

The Carleton Sentinel.

VOL. 53.—No. 29.

WOODSTOCK, N. B., FRIDAY, JULY 19, 1901.

WHOLE No. 2894.

ST. JOHN LETTER.

To Find Peary — Markets, etc.

W L Bridgman, of the Peary Arctic club, passed through the city last Thursday, and reached North Sydney last Saturday, when the Peary relief steamer Eric, at once sailed for Greenland. The Eric has on board ten tons of provisions that were shipped from New York; other supplies were obtained in North Sydney where outfitings for sealing, fishing and trading fleets are handled in large quantities. The last thing put on board at North Sydney was a large quantity of fresh fruit for Mrs and Miss Peary and the Danish governor and his family at Uppernarvik. The Eric carries four guests who are men of scientific attainments, and is commanded by Capt J E Blakeney of Halifax, with Moses Bartlett of Brigus, Newfoundland, as second officer. If Lient Peary is alive he will hear, on the arrival of the Eric, for the first time of the death of his mother at Portland, Maine, of the outcome of the Spanish-American war and of the situation of affairs in the Philippines, South Africa and China.

If somebody had been prepared to preserve strawberries this season for winter use a tidy bit of money might have been made in the business.

Logs that were supposed to be "hung up" are arriving at the mills every day.

A local paper calls the Fenian Raid Veterans the "Fenian Raiders."

Another local paper says the biggest of the "crustacean variety of lobsters" ever seen in the city is shown at one of the hotels.

J E Moore, purchaser of the wrecked steamship Armenia, thinks he will be able to float the vessel.

The proposed site of the Dry Dock will be inspected by a competent engineer next week.

Spanish, Italian and Norwegian barks arrived in port yesterday.

A horse with a load of coal fell from an embankment into one of H S Cruickshank's green houses last Thursday. Mr Cruickshank has 3,000 roses, 3000 carnations and 3000 chrysanthemums for winter blooming that were undisturbed.

Some slight changes have occurred during the last week in the prices of a few staple groceries, to-day's quotations, for which follow:—

Best Manitoba flour	\$4.70	per bbl
Ontario patents	3.90	do
Ontario mediums	3.70	@ 30 do
Cornmeal	2.40	do
Granulated sugar	4.55	per cwt.
Extra C	3.70	@ 30 do
Yellow C	3.65	@ 30 do
Pollock	1.90	do
Medium cod	3.75	do
Large cod	3.90	per cwt.
Pure lard	11 1/2	@ 12 1/2 per lb.
Compound lard	9 1/2	do

The last drop in sugars was occasioned by large importations of Austrian granulated, but a grocers' guild has been formed and an arrangement has been entered into to handle no sugars other than those manufactured by our own refiners; this will bring about an early advance in prices. A large lot of choice P. R. molasses is in the market branded "Extra choice." Purchasers will do well to investigate the quality when buying and not be guided by the brand. Canned goods are quoted about as a year ago, but a combine has been entered into by the canners who claim that they are selling at a loss and prices will advance.

EDWARD EDWARDS.
St. John, July 15, 1901.

The Orange Celebrations.

AT DEBEC.

The 12th was celebrated by the Orange Association at Debec, this year, under the banner of the County Lodge. The first arrival was by the Woodstock train at about 7 a. m., among whom was the County Master J. A. Lindsay, and Moses Moore, master of No. 89, as well as a number of members of 88 and 89. Prince of Wales, No. 87, L. O. L., provided dinner and refreshments for all who wished. The lodge was opened at 9.15 a. m. and remained open during the day. The Orange men and their friends began to gather early in the day and by noon a large number had arrived. A procession was formed at 2 p. m., marshalled by Henry Hay, County Director, and led by County Master J. A. Lindsay, mounted on a white horse; the parade formed at the hall and marched about two miles, after which those present listened with attention to speeches by Revs. Stebbins, Archibald, Barton, Currie, Dakin, and P. C. M. Lockhart. The County Master acted as chairman. Music was furnished by the Pipe and Drum Band under the leadership of Mr. George Grenville. The day passed off very pleasantly and every in-

dividual with the Orange colors conducted himself in the most becoming manner. The funds realized by the lodge at Debec will be used to purchase a banner and other needed supplies. The Orangemen from this county will go to Bangor for July 12, 1902.

LOWER SOUTHAMPTON.

The celebration of the 12th, at Lower Southampton, was on a grand scale, and the entire proceedings passed off in a satisfactory way; there was no confusion or disorder but the utmost decorum characterized the celebration throughout. The True Blues, Prentice Boys, together with D. G. Chap., Rev. J. C. Bleakney, and P. G. M. Hipwell and the Woodstock Brass Band composed the Woodstock contingent, that attended.

A monster procession was formed and, headed by D. G. M. and D. S. Chaplain, the Woodstock band following, marched to the R. Baptist church, where a large congregation, too much so for the building to contain, listened to an appropriate sermon delivered by D. G. Chap. Bleakney; after the sermon the procession reformed and marched back to the lodge room. After dinner an enjoyable afternoon was spent in a social way, the merry-go-round, as well as the music of the band, lending their attractions; G. Akerley, of Hipwell Lodge, being called to the chair, spirited addresses were made by Rev. Mr. Bleakney and David Hipwell. In the evening a well attended and successful concert was held, the Woodstock Band furnishing the music.

Primitive Baptists Meet In Annual Session.

The annual meeting of the Primitive Baptists took place at Perth Centre on July 6 to 8. The first meeting was at 10 o'clock Saturday, preaching by Rev. C. H. Orser. At 2.30 a conference meeting was held, at the close of which the Sacrament was administered to a large number of communicants. A business meeting was held at 7.30, at which was received reports from various churches.

At 9.30 on Sunday morning a prayer meeting was held with a sermon following, at 10 by Rev. G. A. Giberson. At 2.30 preaching by Rev. C. H. Orser; at 7.30 preaching by Rev. S. Currie. There were large congregations throughout the day.

Another business meeting was held on Monday at 8 a. m. Ministers present were J. M. Mallory, chairman; A. Starrs, ast.; M. P. Orser, clerk; S. E. Currie, C. H. Orser, S. E. Spargo, D. E. Brooks, G. A. Giberson, N. Kilcollins, H. Brown, A. Lockhart. Licentiate J. H. Giberson, E. London, J. S. Spargo and 20 messengers were also present. Several hundred converts were baptized in the year.

Officers were elected as follows; J. M. Mallory, chairman; A. Starrs, assistant chairman; M. P. Orser, clerk; William Orser, assistant clerk; D. E. Brooks, treasurer. An executive committee was also elected. A. Starrs, delegate to attend N. S. annual meeting, the October quarterly meeting at Queensbury, January meeting at South Bridge-water, March meeting at Windsor, and the annual meeting at Canterbury station.

A vote of thanks was passed thanking the brethren and friends for their kindness and hospitality.

At 2.30 Monday Rev. D. E. Brooks delivered a sermon, 7.30 another by Rev. M. P. Orser.

The meeting was very profitable to all who attended. Adjournment was made until the quarterly meeting in October.

M. P. ORSER, Clerk.

The Maritime Homestead.

W. W. HUBBARD, who has edited the Co-operative Farmer (lately changed to the Maritime Farmer), of Sussex, N. B., since its inception in 1895, will shortly sever his connection with that paper, and will establish a paper devoted to the farm and home field of the Maritime Provinces.

This new journalistic enterprise will be called "THE MARITIME HOMESTEAD," and will have offices in both Halifax and St. John. With the editorial department of this paper will be associated some of the leading agricultural workers of eastern Canada. As its name applies, "THE MARITIME HOMESTEAD" will make a specialty of dealing with those matters connected with our maritime agricultural development, including all departments of animal husbandry, agriculture, horticulture, nature study, domestic economy, entertaining reading and a special compilation of general and local markets and crop prospects.

Sydney's Present Boom Over.

Business, Professional and Other Men,

Except Capitalists,

Advised to Keep Away.

One of the leading papers in Sydney, C. B., in a very recent issue, sounds the following note of warning and advice:—

For the last two years Sydney has been the Mecca of men of all ages, of all classes, and of every known line in which men eke out a living. The leprous Chinaman, the stunted Esquimaux, the hustling merchant, and the shrewd capitalist, etc., have all visited our town and taken up their abode in the struggle for the almighty dollar. Men of capital, men without capital, brainy men and brainless have been attracted here, all trying to solve the bread and butter problem. Some came expecting to pick up gold in the streets; others came resolved to enter the race and win by the law of the survival of the fittest. Naturally there are many disappointments in this medley of races and pursuits. Nearly every line has been overdone. We have too many merchants; too many lawyers; too many doctors; too many tailors; in fact too much of everything except capitalists. We have a good supply of the latter for which we are duly thankful, but a few more and a few more manufacturing concerns are what we need the most. Sydney is a big town; it is a growing town; it is a town with a future, but its future greatness will be marked by the financial corpses of many men who will regret that they ever came here. It is not the fault of the town, although the town is apt to get a set back on account of the failures; it is simply the inevitable result of overcrowding. Walk along any of our streets and you will see stores enough for a much larger population than Sydney has at present. Go ask any of the proprietors what they pay for rent, and you will stand amazed at the magnitude of the sum. Does it require prophetic instinct to foretell the future, when competition is so severe? There is a time in the history of every boom town when people should be warned to keep away from it, unless they are creators of enterprises. The merchant comes to live on created enterprise, not to create, and the more merchants there are in a town the less there is to be divided among them. There is not enough room in Sydney to-day for one more business or professional man, and those coming in or contemplating coming are only courting annihilation, unless they have unlimited capital to sink on rent, board or wages, and can wait until some fellow merchant with less capital has to balance his accounts with the aid of the sheriff. Our advice to business, professional and other men, except capitalists, is to keep away from Sydney until the present works are extended, as it is promised that they will be. But to capitalists, men of money and genius, we say Come. Come and invest. Our resources if properly utilized, will double your thousands and with their growth will bring into prominence the men who used them. The resources of Sydney and adjoining towns are unlimited, and if developed properly will result beneficially to all. But let every one who is not a maker of industries keep away from the Mecca of Canada, until there is something worthy of their pilgrimages.

ALCYONIUM 2.24

At Worcester, Mass., on July 13th, inst., "Alcy" blk. g., by "Alcyonium" 2.24, the celebrated trotting stallion now owned by J. R. Murphy of this town, won the 2.24 trot and got a mark of 2.19 in the third heat in a race.

Alcyonium has now 12 in the 2.30 list, 5 in the 2.20 list, 1 with a record of 2.13. He is also the sire of the mare "Sloppy Weather," that now holds the world's record on the ice. She got it in a race at Montreal last winter. Alcyonium is the greatest speed producing stallion in New Brunswick.

AT BROWN'S ELAT.

The Globe.—The camp meetings at Brown's Flats closed on Sunday. The services throughout were the best attended and the most impressive ever heard there, while the attendance was the largest in the history of the denomination. The services on Sunday were very largely attended and very interesting. Although the camp meeting services are now at an end there are still a number of ministers at Buelah, and services will be held regularly during the next two months.

Narrow Escape From Drowning.

Gallant Attempt at Rescue.

Shepherd Derrah, about 15 years of age, son of Dolph Derrah, had a narrow escape from drowning on Sunday afternoon. The day was excessively warm and he, with others, went to bathe near the old Extract Works. Supported by a barrel he was carried beyond his depth, and after making an effort to swim ashore became exhausted and sank. A young companion, Henry Flewelling, made a gallant effort to rescue him, but he found he could not without endangering his own life. Two young men, John Hayes and George Adams, who were a short distance off, came to the rescue and brought him to shore where, by rolling him on a log, he was helped considerably until Dr. Hand reached the spot. He was driven home, and, by the doctors' efforts, he has now fully recovered.

AN IMPROVED KODAK.

H. V. Dalling, who is the agent of the Canadian Kodak Co., Toronto, in his window, has a fine display of Kodaks and Kodak supplies. The exhibits of photographic work are excellent. These Kodaks can be purchased as cheap as \$1. Originally Kodaks had to be loaded in a dark room, but these Kodaks can be loaded in daylight with cartridges of two, six or twelve exposures. This firm's make of Kodaks can reproduce the true color values of the landscape and the lights and shades of the clouds with wonderful fidelity. Snap-shots or timed exposures out-of-doors, timed exposures indoors and flash light work at night, all come within the scope of the Kodak. The firm furnishes with every camera an illustrated instruction book, which explains each step of the picture taking and picture making in non-technical terms.

COUNTY COURT.

(Concluded)

After the business before the court as given by the SENTINEL, last week, was transacted, the following cases were tried and resulted as stated, and court adjourned on Friday afternoon:—

Chas. E. Gallagher, vs William Grant and Wm. Grant, jr., verdict for plaintiff, for \$42.06; F. B. Carvell for plf.; J. C. Hartley for deft.

J. W. Dalling and wife vs Robert McElroy, verdict for plaintiff, for \$1.00; F. B. Carvell for plf.; J. C. Hartley for deft.

Death of Alex. Balloch.

THE death of Alexander Balloch, at Washington, D. C., at the age of 74 years, is announced. Mr Balloch will be remembered as at one time being a prominent dentist of this town. He was a pleasant, genial gentleman, and had many friends. Deceased married for his first wife Miss Simpson, sister of Mrs. (Archdeacon) Neales. He was uncle of R. W. Balloch, Centreville.

ST. SWITHIN'S.

MONDAY was St. Swithin's day, and very heavy showers prevailed in many portions of Carleton County. Quite a down pour, with heavy thunder and vivid lightning passed over this town about midnight. According to the old legend, we may expect rain to fall on the following 40 days.

The Midsummer Delineator.

As this is essentially the vacation time of the year, *The Delineator* for August is the vacation number. The spirit of midsummer breathes over its pages from the fashions down to the household notes. The daintiest dresses and dress accessories are gathered into this number, just suitable in their materials and their make-up for the temporary use to which midsummer clothing is put.

The dressmaking article by Mrs. Gorman deals with lace collars and open work of various kinds, boleros, etc., which appear to be more popular than ever this season.

The kitchen article for the month describes various cold tomato dishes, summer drinks and fruit salads.

Three short stories also appear in the August number; one by Francis Lynde entitled "A Vacation Conscience;" another by Arabella Kenecally, daughter of the famous Dr. Kenecally, entitled "Dr. Fordham's Daughter;" and third, a college story written by a college girl entitled "The Impressionist Picture."

HIGH COURT FORESTERS.

Officers Elected.

At the meeting of the High Court of Foresters, at Sackville, last week, the following officers were elected: H. C. R., E. R. Chapman, St. John. P. H. C. R., A. W. MacRae, St. John.

H. V. C. R., John Farley, Bristol. H. Secretary, F. W. Emmerson, Sackville.

H. Treasurer, E. P. Eastman, Campbellton.

H. Physician, W. H. Irvine, Boies-town.

H. Coun., A. W. Ebbett, Gagetown. High Auditors, Jas. V. Russell, St. John; Thos. Murray, Sackville.

H. Orator, Rev. I. N. Parker. H. J. Secretary, Geo. W. Mersereau, Doaktown.

H. S. W., H. M. Blair, St. Marys. H. J. W. T., T. E. Colpitts.

H. S. B., Geo. Stohart. H. J. B., C. W. Leonard.

H. Mar., Geo. W. Mullen. H. Con., W. F. Sears.

H. Mess., Geo. F. Banks. H. Organist, Mrs. L. R. Hetherington.

Representatives to the supreme court, R. E. Chapman, B. M. Mullin, H. Woods, A. W. MacRae, George G. Scovill.

St. Stephen was chosen for the next meeting. The high court broke up at a late hour after the usual votes of thanks, it being the unanimous opinion of all that the high court just closed was the best ever held in the jurisdiction.

THE ROYAL VISITORS

TO BE WELL SAFEGUARDED

Ottawa, July 13.—It is said that at Rideau Hall special interest is being taken in the arrangements for the protection of the Royal party while they are in Canada, and that the arrangements for this protection will be very complete. It is stated that the secret police will be considerably augmented for the time the Duke is in Canada, and that only picked men will be engaged. All trains arriving in cities where the Royal visitors are staying will be closely watched for suspicious characters, and if any are found, it is said they will be arrested and detained until it is deemed safe to set them free again. As there are certain to be extra large congregations of people wherever the future King and Queen travel in Canada, it is expected that there will also be large numbers of the preying class, and these the police in the different cities will keep a sharp lookout for.

The protection of the Duke and his party while travelling will devolve upon the railway company in so far as safety is concerned. Before the Royal train a pilot engine will travel and the Royal train will have precedence on all lines. It is not expected that there will be much delay to the regular train service.

NOT ONE, BUT A HUNDRED.

Never Before Seen Features.

Notwithstanding the reports made current by the envious agents of a rival show which promises to exhibit in this section, that The Great Pan-American Shows would not exhibit here, we are pleased to be able to inform our readers (having had proof positive given us by the managers), that the Great Pan-American Shows will positively exhibit at Woodstock on July 22nd, in all their vast entirety. Every act, every animal, every novelty, every strange and doubly wondrous feature, will be seen here as they have been seen in the great metropolises of the world—the entire three-ring circus, the unapproachable 30-cage menagerie, the real Roman hippodrome, the monster museum, the oceanic aquarium and congress of living phenomena. All the famous foreign features; all the mighty features; everything which makes the Great Pan-American Shows the greatest and the best.

20,000 Laborers Required.

Farm Laborers Excursion.

The Canadian Pacific Railway announce that twenty thousand farm laborers will be required to harvest the enormous wheat crop of Manitoba and Assinabolia this season; and in order that as many as possible in the Maritime Provinces may take advantage of this great demand for labor, it has been decided to run a low rate farm laborers excursion on August 10th to all points in Manitoba and Assinabolia, west, southwest and northwest of Winnipeg, as far as, and including, Moose Jaw, Estevan and Yorkton. Particulars will be announced later in Canadian Pacific advertisement in this paper.—21-28.

FAMINE THREATENED.

ST. PETERSBURG, July 15.—Large parts of the empire are again threatened with famine. The last official report, which has just been published, is dated June 21. Since then not a drop of rain has fallen in the eastern provinces and it is believed the crops are now largely beyond hope in many districts. The provinces of Tamara and Saratoff will probably witness a recurrence of the dearth of two or three years ago, and a dearth in these provinces is particularly dreaded on account of the ignorance and helplessness of the Tartars, who make up a considerable part of the population there. The newspaper Volgar states that from all sides reports are coming in that both winter and summer grain are beyond hope of salvation even should there be ample rains, and no hay at all will be harvested. Since early June the temperature has been about 100 and no rain has fallen. The fields are burned brown and the feeding of cattle and horses has already begun to be a problem. The same kinds of reports are coming from the province of Kazan. The Volgar province has already been visited by two severe famines during the last ten years, and the people have lost whatever power they once possessed to withstand famines.

The British Wood Market.

Business Unsatisfactory.

(Fairworth & Jardine's Circular.)

Liverpool, July 1, 1901.—The arrivals from British North America, during the past month, have been 29,512 tons register, against 33,961 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1899, 1900 and 1901 has been 177,875, 172,988 and 169,224 tons respectively.

The business of the past month has been dull and unsatisfactory. The arrivals all round have not been particularly heavy, but the demand is inactive, and although the deliveries appear fair the market is weaker and a further decline in values for some of the leading articles has taken place. Caution should be exercised in consigning as moderately as possible.

New Brunswick and Nova Scotia Spruce and Pine Deals.—The arrivals during the past month, although heavy, are considerably less than the corresponding month last year, viz., 10,000 standards, against 15,020 standards, deliveries have been fairly satisfactory, but the latest sales show a further decline and selling is difficult; stocks are too large. Pine deals continue in fair request at steady prices.

Birch.—Of logs, chiefly from Quebec, the arrivals have been moderate and the consumption fair, but stocks are adequate; there is little change in value to report. Planks have again come forward far to freely, and although the deliveries have been large stocks are now much too heavy; values have again given way and recent sales have been at very low prices.

In the sales during the month St. John spruce deals realized from £5 5s. to £5 7s. 6d.; lower ports at about £5 7s. 6d. ex quay.

The Care of the Skin in Summer.

What with our hot sun, our mosquitoes and black flies, and our extremes of heat, the skin has its own troubles during our Canadian Summer, and if it is to fulfill its duties properly it must be kept in good order.

Everyone knows that the pores of the skin act as a wonderful drainage system for the body. Through their minute openings they carry off all impurities, and to allow them to do this, which by the way is one of the most important secrets of a good complexion, the skin must be kept soft and clean.

Nothing will help nature so much in this as a combination of good water, good soap and good friction with the towel.

So far as soap goes we have in Canada a toilet soap which is really unexcelled for keeping the skin in good order. It is comparatively inexpensive and easy to get as all dealers sell it. We refer to Baby's Own Soap made by the Albert Toilet Soap Co., Montreal.

Made from vegetable fats, only, no animal grease whatever, this soap cleanses and softens, and its exquisite aroma is most delicate and pleasing.

The waterworks will supply the other requisite and with good smart friction after the bath it is surprising how free the skin will be from painful sunburns, eruptions, and how fresh and clean the complexion will become.

Try it, it is cheaper, and better than any cosmetic.—Communicated.
