Literature.

A PAIR OF BLUE EYES.

Howard put both arms around her, of Woodstock, in the County of held her close for an instant, and distress. Carleton, Farmer, deceased, and then released her. It was in broard daylight, on a crowded street cross- and went downstairs. He could nether millstone in the place where All druggists sell it, or by mail post ing; they were not related to each other, and he did not even know her name. It must be said in his defense that she was more to blame than he was; indeed, it would have been a great impoliteness, not to say unkindness, on his part, to have done of a boarding-house on the next account. otherwise. She was hurrying to catch the car from which he had just muddy; she slipped and would have fallen had he not caught her just in time. She blushed "celestial rosy red" and raised a pair of startled blue eyes to his face.

> "O, thank you," she stammered. Yet never was "thank you" said in a one of less gratitude.

> She was gone before he could speak, and caught the car, which was just on the point of leaving.

They came between him and his writing and danced on the pages of the Lancet, although, as he said to such nonsense. Had he been less to go. devoted, heart and soul, to his prohis patients might have found him absent-minded, for he failed to see two of his best friends on the street and at dinner that evening was so preoccupied that his mother worried lest he was working too hard.

Dr. Howard Carston was a rising almost nothing for society and heretofore the brightest eyes that ever shone would have interested him less than a cut finger.

Now, in a moment, all was changed. Chicago is a big city, yet Howard vowed to himself to find the owner of those blue eyes. Persistance was one of his strong points. He never entered a street car without scanning the face of every woman in it; he patronized department stores, which he had formerly avoided because of their crowds of women new ring, holding twin sapphires. shoppers; and he astonished his sister by taking her to the theater more times in a month than he had all the previous year. That young lady was also surprised and gratified by his snatching from his professional duties time to attend teas and receptions, and by his remarkable interest in social functions.

"Blue eyes" had worn gray. So, again and again, he pursued a gray suit and a felt hat a block, only to find, when the wearer turned, that her eyes were not the violets of which he dreamed.

Weeks passed and the memory of the eyes was fading into a regret. The sensible lectures which Howard had not failed to administer to himself began to take effect. In the first place, it was absurd to hope to find those blue eyes. Were not there several hundred thousand women in Chicago? Besides, "Blue eyes" might be miles away. If found she might belong to another man, or she might be anything but charm-

Howard told himself that he was a fool, and determined to forget the eyes. That was hard to do, but he gave up the quest.

Dr. Carston's telephone bell rang suddenly one night, in the small hours. He had just fallen asleep after a nineteen-hour day, but he could not ignore the ring. The

Weak, nervous women, sufferers bearing-down pains, and other womanly ailments, have found a perfect cure in Dr. Pierce's Favorite Prescrip-tion. It heals the womanly diseases which cause the pains and nervousness. It makes weak

women strong and sick women well.

"I deem it my duty to express my heartfelt gratitude for having been the means, under Providence, of restoring me to health," writes Mrs. B. H. Munn, of Springhill, Leon Co., Fla., "For nearly two years I suffered from female weakness so I could not stand on my feet any length of time; could scarcely walk at alf. Appetite was much impaired; I had bearingdown sensations; can't express how badly I did feel. Had tried several kinds of medicine which did me little or no good. At last decided to try Dr. Pierce's Favorite Prescription. I had not taken all of two bottles before I saw it was benefiting me, so I continued to take it until I had taken seven bottles, when I felt entirely cured. Did not feel a touch of my old complaint. It has been over a year since I took your medicine, and I can truthfully say that my health has been better for the last year than it had been for four years previously.

"You may publish this as a testimonial."

Constipated

Constipation, or inactivity of the bowels, is probably the cause of more distress and suffering than any other organic derangement. Once the bowels are constipated, the kidneys become clogged, the liver torpid, and the stomach and whole digestive system completely interfered with.

The head aches, there is dizziness, weakness and dimness of vision, pains in the back, sides and limbs, the accumulation of wind and gas on the stomach, pains and fullness in the re-gion of the stomach, and depression and despondency of spirits.

Constipation can never be cured by the use of salts and similar weakening and debilitating purgatives. Dr. Chase's Kidney-Liver Pills not only cause the natural action of the bowels, but so strengthen and invigorate them as to enable them to regularly perform their functions without the aid of medicines. One pill a dose, 25 cents a box, at all dealers.

Our Mistakes About Each Other.

Not one man in ten thousand sees those with whom he associates as they really are. If the prayer of Burns was granted and we could all see ourselves as others see us our self estimates would in all probability be much more erroneous than they are now. The truth is that we regard each other through a variety of lenses, no one of which is correct. Passion and prejudice, love and hate, benevolence and envy spectacle our eyes and utterly prevent us from observing accurately. Many whom we deem the porcelain of human clay are mere pot metal, and a still greater number of those we put down in our "black books" are no further off from Heaven, and perchance a little nearer, than the censors who condemn them. We habitually undervalue or overvalue each other; and in estimating character the shrewdest of us only now and then make true appraisal of the virtues and defects of even our closest intimates. If we all saw ourselves as the world sees us multitudes would despise themselves without sufficient cause, and not a few be puffed up with pride for which there would be no honest foundation.

It is not just or fair to look a character from a standpoint of one's own selection. A man's profile may be unprepossessing, and yet his full face agreeable. We once saw a young man, whose timidity was standing joke with his companions, leap into the Hudson and save a boy from drowning, while his tormentors stood panic-stricken on the bank. The merchant who gives curt answers in his counting-house may be a Like tight boots. Nothing removes tender husband and father and a corns with such certainty as Putkind helper of the desolate and nam's Painless Corn Extractor. Beoppressed. On the other hand, your ware of poisonous substitutes. Public men are seldom or never fairly judged-at least while living. However pure, they cannot escape calumny. However corrupt, they may do them justice; but they rarely get it while alive, either from friends or foes.

WONDERS OF SURGERY. Some Things that Modern Skill can do.

A month or two ago, a doctor was called to attend a boy whose ear had been completely bitten off by a vicious horse. The surgeon determined to try and replace the ear, as failure to do so could not result in a worse deformity.

The missing ear was duly found and handed to the doctor, who was then engaged in bathing the severed part in warm water. He had neither instruments nor dressings with him, and as the half-hour's delay to obtain them would have been fatal to success, he stitched the ear in its place again with a common needle and thread. This was followed by antiseptic treatment and in six weeks the ear completely healed, leaving no scars. Even had this been a failure, an earmade of a waxy compostion and an exact facsimile, of the other ear, could have been made and fixed.

In some cases it has been necessary to remove the tongue, but by raising the floor of the mouth and thus in some way filling the place of the enabled to speak almost perfectly.

The fitting of glass eyes is well known, and the complete destruction of the jawbone has no terrors for the modern surgeon. The crushed bone is removed and a piece of silver or aluminum, the exact shape of the loose jaw, fitted in its place. After this has become firmly fixed, teeth may be fitted to it. If a man's throat is defective, the operation tracheotomy-the insertion of silver tube in the windpipe with an orifice opening to the throat,-provides him with a new breathing ap-

Artificial legs and arms are now so perfect that with them a man can walk, skate and even cycle. There is a story also of a man, who, injuring his spine in a railway accident, was fitted with a steel casing for his backbone, and so enabled to walk and ride.

A good cup of tea brings more refreshment to the weary than a beefsteak. Union BLEND TEAS are always good, and at 25, 30, 35 and 40 cents a pound are the best values in the market.

A Mother's Responsibility.

Children of normal parents are born neither selfish nor unselfish. The ability for good or evil lies latent at first, but develops and extends, like blood-circulation, whereever channels are providep. With the first hour of motherhood begins a mother's responsibility. She has not to gain her influence; it is hers as soon as the child is hers. But she has to maintain, deserve and constantly increase it by making her own life, in every important particular, the model of what she would in Ontario Alone Through the Ravhave his life to be. Love compels love; truth compels truth; nobility compels nobility. Love your children and they will love you in spite of all your shortcomings; keep faith with them and they will keep faith with you; treat them courteously and they will be courteous; maintain high ideas and they will follow them; make them the centre of your life and they will make you the centre of their lives. This is not easy. If there be a vocation which makes greater demands upon heart, soul, intellect and physique than this common vocation of motherhood I do not know what it is. Earth's greatest rulers, legislators and philantropists have been they who have reared her generations from the cradle to maturity, and then sat back among the fireside shadows with folded hands, while their children praised them in the gates. It is certainly a grand calling. There is none other like it. But as the reward is great, so also is the danger great .- Cor.

PAINE'S Celery Compound

The Great Spring Medicine That Restores Ailing Females to Perfect Health.

MRS. ADAMSON SAYS:

'I Can Never Say Too Much Favor of Paine's Celery Compound.

One of the oldest and best edited monthly magazines published in America, in a recent leading article, declares that more than half the revenue of physicians is derived from the treatment of females, and that about one case in every hundred is correctly diagnosed, showing that cures are extremely rare.

The important knowledge gained by women of every age about Paine's Celery Compound and the special and peculiar benefits it bestows on females suffering from ailments peculiar to their sex, as well as from the common ills of life, have made Paine's Celery Compound the most popular and trusted home medicine of the day.

In spring time when woman's nervous strength is overtaxed by home work and duties and the constant demands of social functions, it is then that Paine's Celery Compound shows its invigorating and vitalizing effects, as the precious medicine is used from day to day. It quickly banishes nervousness, prostration, akness, debility, languor, despondency and the many nameless ills that come to women of all ages. Mrs. R. Adamson, head of Mill-

stream, Kings county, N. B., says:-"I feel it a duty to briefly testify regarding the value of Paine's Celery Compound. Since childhood I suffered from sick headaches, neuralgia and constipation. Had attacks once a week which kept me confined to bed. Have been treated by a number of physicians without beneficial results. I procured six bottles of Paine's Celery Compound which was strongly recommended to me and, after a short time, I found that new life and health coming that I so long wished for. Two years have passed and I have not had a return of my old troubles. I can never say too much in favor of Paine's Celery Compound."
