Are often engaged in doing the work of a home under the most trying condi-tions. Nature cries out against the stooping and lifting, the running up and down stairs at times when labor should

neglect under these conditions that the oundation is laid or serious woman y disease. Irregu-larity is the first step to impaired womanly health.

Perfect regularity may be established by the use of Dr. Pierce's Favorite
Prescription. It
will heal inflammation and ulceration and cure · female

weakness. It makes weak women strong and sick women well. "It gives me much pleasure," writes Miss Ella Sapp, of James town, Guilford County

town, Guilford County, N. C., "to thank Dr. Pierce for the great good received from the use of his 'Favorite Prescription' and 'Golden Medical Discovery.' I had suffered for three years or more at monthly periods. It seemed as though I would die with pains in my back and stomach. I could not stand at all without fainting. Had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith tried it, and before I had taken half a bottle I felt better. Now I have taken two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery,' and I am entirely cured, and in two months' time when all other medicines had failed."

These are the enervating days, when, as somebody has said, men drop by the sun-stroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic,—say, a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and will without any doubt avert much sickness at this time of year.

How a City is Ruined by Closing the Saloons.

Santa Monica, California, nearly a year ago decreed the closing of the saloons. To do so it was predicted would ruin the city. How the city has been ruined, read what the 'California Voice' says:

First, a very noticeable improvement in the number and character of the population and visitors to the beach.

Second, business men say that since closing the saloons in May, there is a decided improvement in the business, some going so far as to say that their business has almost doubled. The merchants say that they are now getting more cash in hands for goods than ever before, and what formerly went to the saloons now goes into the legitimate channels of trade. An example or two will show the trend of business

under prohibition. The bank deposits in the Santa Monica bank for the three months of June, July and August, 1900, under prohibition, were \$46,000 more than they were for the corresponding months of 1899 with open saloons. Moody's delicacy store for the months of June, July and August, 1900, under prohibition, took in in actual cash, for June, \$232.50; for July, \$584.83; for August, \$27.23; in excess for the cash receipts of the three corresponding months of 1899,

when they had saloons. In May. 1899, there were fourteen arrests for drunkenness; in May, 1900, only four, and all other cases traceable to saloons have fallen off accordingly. So that, summing it all up, Santa Monica can very well afford to do without saloons, and the good people of Santa Monica say that they can never again afford to have another saloon in their little city by the sea .- Union Gospel News.
