#### UNITED STATES ELECTIONS.

##### CRUSHING DEFEAT FOR TAMMANY.

New York, Nov. 6.—Full returns in New York city of the vote for Mayor show the election of Seth Low, the Fusion candidate, by a majority of 29,964, Mr Low receiving 294,992 votes, and Edward M Shepard, Democratic candidate, 265,128. Mr. Shepard carried only one borough, and in that one, Queens, his majority is only 762.

In the county of New York the last remaining hope of the Democrats is swept away by figures indicating the defeat of John T Oakley for sheriff by William F O'Brien. O'Brien's majority, however, probably is not more than 3,000 or 4,000. The majorities of the Fusionist candidates for Justice of the Supreme Court, and of William Travers Jerome, the Fusionist nominee for District Attorney, are larger than reported last night. Incomplete figures indicate that Jerome has carried his district, New York county, by about fifteen thousand. All of the Fusionist candidates for Justice of the Supreme Court in New York county are elected, and all of the Democratic candidates are beaten.

The election of Messrs Barnes and Lewis leaves the Senate unchanged. There will be thirty-five Republicans and fifteen Democrats in the Senate of 1902, which is the same number each party had in the Senate of 1901.

San Francisco, Nov. 6.—Eugene E Schmitz, the Union Labor candidate for mayor, has been elected by a plurality of about 2,500. Of the other candidates on the municipal ticket the Republicans elected auditor, sheriff, tax collector, treasurer, county clerk, public administrator and six supervisors. The Democrats will have city attorney, recorder, district attorney, coroner, two police judges and nine supervisors. Besides the mayor the Union Labor Party elected three supervisors.

New York, Nov 5.—With the election of Mr Low as mayor, Charles F Fornes as president of the board of aldermen, and Edward M Grout as comptroller, the Fusionist triumph in Greater New York appears nearly complete. The latest returns indicate that the Fusionists have also elected Jacob A Cantor, president of the borough of Manhattan; J Ed- w I Swanson, president of the borough of Brooklyn, and Geo Crom- well, president of the borough of Richmond. The borough presidency in the Bronx appears to be in doubt.

The Democrats are certain of one borough president, Joseph Cassidy, in Queens. For justices of the supreme court, Morgan J O'Brien, Saml Greenbaum, John Proctor Clark and James A Blanchard, the Fusionist candidates, were all elected, defeating Robert A Van Wyck, Charles W Dayton and Charles H Knox.

Boston, Nov 5.—W Murray Crane, of Dalton, Republican, was re-elected governor of Massachusetts for the third time to-day by a plurality of 70,408 over Josiah Quincy, the Democratic candidate. The Republicans also elected their entire state ticket.

Philadelphia, Nov 6.—Returns up to 2 a. m. indicate the election of the Republican state ticket, Frank G Harris for state treasurer and Wm P Potter for supreme court judge, by from 60,000 to 70,000 plurality.

Providence, R. I., Nov 5.—In the election of Governor Gregory and the entire ticket by a plurality of at least 6,000, the Republicans of Rhode Island, with a majority in both branches of the general assembly, have again retained the guidance of state politics.

Richmond, Va., Nov. 5.—Although the Democrats polled only about 75 per cent. of their vote, the indications now are that the Democratic majority for the state ticket will be more than 25,000.

Omaha, Neb., Nov. 5.—Reports from the state indicate a Republican majority on the state ticket of 3,000 to 5,000.

Des Moines, Ia., Nov. 5.—Republicans have carried Iowa by about 100,000 plurality.

Trenton, N. J., Nov. 5.—Both branches of the legislature will be Republican.

Louisville, Ky., Nov. 5.—The general assembly elected to-day, with the exception of half the Senate, which holds over, will be Democratic on joint ballot by an increased majority, according to the latest returns.

Columbus, O., Nov. 5.—The Republicans carried Ohio by an increased plurality on their state ticket and with an enlarged majority in the legislature.

#### Botha's Counter Proclamation.

##### TO SHOOT EVERY ARMED ENGLISHMAN.

Paris, Nov. 5.—The text of General Botha's counter proclamation to Lord Kitchener's recent proclamation has reached here. It declares:

"Whereas, no official of the Orange Free State or of the Transvaal Republic, and no general commandant or burgher intends to obey Lord Kitchener's proclamation or to trouble with it, and

"Whereas, the proclamation contains falsehoods habitual to the English, and

"Whereas, Lord Kitchener's proclamation has strengthened the determination of all burghers to resist to the end; now

"Therefore, I, Louis Botha, commandant General of the republican forces, with the consent of the government, officers and burghers of both republics, proclaim Lord Kitchener, his staff and the officers and soldiers serving under his orders fighting us now to be outlaws in South Africa, and all officers and burghers in the two republics and in Cape Colony are ordered to shoot every armed Englishman whom they meet."

#### Remarkable Telegraph Apparatus.

A correspondent of the London Daily Mail writes:—

One of the most remarkable things exhibited at the Paris Exhibition last year was a telegraph apparatus, invented by two Hungarian scientists, Messrs Pollak and Virag. The most extraordinary things were promised of it, and the French government invited the inventors to make trials over the lines from Paris to Lyons. The experiments were subsequently abandoned, mainly on account of the expense of transport.

The inventors have, however, installed their system on a wire from Budapest to Fiume, a distance of 376 miles, and actual practical working is taking place at the speed of 40,000 words per hour. The messages are written in Roman characters, and require no transcription. Negotiations are in progress for establishing the system in France and Germany, and the latter government has consented to a practical trial between Berlin and Cologne. The latter installation will be complete and working within a very short time.

It may be interesting to note that the system is an ingenious combination of telegraph, telephone and photography, the messages being written on sensitized paper by a ray of light, and then developed and fixed by an automatic process. The speed of this apparatus will be better appreciated when one takes into consideration that it is three times faster than the fastest Morse apparatus, and in addition requires no skilled transcription. Its adoption would considerably cheapen the cost of telegraphing.

#### ENGLISH PRO-BOERS.

London, Nov. 4.—A riotous scene occurred yesterday afternoon in Peckham, a suburb of London. A small gathering of the local branch of the Democratic League undertook to hold a meeting to protest against the war in South Africa. The manifestants started in procession for the place of meeting, but before they arrived there they were hooted, buffeted and dispersed. A crowd, estimated at twenty thousand, gathered to oppose them. There were many ugly rushes, and the police were barely able to protect the struggling Boers from the fury of the populace.

After considerable fighting, during which a man was stabbed, the Boers were removed under police protection. The victorious crowd then held a Jingo meeting and sang 'Rule Britannia.'

A dispatch to the London Daily Mail from the Persian capital says Great Britain has declared a protectorate over Koweyt.

## Dark Hair

"I have used Ayer's Hair Vigor for a great many years, and although I am past eighty years of age, yet I have not a gray hair in my head."  
Geo. Yellott, Towson, Md.

We mean all that rich, dark color your hair used to have. If it's gray now, no matter; for Ayer's Hair Vigor always restores color to gray hair. Sometimes it makes the hair grow very heavy and long; and it stops falling out of the hair, too.
