PRESIDENT'S MESSAGE.

Washington, Dec. 3.—Pres. Roosevelt's message was delivered to congress today.

The address, after a eulogy of the late Pres. McKinley, denounces anarchy in the strongest terms, declaring that it is a crime against the whole human race, and that all mankind should be armed against the anarchist. Anarchists, it says, should be kept out of the country, or deported when they come, or severely punished if they remain. Anarchy, says President Roosevelt, is a crime "of far blacker infamy" than piracy or the slave trade. In short no more unsparing denunciation of anarchy and its votaries has been penned, and the president recommends international action for their suppression.

Dealing with trusts, the message says the government should, in the interest of the public, have the right to inspect and examine the working of the corporations engaged in interstate business, and it suggests the creation of a cabinet office to be known as a secretary of commerce and industry.

The immediate re-enactment of the Chinese exclusion act is recommended.

With regard to immigration laws, educational and economic test should be applied to all immigrants.

The message declares against any general tariff changes, but favors a supplementary system of reciprocity such as would not injure home industries.

No specific recommendation to congress for a ship subsidy law is made.

It is recommended that the sternest measures be taken with the Filipinos who follow the path of insurrection. The need of a cable to the Philippines and Asiatic points is urged.

Satisfaction is expressed at the new canal treaty with Great Britain, which specifically provides that the United States alone shall do the work of building and assume the responsibility of safeguarding the canal, and regulate its neutral use by all nations on terms of equality without the guaranty or interference of any outside nation.

The message re-asserts the Monroe doctrine that there must be no territorial aggrandizement by any European power at the expense of any American power on American soil.

The work of upbuilding the navy, the message says, must be continued, but no army increase is needed at present.

Reference is made to affairs in China, to Cuba and Porto Rico, to the Indians, the Pan-American congress in Mexico, and is entirely without sensational features. It concludes as follows:

"The death of Queen Victoria caused the people of the United States deep and heartfelt sorrow, to which the government gave full expression. When President McKinley died our nation in turn received from every quarter sincere expressions of grief and sympathy, no less sincere. The death of the Empress Dowager Frederick of Germany also aroused the genuine sympathy of the American people and this sympathy was cordially reciprocated by Germany when our president was assassinated. Indeed from every quarter of the civilized world we received at the time of the president's death, assurances of such grief and regard as to touch the hearts of our people. In the midst of our affliction we reverently thank the Almighty that we are at peace with the nations of mankind; and we firmly intend that our policy shall be such as to continue unbroken these international relations of mutual respect and good will."

WASHINGTON LETTER.

(From Our Regular Correspondent.)

Washington, Nov. 28, 1901.

RECIPROCITY QUESTION.

More and more the question in political affairs in this city is coming to be: "What does the West think of it?" The North, say the politicians, is, generally speaking, assured to the Republicans; the South is similarly an appanage of the Democrats; in the West alone are to be found states which are growing in importance and political weight, whose affiliations with either party are doubtful. Consequently, both parties are disposed to curry favor with western states and to yield to them whatever they may ask if it can be done without too great a sacrifice to their own districts. This is most clearly seen in the present aspect of reciprocity, which, by the way, is not yet dead, although its condition is undoubtedly precarious. As western Congressmen arrive in the city, talk in its favor shows a tendency to revive that is somewhat surprising. During the summer and fall, the President, almost alone, upheld its banner, against the almost unanimous opinion of the few Congressmen who have been in the city.

Asthma

"One of my daughters had a terrible case of asthma. We tried almost everything, but without relief. We then tried Ayer's Cherry Pectoral and three and one-half bottles cured her."—Emma Jane Entsminger, Langsville, O.

Ayer's Cherry Pectoral certainly cures many cases of asthma.

And it cures bronchitis, hoarseness, weak lungs, whooping-cough, croup, winter coughs, night coughs, and hard colds.

Three sizes: 25c, enough for an ordinary cold; 50c, just right for bronchitis, hoarseness, hard colds, etc.; \$1, most economical for chronic cases and to keep on hand.

J. C. AYER CO., Lowell, Mass.

These have been almost exclusively from eastern states, where manufacturing interests are large and where reciprocity is at a discount. The west has been almost unrepresented and its feeling in the matter has been lost sight of. Consequently, the opinion had prevailed that, while reciprocity was advisable and even necessary to prevent possible tariff wars, still there was little or no chance for its adoption by Congress. Now, however, a different feeling is growing, brought about by the earnestness with which the western men are pronouncing their views, and the belief is prevailing that, even though the pending treaties may all fail, something must be devised to take their place. Already there is heard advocacy of the plan so widely adopted in European countries of having a tariff of two or three columns, prescribing maximum, medium, and minimum rates on all articles, the maximum being the one generally enforced, and the medium and minimum being granted to other countries, in return for similar concessions on their part. Advocates are also appearing for the establishment of discriminating rates; that is, rates that may be enforced by the President against countries that refuse to grant us certain rebates. This was the plan under which reciprocity was brought about during President Harrison's Administration; it has the advantage of providing solely for the increase and never for the reduction of the United States rates and therefore never arouses the opposition of American manufacturers. Neither of these ideas has passed beyond the stage of discussion as yet, but in view of the emphatic demand of the west for some measure of tariff reform, there is little doubt that some action will be taken during the session for the ultimate establishment of some form of reciprocity.

Terrible Railway Accident

BETWEEN 80 AND 100 LIVES LOST.

Detroit, Mich., Nov. 28.—Two passenger trains on the Wabash railroad, one going west the other east, met in a frightful collision, while going at almost full speed one mile east of Seneca, Mich., a village 11 miles west of Adrian, shortly after 7 o'clock last night. Both trains were wrecked in a dreadful impact entailing a tremendous loss of life, estimated from 80 to 100. The list of injured will reach 125.

Flames added to the horror of the wreck.

The westbound train was known as No. 13 and was a regular, which besides its regular coaches, had several coaches filled with Italian immigrants going west from New York.

The eastbound train was known as No. 4, the Continental Limited. It was a vestibule train consisting of a baggage car, combination coach and sleeper.

The cause of the wreck was a misreading of orders by Engineer Strong of the Continental Limited.

Detroit, Mich., Nov. 28.—The official list of the dead given to the local papers shows the names of but ten dead and 48 injured, but Detroit newspaper men who were at the scene of the wreck and talked with survivors of both trains say that the official list does not bear out the statements of the passengers nor evidence of the loss of life which they witnessed at the spot where the accident occurred.

The Free Press will say tomorrow that the loss of life was 100 in round numbers, and that the statements made by the Italian immigrants on the immigrant train bear out this assertion. These immigrants say that there were about 125 of their nationality on the train, and that only about 25 of them escaped. While there are only ten of them known to be dead, it is asserted that the other 90 were completely incinerated, and that with the removal of the wreckage the bodies crumbled to dust, which was scattered by the wind

Great Clearance Sale

Still : : :
Continues.

The extensive sales in the past few weeks left us with a great many broken lots. There are many lines with only a few colors or small piece of each: we cannot ask regular price for these. By reducing price we clear out these broken lines and incidentally impress people with our values.

A SPECIAL SALE of FLANNELLETTES, a splendid line for 3 1-2 Cents—former price 7 cts.; a very heavy line, 37 inches wide, in dark colors, now 10c.—former price 15c.

A Great Reduction in Dress Goods, Lines that were 25 cents now 12 cents.

A very large lot of Fur Goods will be sold cheaper than anywhere else in town. Call and see for yourself.

which swept across the country. If the names of these dead are ever known it will be when friends make inquiry for them, and in many instances this seems highly improbable.

IN FOR AN EPIDEMIC.

London, Nov. 30.—It was stated by the chairman this afternoon at a meeting of the Metropolitan Asylums board that it was useless to blink at the fact that London was probably in for a heavy epidemic of small pox and for a great expense in contending with it. Since Aug. 10, there had been 861 cases notified and there had been 141 deaths from the disease.

During the past fortnight 252 fresh cases had been reported.

Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for a hemorrhoid and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. Burglars at Brown's Flats.

The summer residences of the Rev. M. Ballentine, of Mendota, Ill., and the Rev. G. W. Macdonald, of this city, and the house of Capt. Charles Gorham, at Brown's Flats, were broken into on Sunday and many things of value stolen. Capt. Gorham was away on his woodboat, and on his return last night found his house broken open and many things missing. The Rev. Mr. Macdonald had left a great deal of silverware and other household goods in his cottage. Every portion of the house was ransacked and turned topsy-turvy. The thieves gained admittance by prying the shutters off the windows. Mrs. Belyea, whose husband keeps the hotel at Brown's Flats, first discovered that some persons were in the summer cottages on the camp grounds. Her husband was away at the time and immediately on his return informed him she believed thieves were at work. He at once proceeded to investigate, but the burglars had left when he reached the cottages. Certain persons, who have before been guilty of breaking into summer houses at the camp grounds, are strongly suspected.

The executive of the Reformed Baptist Alliance will issue a circular offering a large reward for information leading to the arrest and punishment of the offenders.

Nearly every cottage at Brown's Flats has within a short time been broken into and the owners think it is time the offenders were brought to justice.—Globe.

To the Manager of The Meteor Flour Mills:—

DEAR SIR—I am using "Meteor" flour in my hotel at the present time. I have never used a pastry flour that has given as good satisfaction. While it was only sold as a pastry flour, I have used it for bread and obtained good results.

Very truly yours,

Marketable Value of an Ear.

A DOCTOR BUYS TWO EARS FOR \$300 EACH—MAY BE PROSECUTED FOR MAYHEM.

Dr. Elmer E. Prescott, a skin-grafting specialist, found two men in Chicago willing to part with one ear for a consideration of \$300. The ears are necessary for an unusual operation the physician hopes to perform.

Thanksgiving passed off very pleasantly and profitably. In the evening a Thanksgiving service was held in Beveridge's Hall, the four churches, viz, Anglican, Presbyterian, Baptist and Methodist uniting in it. A large and appreciative audience filled the hall. Those who sat on the platform and took part in discussing the different subjects were: Rev J. D. Campbell and Geo. Baxter, agriculture; S. P. Waite and Senator Baird, commerce; Rev J. S. Greer, temperance; C. H. Elliott and Wm. M. Veazey, education; James Porter, M. P. P., finance; Thomas Lawson, M. P. P., jurisprudence; Rev S. B. Hillock, morals; Rev W. R. Demings, religion; Dr. Wellings, medicine. Familiar hymns were joined in by the congregation and all seemed pleased and profited by this splendid arrangement for a Thanksgiving service.

Mr. John Anderson, ex-M. P. P. for York county, and Mrs. Anderson, are visiting their daughters Mrs. Harry Tibbitts and Mrs. Wm. Curry.

Robert Anderson, of St. John, son of John Anderson, spent Thanksgiving here.

Rev H. Rice of Hartland, and Rev M. L. Gregg of Tracy Mills, and Miss Carrie Kilburn, spent Thanksgiving at the Methodist parsonage.

A very pleasant evening was spent

Obstacles in the case of criminal responsibility, however, presented themselves to Dr. Prescott. Justice B. Lume informed him that if he severed a healthy ear from the head of any person, knowing that he would thus deform that person, he would be guilty of mayhem. The physician immediately went to State Attorney Deven regarding his responsibility in such a case. The prosecutor told him that in his opinion he would be guilty of no crime, and the conflict of opinion caused the doctor considerable worry.

The two persons who will sell their ears as sacrifices to this operation are widely different, both in age and appearance. One of them is a paralytic nearly sixty years of age.

"I would consider it an act of charity if you would pay me that money," said the man. "My family needs the money, and as I am near to death, the loss of my ear will not be material."

The other applicant is a cripple, about twenty-eight years of age, who said he needed the \$300 more than he needed his right ear.

Bargains were closed with each.

News has been scarce and your correspondents from this part have been bothered with many trials and cares so they have neglected writing for your valuable paper. I hope such a thing will not occur again.

Mr. George Wade, an old and respected resident of this place, had a stroke of paralysis on Friday night from which he never rallied, and died on Sunday. If deceased had lived until the 10th of this month he would have been 92 years old; he could read without glasses and hear as well as anyone, and had all his faculties up to the time he was stricken down. His funeral sermon was preached by the Rev. Mr. Gregg at Tracy Mills on Tuesday, Dec. 3rd.
