm at Lansdowne for the summer.

Mrs Flemming and Miss Flota Bidout were delivering quarterlies to the home department of our S. S. secured one new member and found much to encourage in the work. By the way, the entire district is enrolled in this work, 45 in the main school and 25 in the home department, making a total of 70 people in this place studying God's word.

During the past winter and spring, Peel has been blessed with more than its usual activity in religious matters. After a protracted series of union meetings, during which twelve were baptized, part of the community decided that "in union there is no strength" and advised building a new church of their own. The place is small and much divided as to creeds, one dozen families representing six denominations, some thought the present church well used would be sufficient, others desired a more independent position, therefore a Calvinist Baptist church was agreed upon. A building site was next needed, and it so happened the most desirable location belonged to a hard hearted business man, with little interest in churches in general and new ones in particular, and he refused to sell, but the committee waiting upon him consisted of one of our blushing young maidens who was very persistent in her entreaties, and he thought to get out of the trouble by way of a joke, so he informed her the only possible terms by which she could get the land was to kiss him on the mouth. Oh! horrors! A foreign missionary is called upon to make no such sacrifice. Such a cruel monster, and her sweet lips, perhaps never before pressed by other than a mother's kiss, her timid modesty, etc. On the other hand, would she allow the Master's work, so dear to her heart, to be hindered or stopped? The need was very urgent, could she do it? Did she do it? The next morning the ground was duly staked off and the building material is now nearly all on the spot, and we hope by next week to see the house up and enclosed.

Riley Brook.

April 22nd.

Earliest spring in this section of country known for a number of years. The weather has been very pleasant this month; the water in the river and brooks is high.

Mr E. McCollum and J. J. Hale have a large number of men on the head waters of Tobique, driving their lumber.

Mrs W. H. Miller returned from his trip down river last Tuesday morning, 1.30 a. m., very tired from her rough journey by stage.

Sheriff Tibbitts made a flying visit here on the 15th.

E. McCollum arrived at Haydensville on Tuesday, on his way up to his drive.

Mrs Tapley, widow, we are sorry to say, does not improve very much. Be careful young men, when out late, not to take the wrong room at your hotels.

One of J. J. Hale's men cut his foot quite badly and was brought down to Mr Hayden's, where he will receive the best of care. No doubt some young lady feels very sorry for him, but cheer up, he will soon be better.

Mr E. McCollum has a crowd building booms, Arthur Hale foreman.

The lumber has been running quite thick yesterday and to-day. Report says that McCollum will be out to the Forks on the 24th; good for the operators, but short route for the drivers.

The farmers are beginning to look around, mending fences, cleaning yards, and some ploughing. The rain last night, notwithstanding the cold wind, has started the grass; places look quite green.

Some of our neighbor's boys got home off the drive to-night; their route would scarcely pay for the corks in their boots.

Miss Jessie Wilson is calling on Miss Ross to-night.

Mr James Horn, of Bear Brook is agent for the book, Life of Queen Victoria; he has sold quite a number and ordered several more.

ONE INTERESTED.

During their world tour the Duke and Duchess of Cornwall will see three winters, but no summer. They will have first a spring, then an autumn, then a winter, a few days of another spring and then an autumn again.
