## THE CARE OF THE TEETH.

BY E. S. KIRKPATRICK.

No. 1.

The question is often asked, "What will be the condition of the teeth of the coming generation, if they continue to deteriorate as they have during the present?" It requires no knowledge whatever of Dentistry, for any one to recognize the fact that these very important organs are on the whole each year becoming poorer, and unless something is done to create a change for the better, the result must be disastrous.

The profession of Dentistry is practically a new one, and it is safe to say that no profession has made such a rapid advance. From a very crude beginning the study has broadened, until now it comprises not only some of the subjects that are required in general medicine, but many others as well.

But, however, this may be, the fact remains, that the general condition of the teeth is not improving; now wherein does the fault lie? It lies principally in the fact that the public, as a whole, are ignorant of how to take care of them, and do not realise the importance of their preservation.

A perfectly formed tooth is one of the most complex, and beautiful structures of the Divine creation, and the needless sacrifice of such is a sin not only against our Creator, but against ourselves. I go further and say that to remedy a diseased condition of the teeth by extracting them, is no more justifiable than for a surgeon to amputate a diseased limb excepting as a final resort, and a set of artificial teeth bear about the same relation to a natural set that a wooden limb does to a natural one, and the value of their services is about equal as compared with the original.

There is no doubt, whatever, but that out of all the teeth that are daily extracted, ninety nine per cent. of them could have been saved for many years, and many of them would be saved if people only realized the importance of doing so.

Many different ways have been suggested as to the best means of teaching the public the things they should know, that are of vital importance to the teeth, and in all Dental Conventions of the present day this subject is much discussed. The school is the place in which this should be done, and a general knowledge of the teeth should be a part of the education of every child. It is only necessary to look into the mouths of school children and see the pitiful condition in which many of them are, to realize that this is a serious question. We have become so accustomed to these sights, that parents think it is a natural condition, and that they have done their duty by their children, when they send them to a Dentist and have the aching teeth extracted.

It is with the hope that a few people will value more highly the teeth that nature has given them, and learn to depend less on those that a Dentist may substitute, and that more what the Dentistry of to-day really means, that these articles have been prepared.

## HYMENEAL.

MATTATALL-MACMULLEN.

A Lynn paper has the following account of the marriage of a young lady, a former resident of this town, to whom the *SENTINEL*, joining her many friends, wishes future happiness:—

A wedding took place at the home of Mr. and Mrs. John W. Mattatall, 38 Whittier street, Thanksgiving evening, when their son was united in marriage to Miss Carrie Louisa MacMullen. The service was performed by Rev. J. Hood, of Cambridge, and the party marched into the parlor to the music of the Bridal Chorus from Lohegrin, played by Miss Effie Thompson. The bridesmaid was Miss Nellie MacMullen, sister of the bride, and the groom was attended by his brother, James R. Mattatall. The bride was becomingly attired in blue satin foulard, trimmed with cream lace on chiffon, and carried a shower bouquet of bride roses. The bridesmaid wore gray silk muslin trimmed with black lace, and carried pinks. The ushers were James McNeill and Alexander Tulock. Friends were present from Mansfield, Boston and Biddeford. The house was prettily decorated with ferns, palms and potted plants. About 100 guests were present. Refreshments were served. The happy couple left on their tour amid a shower of rice. On their return they will reside at 38 Whittier street. There were many substantial presents.

## OBITUARY.

ROBERT W. TOMPKINS.

Robt W. Tompkins, of River Bank, Carleton county, who has been in failing health for over a year, on account of Sarcomas, died at his home on Monday, Dec. 1. The deceased was born at East Florenceville, 64 years ago. In 1837 he married Elizabeth Phillips, who with three daughters greatly mourn the loss of a kind husband and loving father. The two eldest daughters, who were in Boston, being informed of their father's condition, came home about a week before his death. Although it was evident that death must come soon, its coming was a severe blow to the wife and daughters. The departed also leaves behind three brothers, Delancy and Broadstreet of River Bank, and Albert of Presque Isle, and three sisters, Mrs. Sydney Tompkins of Presque Isle, Mrs. Jos. Foster of Landsdown, and Mrs. B. K. F. Rideout of Robinson, Me. Mr. Tompkins was baptized by Rev. J. W. S. Young, and was one of the charter members of the East Florenceville Baptist church. He was shortly afterwards chosen deacon, which church office he most worthily filled until failing health made it impossible. The remains were interred at the Baptist cemetery at East Florenceville, being conducted hence by Col. A. D. Hartley of East Florenceville. The religious ceremony was performed by Pastor Smith, who spoke on "Glory, the heritage of the saints," I. Peter 5: 10. The esteem with which the deceased was held by his acquaintances was manifested by a large number attending the funeral to pay their last tribute of respect to him.

## LIBERAL VICTORIES.

Still There's More to Follow.

Yarmouth, N. S., Dec. 3.—Bowman B. Law, Liberal, was to-day elected to represent Yarmouth county in the Dominion house, defeating Thomas E. Corning, Conservative, by 515. The Liberals had a majority in every section of the county.

Montreal, Dec. 3.—Wm. Christie, Liberal, carried Argenteuil, to-day, by a great majority.

Hon. Mr. Prefontaine will not be elected till Dec. 9th.

Ottawa, Dec. 3.—The result of the election in Argenteuil to-day was received here with great satisfaction by the Liberals. Mr. Perley, the Conservative candidate, was determined to carry the constituency and used every means at his disposal to do so. This riding was overrun with parties from all over the country, and it is estimated that Mr. Perley, who is extremely wealthy, spent some \$40,000 or \$50,000 in his determination to get into parliament.

Lunenburg, N. S., Dec. 3.—J. D. Sperry, Liberal, was to-day elected by acclamation for the local house.
