Its object and the high prices to be obtained by dealing only with it—cash is better than trading. Who last year made money out of your trading—did you? No! Join this Co-Operative Company for the protection of Farmers. Get high prices as well as your share of the profits of selling in England. Join at once.

## THE CANADIAN DRESSED POULTRY COMPANY, Limited.

CAPITAL STOCK, = \$450,000.

HEAD OFFICE:—HAMILTON, ONTARIO.

PRESIDENT—MR. GIBSON ARNOLDI, Barrister-at-Law, Toronto, Ont.

MANAGER—MR. WILLIAM S. GILMORE, Merchant, Hamilton, Ont.

### OBJECT OF THE COMPANY.

This Company is formed to advance Canadian trade with England in dressed poultry, ducks, turkeys and geese, dressed meats and other farm produce that the company may deem it advisable to deal in. This is the GREAT OBJECT OF THE COMPANY. It will be so MONOPOLY AND IT CANNOT BE MADE ONE: ITS SUCCESS MEANS THE FARMER'S SUCCESS. The farmer who wants to make money must first become a shareholder in this Company, which is the only company of its kind, and by so doing show that he means business, as his money being invested, his interests and the interests of the Company are the same, and then raise poultry, turkeys, ducks and geese for the Company. This Company will buy only from its own shareholders; therefore, with care and attention every farmer and every farmer's wife and every man, woman and child of ordinary intelligence in Canada who has fifty dollars can buy ten shares and become a shareholder, and by beginning in a small way and saving his profits make himself wealthy, like Mr. Taylor has done. Who Mr. Taylor is, is explained in the following extracts from a story told by Professor Robertson, the well-known Commissioner of Agriculture and Dairying for Canada, to the standing committee of the House of Commons:—

"WELL-TO-DO FARMERS FATTEN CHICKENS. I LEARN ALSO THAT THERE IS MONEY IN THE BUSINESS. I had got the name of Mr. Samuel Taylor from one of the leading poultry dealers in London. When I got to his place I found Mr. Taylor was a successful farmer. HE HAD BEGUN LIFE AS A FARM LABORER WITHOUT CAPITAL. When I visited him he had a fine farm, standing and was doing a prosperous business. I would not like to say how much money the chicken-fattening business brought him in, but I would not be surprised to learn that his annual net balance was over a thousand pounds (five thousand dollars a year)." This man had begun life as a farm laborer and by sticking to this business had made money out of it.

THE PROMOTERS ARE NOW ARRANGING TO ESTABLISH not less than twelve receiving and shipping stations in Canada to be fitted with plants necessary to make the exported article as perfect as possible. The number of stations in each Province will be as nearly equal as possible, having regard for the size of the Province and the number of shareholders in each. The operations of the Company to be confined for the present to Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island. The Company is also engaging the most experienced help to be found in Canada and England and making arrangements in England to get the very highest price for its shipments.

THE BUYERS OF THIS COMPANY will commence operations, it is expected, on or about the first of June, 1901, when they will call on the shareholders and arrange with them as to the continuous supply—that is, the number each shareholder will raise and supply each month to the nearest receiving station of the Company. It is therefore necessary that all intending shareholders send in their subscriptions for stock at once, as the Company will only buy from its shareholders and the lists will be closed.

THIS IS A GRAND CHANCE TO MAKE MONEY for either farmers or THEIR WIVES and those who either cannot afford to keep up a large farm or who, through some infirmity or poor health, are not able to attend to the heavy duties of heavy farming.

PRICES TO BE PAID.—This Company will pay the very highest prices to its shareholders, so as to encourage the raising of first-class poultry, and as it will year in and year out be selling at the high prices in England, it can afford to pay more than the best prices now paid for birds now sold on the Canadian market.

GREAT PRICES IN ENGLAND.—Chickens shipped to Liverpool, England, met with a ready sale at eightpence (sixteen cents) per pound. As they weighed eleven pounds per pair, they sold for one dollar and seventy-six cents per pair. JUST THINK FOR ONE MOMENT—one dollar and seventy-six cents for a pair of chickens in England, and yet it is only a fair market price there, and the profits are equally as good, if not better, on turkeys, ducks and geese. The consignee wrote as follows about the shipment: "I was agreeably surprised at the all-round excellence of your small experimental shipment of Canadian capons (chickens). On opening the cases the birds were found to be in beautiful condition, and presented a most saleable appearance. After the birds were uncased I hung one to find out how long it would retain its bright appearance, and found that it became milky white as soon as it had dried out of the chilled state; to-day, five days later, it is as nice looking as a fresh killed bird. I think the price obtained will both please and pay you. It is a fair market price."

### Three Firms Alone Intimated Their Ability and Willingness to Handle About Two Thousand Cases Per Week at Good Prices.

RAISING POULTRY PAYS.—It pays better to fatten them, and it pays best to ship them to England. The shipment sent to Liverpool, England, above described, brought one dollar and seventy-six cents per pair; the farmer sold them to the shipper for fifty-four cents per pair, which is above the average price, as often he does not get more than thirty cents per pair; can anything be clearer than that the farmer is failing to make enormous profits? By becoming a shareholder you will commence putting the money in your own pocket.

SUCCESS.—This Company is a natural outgrowth of the great and wonderful cold storage system. Before "cold storage" became known it would have been an impossibility to carry on this great business, but now the great success of cold or chilled storage is the maker of this enormous business, which will prove a money-maker for its shareholders. Space will not permit giving a description of the great arrangements to be made, of the many receiving and shipping stations, abattoirs, cold storage plants, offices and agencies this Company will establish in the different Provinces of Canada and in England, or of the numerous employees it will engage to do the buying, killing, plucking, packing and shipping; the instructors, the Company will engage, will give to the working shareholders such directions and assistance as they may desire.

THE HEAD OFFICE WILL BE AT HAMILTON, ONTARIO, and from there MR. WILLIAM S. GILMORE, THE EXPERIENCED MANAGER, will direct its affairs. Mr. Gilmore is already well known to many Canadians, but for those who do not know him and who would naturally like to know something of the man who is to direct the affairs of the Company in which they intend to invest their money the following extract from a letter written by the celebrated firm F. W. FARMAN CO., LIMITED, the greatest pork packers and provision merchants, and probably the oldest established firm of its kind in Canada, to the proposed bank of this Company, will be of interest:

GENTLEMEN.—At the request of Mr. W. S. Gilmore I write to advise you that we have known him for years, and have had during that time continuous dealings with him as one of our customers. He is a practical provision dealer and butcher of many years' experience. He is about fifty-five years of age, but active and progressive, and as a judge of poultry, live or dressed, he is certainly the equal of the best in Hamilton. As to his personal character, respectability and integrity, we believe he is fully to be relied on for anything he will undertake.

Every shareholder in this Company is not obliged to raise poultry simply because he is a shareholder—anybody can buy stock in the Company, and the net profits or dividends will be divided between all shareholders alike, and it is safe to say they will get large dividends for their money.

EXCLUSIVE PRIVILEGE.—The Company extend an exclusive privilege to those who hold ten shares or more of the Company's stock to raise poultry, turkeys, ducks, geese, etc., for the Company, to supply the great demand, and to this class of shareholders the Company will pay the very highest prices for their birds. They will be given the great advantage of careful instruction, free of charge, in the art of raising and fattening poultry, as well as receiving their share of all the profits of the Company, and, as the promoters wish to make this a Company by the farmers and for the farmers, all the servants and employees of the Company will be chosen from among the shareholders or their families.

THE CAPITAL STOCK of this Company is divided into shares worth five dollars each, and of this only a limited number of shares are offered for public subscription. The subscription will be accepted for less than ten shares (\$50). If you wish to become a shareholder, and no stock will be held open for anyone. Fill out the APPLICATION FORM given below, be careful to state how many shares you want and the amount of money you enclose, sign your name to it and then fill in your address and send it by registered letter to Mr. Gibson Arnoldi, the President of the Company, 9 Toronto Street, Toronto, Ontario, accompanied by a marked cheque, postoffice order or express order for the full amount of your subscription, payable to the order of Mr. Gibson Arnoldi, President of the Company.

The promoters reserve the right to change the name of the Company if the Government request them to do so as a condition to the granting Letters Patent under the Great Seal incorporating the proposed Company, and also at the same time to ask incorporation with any other amount of capital stock than stated in their prospectus.

### Log Prices up.

(Bangor Commercial.)

There evidently is to be no drop in the prices log owners are asking for logs this spring and many of the manufacturers are beginning to believe that they will either have to get more for lumber or shut down altogether. There must be some grave reason for the present prices for logs and many people are at somewhat of a loss to account for it. There are men on Exchange street who believe now that there is to be a scarcity of spruce lumber here this summer. Nearly, if not quite half the cut on Penobscot waters this year will be pulp stock and this means a certain curtailment of the number of saw logs. There is more pulp stock cut along the river and its branches this spring than ever before.

The West Branch drive this year will start with about 65,000,000 feet of logs and it is estimated that over half of this, possibly 40,000,000, will be stopped at the dam of the Great Northern Paper Co., at Millinocket, to be ground into paper. This leaves only 25,000,000 of saw logs to come into the boom. The cut on the East Branch is estimated at 40,000,000, and 12,000,000 of this will go to the pulp mills, thus only 28,000,000 of saw logs will be contributed to the market from this great region.

The Mattawamkeag drive will probably amount to 18,000,000, and half of this cut is pulp stock. The Piscataquis cut is about 12,000,000, and of this only 9,000,000 or 10,000,000 will come into the boom, the rest going to Montague and other pulp mills. There are 3,000,000 on the main river, most of which will be pulp. The Passadumkeag drive will include about 6,000,000 and a good deal of this will be pulp stock, though just how much is not known.

In view of these figures it is safe to say that there will be nearly 70,000,000 of pulp logs to 72,000,000 of saw logs in the drives on the Penobscot this spring. Last year the logs that came into the boom for Bangor amounted to 123,000,000 feet, which was an average amount.

Out of this amount the pulp mills below the boom were supplied, which took up probably not more than 25,000,000 feet, if as many as that. Taking it at that figure the logs this year would be cut down by 20,000,000 and probably 25,000,000.

There is another thing which looks as if it would figure in this year's log prices. Lumbermen are shaking their heads now and predicting a hard driving season. The rains came too early and all the water that has been making trouble all along the Penobscot from Mattawamkeag to Bangor, has been utterly wasted so far as the drives are concerned. If more rain comes at the right time, just before the lakes open, the drives will have plenty of water, but if they depend only on the fast melting snow the water will be gone before the drives start, and that means trouble all along the line.

Take things all together, the outlook is not so cheerful for the manufacturers as it might be. Prices for lumber are too high now for the buyers and if higher prices still have to be paid for logs on account of scarcity no man can say what the result will be.

It has been reported on Exchange street for a day or two that the entire cut of John Ross & Son and Ross & Appleton, amounting to about 7,000,000 had been purchased by F. W. Ayer & Co. at \$15 per thousand. The logs are spruce. It has been stated that the amount ran over 12,000,000, but this cannot be correct. Ross & Son and Ross & Appleton have three operations, one on Lobster Lake, one on the West branch in that region, both amounting to about 4,000,000, and one on the Wassataquoik, amounting to 3,000,000 or under. The report that the price paid was \$15 is said to be correct. If it is, it is an indication of the prices which may prevail this year.

In Arrostook Co. Maine, the farmers began potato planting last week; this is said to be earlier than for many years.

The Roman Catholic church at Farnham, Que., was burned on Tuesday. Loss \$50,000; insurance \$20,000.

### MISERY AND HEALTH.

#### A STORY OF DEEP INTEREST TO ALL WOMEN.

Relating the Sufferings of a Lady Who Has Experienced the Agonies That Afflict So Many of Her Sex—Passed Through Four Operations Without Benefit.

Throughout Canada there are thousands and thousands of women who undergo daily pains—sometimes bordering on agony—such as only women can endure in uncomplaining silence. To such the story of Mrs. Frank Evans of 33 Frontenac street, Montreal, will bring hope and joy, as it points the way to renewed health and certain release from pain. Mrs. Evans says: "I feel that I ought to say a good word for Dr. Williams' Pink Pills, in the hope that my experience may be of benefit to some other suffering woman. I am now twenty-three years of age, and since my eleventh year I have suffered far more than my share of agony from the ailments that afflict my sex. At the age of sixteen the trouble had grown so bad that I had to undergo an operation in the Montreal general hospital. This did not cure me and a little later I underwent another operation. From this I received some benefit, but was not wholly cured, and I continued to suffer from pains in the abdomen and bilious headache. A few years later having with my husband removed to Halifax, I was again suffering terribly and was taken to the general hospital where another operation was performed. This gave me relief for two or three months, and again the old trouble came on, and I would suffer for days at a time and nothing seemed to relieve the pain. In February, 1899, I was again obliged to go to the hospital and underwent a fourth operation. Even this did not help me and as the chloroform administered during the operation, affected my heart, I would not permit a further operation, and was taken home still a great sufferer. In 1899 I was advised to try Dr. Williams' Pink Pills, and decided to do so. I have used the pills for several months and have found more relief from them than from the four operations which I passed through, and I warmly recommend them to all women suffering from the ailments which afflict so many of my sex."

Writing under a later date Mrs. Evans says: "I am glad to be able to tell you that not only has the great improvement which Dr. Williams' Pink Pills effected in my condition continued, but I am now perfectly well. I had given up all hope when I began the use of the pills, but they have restored me to such health as I have not before known for years. I feel so grateful for what your medicine has done for me that I gladly give you permission to publish my letters in the hope that other women will follow my example and find health and strength and new happiness through the use of Dr. Williams' Pink Pills."

No discovery in medicine in modern times has proved such a blessing to women as Dr. Williams' Pink Pills. They act directly on the blood and nerves, invigorate the body, regulate the functions and restore health and strength to the exhausted patient when every effort of the physician proves unavailing. Other so-called tonics are mere imitations of these pills and should be refused. The genuine bear the full name, "Dr. Williams' Pink Pills for Pale People" on the wrapper around each box. They are sold by all dealers in medicine or can be had post paid at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

### ELECTION ECHOES.

OTTAWA, April 17.—The return of the Clerk of the Crown in Chancery on the general elections of last fall was presented to parliament to-day. The number of rejected ballots in this election were 7,718, as against 13,871 at the previous election, which would tend to show the immense superiority of existing ballot forms over the disc ballot of 1896. With the improvements the government is recommending this session there is reason to believe that the proportion of spoiled ballots can be reduced to an exceedingly small proportion.

The total vote by provinces was as follows:—Ontario, 426,083; Quebec, 237,259; Nova Scotia, 107,838; New Brunswick, 68,340; Prince Edward Island, 21,129; Manitoba, 41,780; British Columbia, 26,451, and the North-West Territories, 23,618, making a total of 952,496.

In the general election of 1896 the total vote cast was 835,000. The largest majority, 2,772, was secured by the Prime Minister in Quebec

East, and the smallest majority, one, in North Bruce.

The blue book includes the special report of the returning officer in West Durham, where no return was made.

### Severe Pains In Back and Hips.

Mr. James Clark, Concession, Prince Edward County, Ont., states: "Eleven years ago I was taken with pains in my back, settling in my hips and extending up my spine. The pain was very severe, and at times almost unbearable, and many days I was not able to do an hour's work. Though I had consulted many first-class physicians and tried several advertised medicines, I could get no relief."

"At this time my father-in-law told me to try Dr. Chase's Kidney-Liver Pills, and said he knew they would cure me. I secured one box and great was my surprise when I began to feel better. I continued their use until I had taken about four boxes, which made me a sound man. I have recommended them to a number of my friends and have never met with one case where they did not meet with good success. My daughter, Mrs. Chas. Phillips, has also been cured of a severe stomach trouble by the use of these pills." One pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto, Ont.
