At Moncton, Tuesday, the Grand Lodge, Independent Order of Good Templars, met in council session. The reports of Grand Chief Templar Dodge, of Nauviggawuk, and Grand Secretary Lawson, of Salisbury, were submitted. The latter showed a considerable decrease in membership. Four new lodges were organized, and three resuscitated during the year, but 15 charters were forfeited, so that only 44 are active, as compared with 52 last year. The total membership had declined from 1708 to 916. New lodges were organized at Stileville, Salisbury and Moncton in Westmorland county, and Briggs' Corner, Queens Co. Lodges were organized at Alma and Harvey in Albert county, and Olinville in Queens.—*Exchange.*

A Satisfactory Showing.

THE AGGREGATE TRADE \$13,000,000 IN EXCESS OF LAST YEAR.

An Ottawa despatch, July 22, says the Grand aggregate trade of the Dominion for the fiscal year ending June 30 last, will be \$394,000,000, which is \$13,000,000 in excess of last year, and last year was by far the largest in the history of the country. The grand aggregate trade for 1900 was \$381,517,336. On the basis of imports entered for consumption and Canadian produce exported, the total trade last year was \$358,864,583, as compared with \$345,985,174 for the previous year. The exports of Canadian produce for both years by classes were as follows:—

	1900.	1901.
Produce of mines.....	\$24,580,236	\$30,982,573
Produce of fisheries.....	11,109,083	10,729,332
Produce of forests.....	29,663,968	30,003,837
Animals and their produce.....	56,148,801	55,409,537
Agricultural products.....	27,516,899	24,977,532
Manufactures.....	14,224,287	50,012,502
Miscellaneous.....	208,070	44,642
Coin and bullion.....	1,670,008	385,977
	\$165,180,856	\$177,639,192

These figures show an increase for the past year of \$12,458,334. It will also be noticed that there is an increase of \$15,000,000 in the produce of the mines and a substantial increase of exports of manufactures. The figures relative to the exports of foreign produce show that the Canadian shipping routes were more largely patronized last year than ever. The exports of foreign farm produce amounted in all to \$15,820,302 as compared with \$12,101,213 for the year previous.

The imports for consumption, last fiscal year, totalled \$181,225,389, and for the previous year \$180,804,316.

Deducting the coin and bullion the imports for consumption, for 1901, were \$177,688,075 as against \$172,506,878. This shows an increase for 1901 of \$5,000,000. The duty collected in 1901 was \$29,128,548, and, in 1900, \$28,889,110. The average rate of duty

imposed on the imports dutiable and free, after deducting coin and bullion, and the value of Canadian corn imported and subsequently exported was 16.89. On the same basis, which, according to the Conservatives, is the accurate standard, the rate in 1896 was 19.19. It will be seen, therefore, that there was a reduction last year, since 1896, of 2.30, which is equivalent to a reduction of 12 per cent.

If the rate of 1896 had been in operation last year \$4,000,000, in round figures, more duty would have been collected. The rate of duty in 1900 was 17.32, as against 16.89 in 1901. The year's trade figures are gratifying to the country and of the administration as well.

Killed on the Rail.

A freight train coming north, at 11 o'clock a. m., Thursday, brought to Vanwarte's undertaking rooms the dead body of a man found on the track near Oak Mountain, about 15 miles from here. The undertaker had the body prepared for burial. A large number have viewed the body but the man has been unidentified as yet. The body was cold when discovered, and it was supposed he was run over by the Wednesday night train. The body was severed just below the ribs. He is about 30 years of age, wears a moustache, and has the initials "I. V." tattooed on his left arm. Coroner Hay, it is supposed, will hold an inquest this (Thursday) afternoon. The deceased was clothed in the garb of a laborer.

A Startling Discovery.

Within the past few weeks a star of magnificent brilliancy has appeared to most of our readers. On close examination it proves to be Marie Lamour starring in "A Wise Woman." The Highly Civilized Ancients.

The middle aged man who has explored life to weariness and whom novels will no longer stir may find his sense of mystery and wonder excited anew by the accounts of discoveries in buried Egypt. Prof. Flinders Petrie, who has devoted his life to exploration of the soil and search into the history of that ancient land, completed last week a series of highly instructive and suggestive lectures at the Royal Institution. Long buried tombs of ancient kings have been discovered and explored, and, although in nearly all cases these have been previously pillaged in the Roman era, enough of their contents remain unbroken or overlooked till now to afford ground for reconstructing in outline at least, a wonderful and unsuspected civilization. When we are shown, for example, specimens of goldsmiths' work dating from 4,750 years before the Christian era, which have never been surpassed since in technical skill, working of designs, variety of form and perfection of soldiering, we are sobered somewhat in our beliefs that the process of time means progress and that the present is the best and noblest era of civilization. We are proud, for instance, of the products of modern steam spinning and weaving. Yet the linen woven 6,000 years ago was finer in thread and closer in web than our finest cambric.

Not dead the little flower,
So beautiful and fair,
Only transported to the skies
To bloom forever there.
Little Ella is in Heaven,
One of the angel band,
One of the little white-robed throng,
Safe on the golden strand.
She is safe within the fold,
Sheltered on Jesus' breast,
No suffering, no more "fretted" now,
Your darling is at rest.
Parents, oh look above,
List to the angel band,
Can you not hear her voice,
Calling to that bright land?
