THE REFERENDUM

VOTE TO BE TAKEN MARCH 27.

Winnipeg, Feb. 22.—Hon. Colin H Campbell this afternoon introduced into the Legislature the bill referring the Liquor Prohibition Act to a referendum vote of the people. It is now several weeks since the Premier first announced that this step was to taken and speculation has been rife ever since as to the terms on ably hurt and quite shaken up. which the referendum was to be made. Possibly it was for this reason that the Attorney-General took the opportunity to deliver a long explanatory speech on first reading.

One of the difficulties the Government had to overcome in framing the bill was the absence of proper ists on which to vote. The only llsts in existence are the municipal lists, which included a moiety of qualified electors of the province, and it was deemed to be obviously unfair to allow such important questions to be decided by a mere section of the people. Consequently it has been decided to allow every person whose rame appears on the municigins another of its important features | pal lists to vote, and also all British for the current year-the reminis- subjects over 21 years of age, who cences of Daniel C. No reference is made in the bill to compensation, and taking into account the difficulty that would be experienced in raising the money, were it decided to give such compensation, it is not believed that any such provision will be made after the vote has been taken. It appears, indeed, to be a case of pure prohibition without compensation or no prohibition at all.

The bill consists of 25 clauses and two schedules, but, apart from the provisions outlined above, there is little or nothing which affects the issue, the majority of clauses being merely formal in their nature, and providing for machinery and so forth. The liquor men are stated authoratively to have accumulated a large campaign fund with which to fight the referendum.
