ON FIRE.

An exploding lamp; the clothing in a blaze; a paragraph in the paper telling from burns. Trager, in this form moves a man to

tears. But for women who are daily being con-sumed by the of disease there is

little sympathy. with its fierce burning; ulceration, eating into the tissues; the nervous system almost shortered by suffering these are only part of the daily agonics borne by many

Dr. Pierce's Favorite Prescription puts out the fire of inflammation, heals ulceration, and cures female weakness. It tran-

quilizes the nerves, restores the appetite and gives refreshing sleep. "Favorite Prescription" is the most reliable put-up medicine offered as a cure for diseases peculiar to women. It always helps. It almost always cures.

"When I first commenced using Dr. Pierce's medicines," writes Mrs. George A. Strong, of Gansevoort, Saratoga Co., N. Y., "I was suffering from female weakness, a disagreeable drain, bearing-down paths, weak and tired feeling all the time. I dragged around in that way for two years, and I began taking your medicine. After taking first bottle I began to feel better. I took four bottles of Dr. Pierce's Favorite Prescription, two of 'Golden Medical Discovery,' one visit of the 'Pleasant Pellets,' also used one bottle of Dr. Sage's Catarrh Remedy. Now I feel like a new person. I can't thank you enough for your kind advice and the good your medicine has done me."

Dr. Pierce's Common Sense Medical Adviser, paper bound, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching burning sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

The averages are taken on 41s. 7d. per ton and £50,344 a claim. Further, estimating 14s. 1d. a ton as profit, the total profit to be secured is estimated at £973,000,000. It is claimed that the estimates are based on conservative data. A chapter on coal throws much light on a subject that the outside public is but little informed upon. In 1898 the amount raised in the Transvaal is stated as 5,908,000 tons, some threefifths by the collieries of the eastern end of the Randt, the balance almost entirely by the Heidelberg and Middelburg districts. The author mentions a calculation pointing to 60,-000,000 tons of "good" coal, after eliminating "inferior" coal from a colossal grand total. The subjects of land, agriculture, commerce, immigration, railways, resources, assets, present and future administration, &c., are dealt with, and a great amount of official data and non-official consideration and opinion set

Sussex, N. B., June 20-At a meeting of the general committee of the Sussex exhibition to-night, a long discussion took place in regard to Fredericton's action in taking the dates claimed by the Sussex people. Miss Pepprey-I should say so. There is a strong feeling among the people of this place that they are not being fairly used in the matter, as the dates claimed by Sussex, viz., September 30th to October 4th, have been used for the past five years, They don't stop to think that vitality is and have this year been advertised

In the face of this Fredericton has stepped in and taken the dates, and, loss of appetite, strength and endurance, and although remonstrated with, have refused to reconsider their decision. It was the feeling of the meeting that in view of Sussex's undisputed claims on the dates, and from the fact that the people of this place have invested \$6,000 of their money RICHARDS' HEADACHE CURE to make their exhibition a yearly success, and all this with very little

London's Progress.

It is curious to look back and recall the fact that it was not until 1823 that cabs began to ply for hire in the London streets, says a correspondent. Prior to that time the great thoroughfares were obstructed in all parts of town by toll gates. Six years later omnibuses began to run. In 1838 the first railway train from London to Birmingham steamed out of Euston station. Four years later the Thames tunnel was completed. The old houses of parliament were burned down in 1834, and the present magnificent pile was not completed until 1857. The notorious Fleet prison was standing until 1845. Only in 1862 parliament passed an act for the formation of the Thames Embankment.
