

KEEP Your Temper

AND WEAR OUR GUARANTEED

COLLAR BUTTONS.

THEY ARE GUARANTEED UNCONDITIONALLY.

ONE PIECE METAL. NEVER BREAKS. HEAD RIGHT SHAPE. EASIEST TO UNBUTTON. POST RIGHT LENGTH. EASIEST TO BUTTON. STAYS BUTTONED. NO LEVER TO TWIST OR BOTHER.

If one gets stepped on, or if a train should run over one and crush it slightly, or considerably, its all the same to us, we give you new one in exchange.

JEWETT,
THE JEWELER,
Jewett's Corner, Woodstock.

Fashion and Comfort.

For once fashion and common sense have joined in the cause of comfort in ladies' footwear. The really fashionable shoe is built much like a man's shoe on a womanly scale.

This fashion has the advantage of a fine appearance, combined with common-sense comfort, and will therefore be a permanent one.

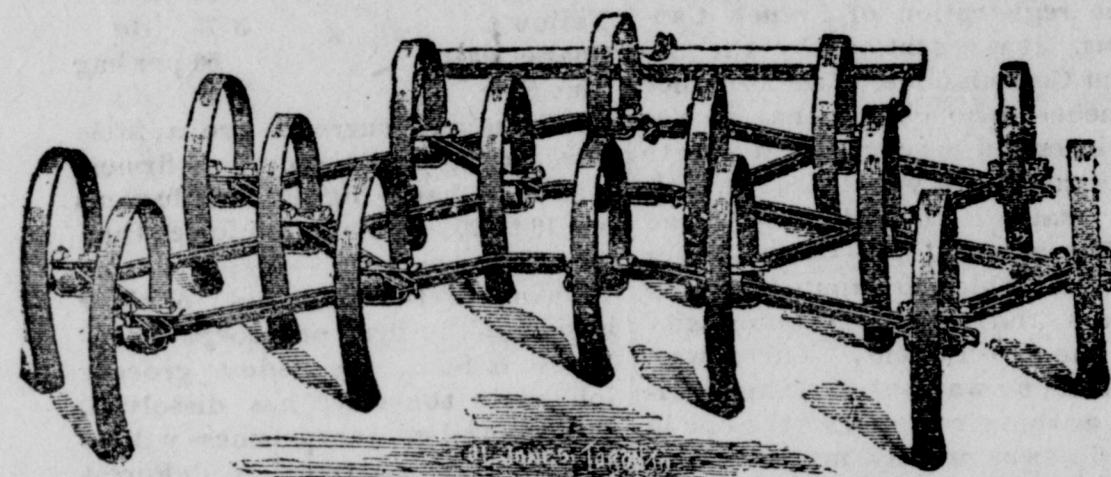

Won the gold medal at Paris Exposition.

\$3 and \$4. Sold everywhere. Genuine only when stamped—

"KING QUALITY."

Made by The J. D. King Co., Limited, Toronto.

Bailey Bros., Local Agents.

WOODSTOCK, N. B.

Paint for Everybody

And for everything under the sun. Every home has need of paint. Each kind of

THE SHERWIN-WILLIAMS PAINTS

is specially suited to some home use—either outside or inside.

It's knowing the right kind of paint, and putting it on the right place that makes painting a success. Tell us what you want to paint, and we'll tell you the right kind to use.

It is true that **Sherwin-Williams Paints** cost more. They are the most economical Paints you can use, because they cover more and wear the longest. Add to this their good appearance and you have perfect paints.

For Sale by **W. F. DIBBLEE & SON, at Woodstock,**
And at their Branch Store at Centreville.

TO GENERAL STORE KEEPERS:

We not only claim to be HEADQUARTERS for

TEA,

But if you give us a chance to demonstrate this fact, that's all we ask—we'll prove it. Send us an order for a sample case of Tea—any grade or kind you want, and we'll give you better value than you have been getting. Try us and see.

GEO. S. deFOREST & SONS, = = **T. JOHN, N. B.**
DIRECT IMPORTERS AND TEA BLENDERS.

W. C. T. U. Corner.

The meeting of the W. C. T. U. is held in GRAHAM'S HALL, each THURSDAY afternoon, at three o'clock. All ladies are cordially invited to attend.

OUR MOTTO.

If God be for us, who can be against us.

OUR PERSUASION.

That temperance is the moderate use of all things helpful, and total abstinence from all things harmful.

OUR FAITH.

That as God lives, right the day shall win.

The Twelfth, an Amethyst.

Rev. Henry Walker, in a late number of "The White Ribbon," official organ of the B. W. T. A., suggests the adoption of the amethyst by all temperance organizations, societies, lodges, tents, etc., as a symbol of temperance reform in view of the fact that the significance of the stone is universally apparent in both name and scriptural meaning.

In support of this plea for recognition by the temperance public, Mr. Walker quotes Canon Wilberforce, the scholarly temperance advocate, who has emphatically dwelt upon the peculiar fitness of this stone for the purpose, calling attention to the figurative language in Revelation XXI, 19, 20, where the twelve precious stones are spoken of as garnishing the twelve foundations of the New Jerusalem.

"I hereby submit," said the Canon, "that I am in no sense oversteering an analogy, nor grasping at a fanciful interpretation, but literally accepting the teaching of the Word of God by concentrating your attention upon one of these precious stones, the twelfth and the last of the foundations of the heavenly City, and inquiring into its nature, and teaching. It says: 'The twelfth an amethyst.' An amethyst—and why an amethyst? Put aside for the moment the unbroken chain of legend which has clustered round the amethyst, and which corroborates the application I would make: treat it from the matter-of-fact, scholarly point of view; put imagination on one side, and translate the word amethyst literally—it can bear but one interpretation, a combination of two familiar Greek words: 'a,' not, and 'methustos,' a user of strong drink. . . . What a marvellous prophecy there is here! Uttered 2200 years before the pernicious art of distillation was invented, it points distinctly to the peculiar and special peril of these latter days, and its remedy.

"Who will then become an amethyst for God? If you are weak you will be wise to become one for your own sake; if you are strong you will be still wiser to become one for the sake of the weak."

And Mr. Walker adds: "Who will wear an amethyst for God until these beautiful stones shall become so noticeably numerous that people will ask, 'What mean you by all these amethysts?' And every wearer of one thus becomes a preacher, and a prophet of the good time certainly to come when 'Not a user of strong drink' shall correctly describe the renovated citizenship of the whole earth."

Among the practical reasons for the use of the amethyst as a universal symbol of total abstinence are, Mr. Walker continues:

"Its language can be truthfully understood by all nations. It cannot be false. Being a beautiful, simple personal adornment, it can for its sake create in its owner a liking for itself. Having an intrinsic value it can insure for itself careful preservation, and thus be likely to also secure for both itself and its symbolism the more enduring use, extending down from generation to generation. Being universally unobjectionable, it can secure the wider adoption. For example, a commercial traveller who might feel that he could not wear a piece of blue or white ribbon on his coat, could wear an amethyst pendant on his watchguard; and so with others exceptionally situated. It is suitable for all occasions and functions. It fits to honor and adorn a crown. It can be added to other badges. And its inexpensive imitations which would answer the same end, would come within the reach of everyone."

In these days, when the wearing of badges is an effective aid to reform movements, Mr. Walker's suggestion is worthy of consideration by total abstainers, whether they belong to a temperance organization or not. And so we pass it on to our readers.

Remember the Provocation.

Mrs. William C. Sibley of Augusta, Ga., one of the most cultured women of the South, has written nearly three columns in the Augusta "Herald" concerning "Mrs. Nation as a Heroine."

The following is an extract: "When we remember all that lies back of that retributive hatchet of Mrs. Nation's—the hundreds upon thousands of drunkards, the multitudes upon multitudes of crimes, the hundreds of thousands upon thousands of wrecked homes, ruined lives, lost souls, starving children, heart agonies, oceans of tears, the despairing, yet unheeded, cries of suffering womanhood to the men of this country, for help and deliverance from the awful liquor curse, the wonder ceases at the desperate methods to which women have resorted for the rescue of home and loved ones; and the wonder is that they have held back for so long."

"Go, feel what they have felt, Go, weep, as they have wept, Go, kneel, as they have knelt, Go, stand, where they have stood, Go, hear, what they have heard, Go, hear, and see, and feel, and know."

All that their souls have felt and known; Then tell them that they hate saloons! Hate is a feeble word."

Whatever you try to do in life, try with all your heart to do well; whatever you devote yourself to, devote yourself to completely; in great aims and small be thoroughly in earnest.—Dickens.

Agricultural.

A COMMON MISTAKE.

High Flavor at the Expense of Keeping Quality.

The following paper was read by M. Sondergaard at the Minnesota butter and cheese makers' meeting: All butter, even the very finest, is more or less apt to lose its delicate flavor and by this some of its value, for every day it gets older. The keeping quality of butter is therefore a very important matter to dealers as well as consumers. It is a fact that butter with a high flavor has for a good many years been the leader in the American butter market. Close study, however, proves that the demand has been moving constantly in the direction of a milder, sweeter and more delicate flavored article. Whether or not this movement of the demand is due or not to the fact that butter with a comparatively mild flavor proves to be a better keeper, one thing is sure, that a number of creameries and dealers also have already established a reputation by this grade of butter. It is very evident, providing the milk is right and all other processes are correctly carried out, that flavor in butter depends largely on the degree of acidity of the cream when churned. Yet the species or kinds of bacteria, the mission of which is to carry out the fermentative changes, are surely factors of no less importance in obtaining a high or mild flavor. The science of producing a certain desired flavor is first to develop the desired bacteria for a starter and then to protect them against all the undesirable ones by attending strictly to cleanliness and regulating the temperature. Whether it is certain bacteria or a chemical process that gives butter made from ripened cream its delicate aroma, one thing is known, that as soon as the desired bacteria have produced a certain quality of lactic acid the limit of their action has been reached. They do not die, but simply discontinue their action. This is the danger point in the ripening process. From now on there is nothing to keep the undesirable bacteria in check, and as some of these foreign organisms develop very rapidly it requires but little to affect the butter by giving it a strong or unclean flavor.

This illustrates clearly why it is so dangerous to ripen cream above its proper degree in order to gain a high flavor. It also gives us an idea of why butter with an abnormally high flavor in most cases turns rancid in a few days. The undesirable bacteria having just commenced their action in the cream, continue their work of destruction in the butter. We learn not only from experience gained in our dairy schools and a few creameries but also from what has become customary in other countries, that by taking up the Pasteur system we would be able to produce a much healthier, more uniform and especially a better keeping quality of butter. What holds us back is not a lack of knowledge of the result, nor is it because our creamery industry or our butter makers are not up to the high level of other countries; but merely because the present demands of the American butter market do not favor the mild flavored butter made from pasteurized cream. When the Danes, some ten years ago, decided to pasteurize, they then met with the very same trouble in the English market. However, before a year had passed, the English people were willing to pay a premium on pasteurized butter, on account of its better keeping quality and more uniform grade all through.

Shall We Keep on Skimming?

Go where one will among farmers milking from 5 to 30 cows, and if a separator is not already on the farm the whole family can frequently be found discussing the great question of whether it will pay to have one or not. Of course all the agents and other interested parties will tell you that it will pay and pay big to have one, and a good many who never saw a separator will, but what we would like to get at is: How do those who using separators feel about it? And we should esteem it a great favor if those who have had experience with those costly machines would let us know just what they think about them and how small a number of cows, in their judgment they would advise buying one for. A writer in an exchange has figured the matter out in a very practical manner, and we copy the same as follows: "With ten good cows nobody who makes milk into butter can afford to do without a separator, for it will save 250 pounds of butter in a year, said an expert dairyman of the western states, not long ago. The cost of the separator will be \$125. The interest on that at 6 per cent would be \$7.50. His machine cost \$3 for repairs in five years.—Prairie Farmer."

She Was Pale and Languid

Mrs. E. McLaughlin, 95 Parliament street, Toronto, writes: "My daughter was pale, weak, languid and very nervous, her appetite was poor and changeable; she could scarcely drag herself about the house, and her nerves were completely unstrung; she could not sleep for more than half an hour at a time without starting up and crying out in excitement."

"As she was growing weaker and weaker I became alarmed, and got a box of Dr. Chase's Nerve Food. I used this treatment for some weeks, and from the first we noticed a decided improvement. Her appetite became better, she gained in weight, the color returned to her face, and she gradually became strong and well. I cannot say too much in favor of this wonderful treatment since it has proven such a blessing to my daughter."

Dr. Chase's Nerve Food is the most effective treatment for the ailments and weakness of women that is obtainable. 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Dr. Chase's Nerve Food.

Scott's Emulsion

of Cod Liver Oil is the means of life, and enjoyment of life to thousands: men women and children.

When appetite fails, it restores it. When food is a burden, it lifts the burden.

When you lose flesh, it brings the plumpness of health.

When work is hard and duty is heavy, it makes life bright.

It is the thin edge of the wedge; the thick end is food. But what is the use of food, when you hate it, and can't digest it?

Scott's Emulsion of Cod Liver Oil is the food that makes you forget your stomach.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists, 50c. and \$1.00; all druggists.

General News Items.

Canada imported last year agricultural implements to the value of \$1,823,795.

Linard's Liniment for sale everywhere.

From present indications America will soon be outdoing France in the consumption of frog flesh. The city of New York alone consumes 600,000 "hams" of frogs during the year.

Salt rheum, or eczema, with its itching and burning, is cured by Hood's Sarsaparilla. So are all other blood diseases.

British census returns show steady depopulation of the country districts and overcrowding of the cities, because of the agricultural depression.

WANTED—TRUSTWORTHY MEN AND women to travel and advertise for old established house of solid financial standing. Salary \$250 a year and expenses, all payable in cash. No canvassing required. Give references and enclose self-addressed stamped envelope. Address Manager, 355 Caxton Bldg., Chicago.

Many Canadians are not aware that their country possesses the oldest mountain in the world, namely the Laurentian Range.

The Dr. Ed Morin's Anti-Coryza is unequalled, acting wonderfully well in the most severe cases of cold in the head and catarrh.

The largest census district in the Dominion is New Westminster, with an area of 204,050 square miles. In Ontario the largest census area is Algoma, with 143,517 square miles; and Chicoutimi and Saguenay, with 15,841 square miles, is the largest in the Province of Quebec.

To Cure a Cold in One Day Take Laxative Broom Quinine Tablets. All druggists refund the money if it fails to cure. 25c. E. W. Grove's signature is on each box.

A girl of 14 years, at Solomon, Kan., disappointed because her parents would not let her marry a man of 45, drank a vial of carbolic acid, ate an assortment of morphine tablets, and then washed the repast down with whiskey. And yet her life was saved.

Bright's Disease of the Kidneys. Mr. Andrew Duffin, Antwerp, Ont., writes:—"I was troubled with Bright's disease of the kidneys for five years. I tried a number of doctors and preparations, but got no relief. My son advised the use of Dr. Chase's Kidney-Liver Pills. I got a box, and to my surprise, I got relief at once, and am now thoroughly cured." One pill a dose 25 cents a box.

It is estimated that the cost of Royalty to each citizen in Great Britain is only three pence per annum.

A Warning.

To feel tired after exertion is one thing; to feel tired before is another. Don't say the latter is laziness—it isn't; but it's a sign that the system lacks vitality, is running down, and needs the tonic effect of Hood's Sarsaparilla.

It's a warning, too—and sufferers should begin taking Hood's at once. Buy a bottle today.

The United Kingdom produces 75 million bushels of wheat, 78 millions of barley, and 150 millions of oats in a year.

Free to Inventors.

The experience of C. A. Snow & Co., in obtaining more than 20,000 patents for inventors has enabled them to helpfully answer many questions relating to the protection of intellectual property. This study done in a pamphlet treating briefly of United States and foreign patents, with cost of same, and how to procure them; trade marks, designs, caveats, infringements, decisions in leading patent cases, etc., etc. This pamphlet will be sent free to anyone writing to C. A. Snow & Co., Washington, D. C.

Of three wires of the same thickness one made of gold will sustain 150 pounds, one of copper 302 pounds one of iron 549 pounds.

Gas on the Stomach, result of imperfect digestion pressing up against the heart, it excites alarming symptoms. Instant relief is afforded by taking half an hour after the meal, ten drops of Polson's Nerve-Liver Pills. Nerve-Liver Pills, expels the gas and imparts a sense of comfort. Nerve-Liver Pills is good for lots of other things, and wise people keep a 25c. bottle in the house for rheumatism, cramps, neuralgia, toothache &c. Try it.

As a curiosity of the recent German census it is recorded that the returns showed the village of Reutenbourg contained 444 inhabitants, 222 being of the masculine and 222 of the feminine gender.

Linard's Liniment Relieves Neuralgia.
