Towne—He's in hard luck. He had pretty good backing for an army commission, but his name queered him. He had to sign his application 'A. Coward.'

Browne—Why did he have to sign that way?

Towne—Because that's his name. Browne—But wouldn't it have been better to write his first name in full?

Towne—Hardly. His first name's Adam.

'How you must enjoy being a philanthropist!' said the sprightly young woman.

'I don't quite understand you,' replied the man of earnest manners.

'It must be such a pleasure to feel that you have plenty of money and can always be doing good.'

'Yes; but the only difficulty is that one can't always be sure whether he is doing good or being done good.'

'Jennie,' said little Mable to her big sister at breakfast, 'did you tell papa?'

'Tell papa what?' asked Jennie.

'Why, you told Mr. Buster last night if he did it again you'd tell papa, and he did it again. I saw him.'

And then papa looked at Jennie over his glasses.

A boy learned as a golden text in Sunday school recently the words, 'Go to the ant, thou sluggard.'

Upon reaching home his father asked him what the text was. The parent was surprised to know that the text was, 'Go to your aunt and get sluggish.'

'No, indeed,' said Miss Miami Brown, 'I wouldn't go to no theater.'

The Deaf Made to Hear.

St. Thomas, May 10th 1901. A modern miracle was made known to-day when Mr. Riddle, of this city, announced that he had recovered his hearing.

He had been almost entirely deaf, and it borders on the miraculous to find him able to hear everything with great distinctness. As his case is proving of such universal interest, we give Mr. Riddle's own statement.

'My hearing was always poor, and not long ago I became almost deaf. It was the result of Catarrhal Inflammation, but nothing did me good until I used Catarrhazone. It cured my trouble, and I strongly recommend it to the deaf.'

Fully nine tenths of the deafness is the result of Catarrh, and can be cured by Catarrhazone. The cures of deafness wrought by this remedy in cases of even twenty years standing are really astounding. Among many others, ministers of the gospel testify to the wonderful power of Catarrhazone, and your druggist can tell of some astonishing cures in his own experience. Better give it a trial, if your hearing is impaired. Price \$1.00; small size 25 cents, druggists or N. C. Polson & Co., Hartford, Conn., U. S.

Keep the Balance Up.

It has been truly said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness, or debility. The system needs a tonic, craves it, and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla.

What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength and endurance.

Silver Wedding.

Butte Miner, March 31.—A very pretty and pleasing social event was the celebration Thursday night of the silver wedding of Mr. and Mrs. T. Clowes Miles at their country home beyond Silver Bow canyon.

Early in the evening parties arrived for miles around in carriages, enjoying the drive of a beautiful moonlight evening in the dusk and bracing air. The Miles homestead was ablaze with roaring log fires in the big old-fashioned fire places. The parlor was fragrant with the odor of gorgeous American Beauty roses, where the Framers and asparagus blossoms lent their fragrance to the back parlor. The library was bedecked in a profusion of red carnations. The walls of this room have a magnificent collection of heads of elk, cariboo, mountain goats and sheep and moose, while over the fire place majestically spread the wings of a grand bald eagle with the stars and stripes still overhead. The dining room table was artistically trimmed with daffodils, azaleas and asparagus. The feast was sumptuous and many happy toasts and responses were made. Some of the guests were witnesses to the marriage of Mr. and Mrs. Miles 25 years ago. Among those present were old-time residents of Butte, Deer Lodge, Anaconda and all parts of Deer Lodge valley. Dancing was greatly enjoyed and everybody declared the occasion one of great pleasure. Mr. and Mrs. Miles were the recipients of many pretty presents.

Imagination In Curing Disease.

The value of a lively imagination as a curative agent in disease is now well understood by doctors, and is frequently used as an aid in effecting a cure. Pure water, for instance, is used by certain physicians in the City Hospital at Cincinnati, where there is a young woman who believes she cannot sleep without receiving a hypodermic injection of morphine. She gets the injection regularly, but water is substituted for the morphine. The deception works like a charm and the patient is recovering.

Now and then a case presents an amusing phase. One woman possessed of the idea that her heart was growing to her side, refused to improve under the treatment accorded her, and the doctors, knowing her condition was due to hysteria, planned to get rid of her. Medicine was prescribed made up of the most nauseating drugs, and the patient was ordered to take doses hourly. After the first day's treatment the woman said she was well enough to go home and the doctors congratulated themselves that the expelling decoction had proved so successful. To their surprise, when the woman left the hospital she asked that a bottle of the medicine be given her, as it had furnished her relief than anything she had taken. Although the doctors say that it is women who respond most readily to this form of treatment, there is now and then a man who permits himself to be deceived to his own advantage. An elderly man, for instance, suffered greatly from imaginary paralysis. Therefore the ordinary treatments, whether by drugs or the electric current, had no effect upon him. The doctors consulted, and one day, by pre-arranged plan, the patient was informed by a person supposed to be uninterested in his case, that magnetism, not electricity, was what he needed, and since then he has shown marked improvement under the constant application of a wooden magnet painted to resemble the genuine article.
