EDWARDS-DOW.

At the residence of Mr. Amaziah Dow, Lower Woodstock, on Wednesday the 15th inst, his second daughter, Miss Tressa E. Dow, was united in marriage to Mr. J. Wilnot Edwards, of Benton. The bride was becomingly attired in a gown of blue cashmere, with white silk trimmings, and carried a bouquet of white roses. She was attended by Miss Birdie Edwards of Woodstock. Mr. H. Smith Dow, brother of the bride, supported the groom. An interesting feature of the occasion is the fact that the young couple were married in the open air. The bridal party took their stand on the front stoop under the spreading branches of a large tree, and scattered over the lawn on either side, were the more than half a hundred guests. It being mid-afternoon, and a perfect wedding day as to weather, the scene was very pretty. Rev. Geo. A. Ross officiated on the occasion. After the ceremony the guests sat down to a supper, in the preparation of which no labor had been spared. In the evening Mr. and Mrs. Edwards departed by carriage for Mr. Edwards' home at Benton Ridge, followed by the best wishes of all. The young couple were the recipients of many beautiful presents, among which was one to the bride from the Lower Woodstock Sunday School, of which she was a member.

Explanation.

To the Editor of Carleton Sentinel:

In the Andover items in your last issue there was a statement that I was at Andover recently with a view of locating there. I am sorry I conveyed that impression. I may say that I was approached with suggestions, when there on a business trip, that I come there a day or two each week, and that is the extent of what I may possibly do. I would therefore ask you to publish this for the information of my clients. Yours etc,

T. M. JONES.

Hartland, May 10.

COUNTY COUNCIL.

(Continued from eighth page.)
AFTERNOON SESSION.

The question whether or not to hear Major Vince, before the board, was taken up.

Coun Carvell said they had the advice of the Sec-Treas. who is their legal adviser. They have had enough of law and lawyers, and would take more stock in what the Sec-Treas said than in that of any other lawyer. If Mr. Vince was heard, the other side, by Mr. Connell, would also have to be heard. He thought every councillor had their opinion already decided.

Coun Gillmor said, at a former session, he remembered that Mr. Connell told the Council that it could issue debentures, while Mr. Vince told it that it had no authority to borrow money, and each claimed he was right. Mr. Gillmor objected to such confusion of opinion.

The amendment to have no legal advice was now put to the meeting, and carried, the following voting yes: Carvell, Speer, Foster, H. A. Phillips, Cliff, Alex. Bell, Hay, Lamont, Tompkins, Gillmor, Saunders, Balmain, Bailey—13; the remaining councillors voting nay—12. Coun Caldwell's amendment to the original motion, that a new jail be erected on the old site at Upper Woodstock, was now put to the Council, when it divided as follows:

Yes—Caldwell, Tracey, Atkinson, Shaw, Albert Bell, Cheney, Forrest, Kearney, Richardson, Gideon Phillips, D. Phillips, Cronkhit—12.
No—Carvell, Speer, Foster, H. A. Phillips, Cliff, Alex. Bell, Hay, Lamont, Tompkins, Gillmor, Saunders, Balmain, Bailey—13. Lost.

Another amendment to the original motion was moved by Phillips (Brighton) that Hartland be the place selected for the jail, but it was defeated, the following councillors voting yes: Caldwell, Tracey, Cheney, Kearney, Richardson, Phillips (Brighton), Phillips (Peel)—7.

The original motion was now put and carried, members who defeated the first amendment voting yes.

On motion of Coun Saunders, seconded Coun Gillmor, the blank in the resolution was filled in to read "not to exceed \$10,000."

On motion of Coun Saunders, seconded Coun Gillmor, the building is to be of brick and stone.

On motion of Coun Saunders, seconded Coun Gillmor, the blank was filled making the number of the building committee to consist of five.

The warden appointed the following as building committee: Couns Carvell, Saunders, Foster, Balmain, Phillips (Northampton).

On motion, the Warden was added to the committee.

Coun Saunders asked the Sec-Treas how we should proceed to secure the money. The Sec-Treas said the meeting of the Council would be held next month, and he would then be in a position to give the necessary advice.

Coun Caldwell thought the committee should not be limited to \$10,000.

On motion of Coun Shaw, seconded by Coun Bell (Wakefield), Mr. Harry S. Mott of St. John, architect, was heard. He said that if he was employed he would make plans and specifications and superintend the erection of the jail, for 5 per cent of the money expended (which would be \$500) plus his travelling expenses. He had constructed a jail in Dalhousie, and although he lived in St. John, he did business as far away as Sydney. He had just made arrangements for \$25,000 worth of work at Montreal. He would not want a cent until the building was completed to the satisfaction of the committee.

Coun Caldwell—You would have to make several trips from St. John, and the travelling expenses would add considerably to the \$500.

Mr. Mott—I think eight trips would be sufficient, but I will do the work for the \$500, and pay my own expenses.

Mr. Mott was invited to attend a meeting of the building committee, after the adjournment of Council. A communication was read from G. Ernest Fairweather, another architect of St. John. He referred to work done at Chatham and Fredericton and to Manchester Robertson & Allison and others as to his ability for the work.
Coun Lamont moved that no expenses be incurred until the necessary legislation be obtained for the purpose. Those against the motion may have enough influence with the Governor-in-council to prevent an order-in-council.
Coun Saunders said that if Coun Lamont would amend his motion that the committee endeavor to get an order-in-council approving the site and go to no expense till this was granted, he would second it.
Coun Lamont agreed to this and it was carried.
Council then adjourned.

Addressing a bible class last Tuesday evening John D. Rockefeller made the statement that during the last thirty years he had paid out between \$600,000,000 and \$700,000,000 for labor; in other words, he had paid that amount for what his employees had to sell, for labor is a commodity as much as oil or coal. Mr. Rockefeller added, that giving steady employment to men who had work to sell was one of man's most priceless privileges. The man with steady employment at satisfactory wages is like a sailor in a safe harbor, he has nothing to fear, but the approach of illness and old age, which are inevitable, and against which he makes it his business to provide. Market changes, the rise and fall of stocks, and other casualties affect him not, while over such things his employer, even if he is a Rockefeller, spends many a sleepless night and day of worry. It is true that the man with an adequate and steady return for his labor ought to be the happiest man in the world.

S. S. Usher, 2350 tons, owned in Yarmouth, is here loading hay and provisions for South Africa.

George Robertson, who has been in England about a year in the interest of the dry dock, says he is confident it will materialize in the near future.

The census of the city is completed.

The remains of the late Judge King were interred at Fernhill last Friday.

The young ladies of the city wear corsage bouquets of dandelions.

A young lady bicyclist ran down a young man last Thursday evening, who was ungallant enough to smash her bicycle in revenge.

Four deaths, 3 marriages, and 14 births occurred in the city last week.

Since last week prices in the grocery market are generally unchanged. George S. de Forest & Sons note a few fluctuations as below:

EDWARD EDWARDS.

The Di Vernon Waist.

The dressmaking article in the June number of THE Delineator is devoted to describing the features and construction of the style of waist called Di Vernon. The construction of this waist gives greater freedom to the arm and across the chest, and is adapted to bring out in full measure the straight front style of carrying now so popular and fashionable. It shows a tendency to dress that indicates a gradual conforming to the instructions of the best teachers of physical culture.

Enteric fever is calculated to have killed ten Britishers in South Africa for each one who has fallen a victim to Boer bullets.

Mr. Frank Rideout is still shipping hay from this place and with other shippers, finds much difficulty in getting cars put in, or taken out of the siding. The trainmen, and agents in the adjacent stations find many reasons for neglecting this station. With an agent here, we would probably get fair play and it does seem a pity we do not have one.

J. A. Perley arrived here on the 10th accompanied by Mr. Cook, a Boston sport. He is going to hunt bears with C. Barker as guide and Linsey Vanderbeck as cook; he has a good guide and a good cook, now it remains to be seen if he proves a good hunter.
