VOL. 54.—No. 46.

WOODSTOCK, N. B., FRIDAY, NOVEMBER 14, 1902.

WHOLE No. 2962.

## TOWN COUNCIL.

All the councillors were present, on Friday evening last, when Mayor Belyea called the meeting to order. Coun. Lindsay, chairman of streets, reported on the encroachments on junction of Main and Grover streets, and gave the number of feet each individual was encroaching, according to the last survey made. He found the lumber pile of Albert Hayden projected over Grover street, but not enough to interfere with traffic on the street. A similar report as now presented was before the board under Mayor Diblee, some years ago, and the parties encroaching were ordered to remove the encroachments within 10 days, but few of the parties obeyed the order. Coun. R. B. Jones said he understood that, during the week, private parties had bought the plot of ground under discussion and intended presenting it to the town. On motion Coun. R. B. Jones, seconded Coun. Burt, the report was received and placed on file. Coun. Balmain said the street committee had defined the lines set out in the report and should be commended for its diligence. He was much pleased at the present position of the lumber pile grievance, for matters were now in such a state that they would give general satisfaction. Now that the street lines were defined there were three courses for the board to pursue: to sidetrack the whole matter, or go ahead and remove the lumber pile and fight it out in the courts, or the board could assist in the purchase of the property. Private parties living in the neighborhood had interviewed Mr. Hayden and arranged for the purchase of the property, and will give a deed of the same to the town in a few days, provided the town will grade the lot, guarantee that no building's will be erected on the same, and that no rubbish will be dumped thereon. Where formerly it meant friction between the town and Mr. Hayden, this arrangement will close the matter once and forever. Coun. Lindsay said the remarks of Coun. Balmain were satisfactory to the board and he was glad the matter was settled. The board would be only too happy to accept the deed from Mr. Hayden. Mayor Belyea personally was glad that the matter was settled as would be the people of the town as a whole. On motion Coun. Balmain, seconded Coun. Lindsay, the deed when presented will be accepted by the board. Coun. B. B. Jones said W. B. DeLong had taken up his residence in town, wished to engage in the grocery business and applied for a license. On motion Coun. R. B. Jones, seconded Coun. Burt, Mr. DeLong was given a license for the balance of the fiscal year for \$13. His Worship said that the finance committee should use all, applying for license, alike and have some uniformity. He instanced the case of a man from St. John, who wished to do business here, but he was met with so high a license that it was really prohibitory. Coun. R. B. Jones said the two were not parallel cases. The young man said he had a small stock of fancy good, and he wished to get an auctioneer's licence. If that license was granted to him he would be in a position to bring here and sell a bankrupt stock. Mr. DeLong comes here and sells a small stock of groceries, and he was willing to pay \$13 for the balance of the year. There were nine grocery men now doing business in town who did not pay \$13 each for the whole year. Coun. Lindsay thought the sum was too low, and he voted nay to the motion. On motion the officers elected by Hose Co. No. 1, given by the SENTINEL last week, were approved. In reply to Coun. Diblee, Coun. R. B. Jones said a few of the fire insurance companies had paid their taxes; the others had not paid. The agents for the fire insurance companies should pay up, as they had no excuse for not doing so. He (Jones) had several conferences with the town solicitor about the life insurance companies, and it was almost impossible to collect the taxes they owed; it was not good policy to send good money after bad money and fight the cases in court. Coun. Diblee—The fire insurance companies put extra taxes on us for to pay their taxes; as for the life companies, if we have not now the right to collect taxes from them, the quicker we get a bill passed by the Legislature to enable us to do so, the better. Taxes are now hard on real estate. I am willing to have town funds used to make the life companies pay their just dues.

Mayor Belyea thought the board could get a bill passed by Legislature making life insurance agents, not residents, take out a license. Coun. R. B. Jones said they had all the legislation required. At next revision, have the assessors drop from the tax list, life insurance companies, and their licenses can be collected.

A petition was presented from the residents of Cedar street asking for an electric light; referred to Electric Light committee.

On motion Coun. Lindsay, seconded Coun. Burt, the water committee was instructed to get such information as possible looking to the lowering of expense for pumping the town water.

Coun. Lindsay said now that H. A. Connell's new water motor was a success, arrangements might be made with that gentleman to supply power for pumping the town water. The fuel now cost \$1300, and he (Lindsay) thought a saving of \$630 could be made by a contract with Mr. Connell.

Mayor Belyea had several talks with Mr. Connell on the subject. It was true the fuel now cost very much. It may not be in the province of the present board, but the information would be available for the new Council. If the town could save \$600 in that item, it was worth knowing. To adopt the motor power, new pumps would have to be procured for the pumping station.

Coun. Diblee now make a rough estimate of the receipts and expenses for the balance of the year and thought the board would meet the ratepayers, at the end of the year, with a big deficit, unless extraordinary efforts were made by the finance committee and marshal, or if necessary, as the marshal is not enjoying the best of health, a new collector. Only \$14,000 of a \$20,000 assessment had been collected and very little time was available to collect the \$6,000 now owing.

On motion the finance committee will take the matter into immediate consideration. Council then adjourned.

## Romantic Marriage of Miss Ross.

Philadelphia, Nov. 7.—An attachment was engendered by kindred efforts in the sickroom more than a year ago between Dr. Bayard Knerr, of Spruce street, and Miss Margaret S. Ross of Woodstock, New Brunswick, Canada (?) culminated on Wednesday night at Primrose, Delaware county, in their marriage.

The romance which ended in a wedding began at the bedside of one of Dr. Knerr's patients. Miss Ross, who is a clever vocalist and pupil of Phillip Dalmas, of the Paris Conservatory of Music, was in the city studying last winter, when Dr. Knerr was called to a patient in the house in which she had apartments. Though not a nurse by profession, Miss Ross devoted much of her time to administering to the patient, and it was largely due to her efficient services and kindly influences that Dr. Knerr brought the patient through a dangerous illness.

The friendship formed was mutual, but even when there grew to be a warmer attachment, Dr. Knerr and his intended bride continued their respective work and permitted few of their friends to know the true state of affairs.

When her season's studies ended Miss Ross went to her home. She returned to the city on Tuesday, and she and Dr. Knerr went to his old home in Delaware county and were married quietly.

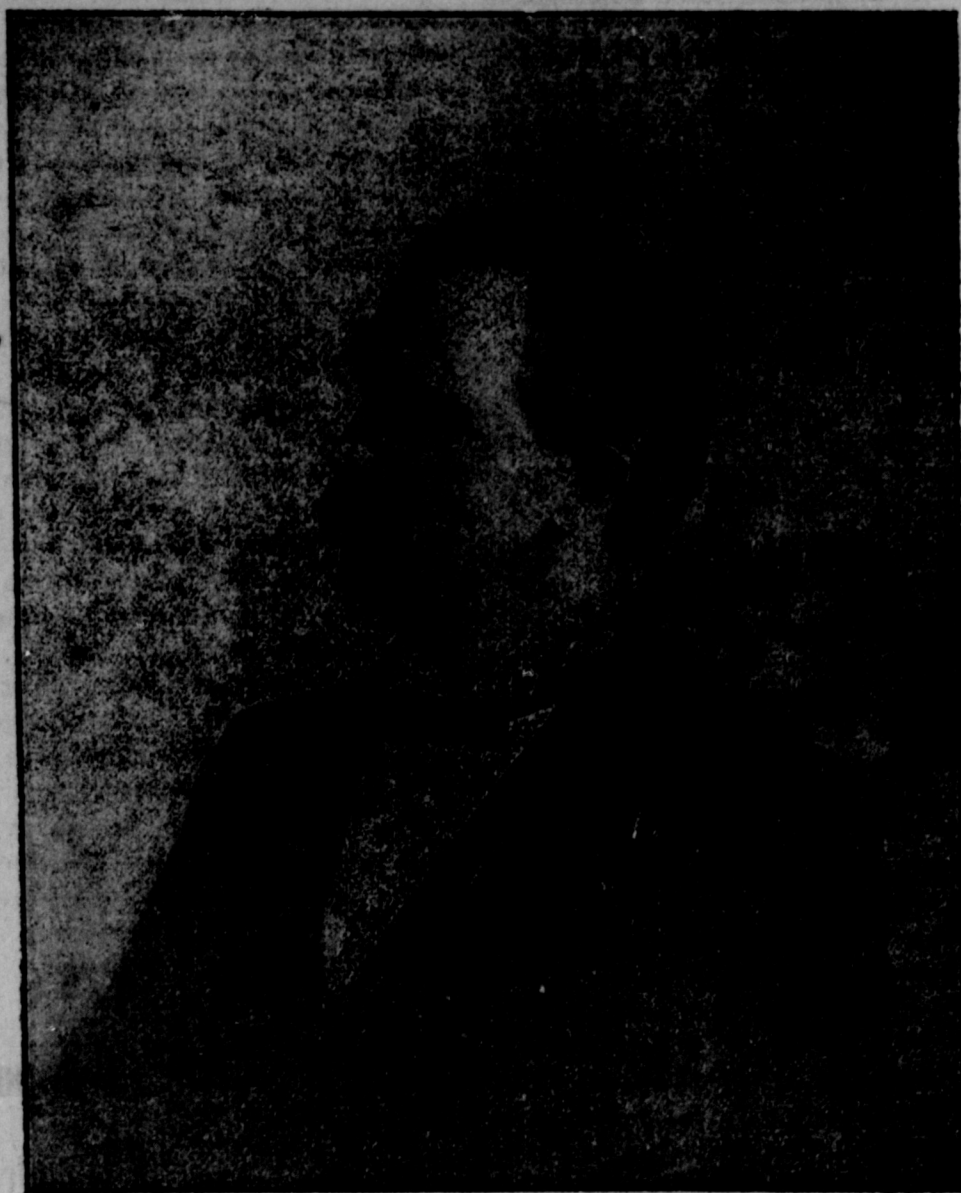

Mrs. Knerr will continue her vocal studies, and Dr. Knerr, who has been a practicing physician for five years, will continue his routine for the present. The pair will live at 1137 Spruce street. Dr. Knerr is a graduate of the University and Hahnemann Hospitals. Miss Ross is a member of one of the oldest families in the Dominion.

## FOOT BALL.

There was a good attendance at the foot ball game, Saturday last, between the Rustlers and Colored Terrors. Although the Rustlers secured an easy victory there was some good playing in evidence; the passing, by both teams, was brilliant. During the contest a snap shot was taken by Johnnie Brown, showing up the players to good advantage. There were 35 minute halves and 10 minute rest. The Rustlers made 25 the first half and 30 the second half; total score 45-0. Fred McLean officiated as referee. The same teams will meet again, on the gridiron, Saturday of this week.

## Special Work Among the Churches.

### EVANGELIST GALE.

Who will take charge of the UNION SPECIAL SERVICES, to be held in the OPERA HOUSE from November 16th to 30th, under the auspices of the Advent, Baptist, Free Baptist, Methodist and Reformed Baptist Churches.

MR. GALE will be present for the Sunday meetings next Sunday, in the Opera House, 3 and 7 P. M.

The Week Evening Meetings, under Mr. Gale, will begin at 7.30.

Afternoon Meetings will also be held, beginning Tuesday, 18th. Hour and place of these will be announced at each evening service.

Mr. Gale is accompanied by a Singing Assistant, who is well qualified as a Soloist and Chorus Director.

During this special work, the regular Sunday morning service will be the only meeting held on Sunday in any of the above Churches.

### Carleton Co. Agr. Society.

The annual meeting of the above important body was held on Tuesday afternoon in the Record office. The president, C. H. L. Perkins, occupied the chair, and the secretary, C. L. Smith, was at his post. The following members attended the meeting: G. Allan Bull, James Watts, Harry Sharp, Nathan Phillips, H. B. Smith, J. A. Lindsay, George Sharp, Warren Bull, Charles Rogers, Whit. Shaw, R. E. Holyoke, Judson Briggs, Stephen Peabody, Alex. Brown, Sterling Peabody, J. S. Leighton, Wm. Flemming, Thomas Strong, J. R. Brown, A. J. Raymond.

The secretary read the minutes of last annual meeting and the minutes of last regular meeting, both of which were approved.

Bills for straw furnished during the exhibition, E. M. Lindow \$7.50, Peabody Bros. \$9, were ordered paid, and the bill of John Hughes, \$6, for coach hire, was ordered paid at \$3.

The president, who was appointed to procure an auditor to examine the accounts of 1900-01, reported that J. S. Leighton, jr., had been engaged; the auditor's report was then read, in which he found a discrepancy in the late Sec-Treasurer's books of \$55.

On motion of Mr. Watts, seconded Mr. C. L. Smith, the report of the auditor was received and approved.

Mr. Holyoke said the report of the auditor showed that the books of 1900-01 were in a very unsatisfactory condition. The society should take some action on the same at this meeting.

On motion the matter was referred to a committee consisting of R. E. Holyoke, J. R. Brown and Judson Briggs, which committee, after giving the matter careful deliberation, reported as follows: We, your committee, appointed to consider the report of the auditor, beg to say that; inasmuch as the auditor reports having found a balance of \$55 due the society, by the late secretary, a demand be made upon him for the amount, and, if the demand be ignored, the department of agriculture be notified that the report of the late secretary, was at variance with his books for the amount of \$55.

The report of the committee was approved.

President Perkins made a verbal annual report. He had been serving them as president for a year, and he was pleased at the manner things had been conducted during that time. The year had been a successful one for the society in every particular, ending with one of the best exhibitions ever held in the county. Outside of the work prosecuted for such a successful affair, the society had not been idle by any means. In

We feel that we would not be doing our full duty if we did not at this our annual gathering remember with thanks the sympathy and also the cash we received from the Town of Woodstock to aid us in the erection of new buildings and purchase of land. We believe the town has acted wisely. So much for the past. Now for the future. Woodstock has I believe seen her darkest days. No other city in New Brunswick has such a fine, rich agricultural district surrounding them as has our town. Then why not make these Exhibitions an annual affair.

Let us bring the best of our flocks and herds, of our roots and our grain, the orchard, the garden and the dairy, together with our friends in the town who have the manufactured articles to exhibit let us join as one man to advance the interests of town and county alike. With this end in view, I would suggest: Larger buildings, electric lights at night, and the holding of the exhibition for four days. And Mr. President if we go back, say 15 or 20 years when we started on an acre of land with a small building, and think of what we have accomplished it should give us hope for the future. Mr. President, I have been a member of this society for 21 years and more, and at no time during these years, have our meetings been so well attended by young and energetic farmers as they are to-day. Then let us go forward with this determination firm and strong that we shall keep advancing until not Carleton Co. alone but all these up-river counties shall participate in the benefit of our annual exhibitions.

The following is a financial statement of the monies received by me and the expenditures.

C. L. SMITH,  
Sec-Treas.

Woodstock, N. B., Nov. 11, 1902.

C. L. Smith, Secretary-Treasurer,  
In account with Carleton County  
Agricultural Society, No. 41.

To cash received from town.....	\$ 200 00
do do members.....	140 00
do do gate receipts.....	364 00
do do Govt. grant.....	320 00
	\$2,224 00

By pd C. N. Killam, contractor, \$ 94 91	
do Prizes.....	1650 00
do Judges expenses.....	52 00
do Band.....	25 00
Amount on hand for land.....	400 00
By pd for lumber, carpenters and bills to date.....	220 40
	2,183 31
Balance.....	\$40 69

On motion the report was received, placed on file, and ordered to be published in the local papers.

President Perkins reported that the committee purchased a piece of land, near the exhibition grounds, from Albert Hayden. The deed had been written out, signed by Mr. Hayden, but had not been recorded as yet. He explained the matter fully and asked the instructions of the society.

On motion the matter was left to Messrs Perkins and Byron Bull, with full power to complete the purchase and have the deed recorded.

In the poultry department, 1st and 2nd prizes were awarded, in two cases, to the same winner, and the contention was made that 1st and 2d prizes could only be given to one person, in the classes termed "live stock," such as horses, cattle, swine and sheep, and that poultry has not been considered as coming under the classification of "live stock," consequently the secretary only gave 1st prize in each case.

On motion it was decided that poultry should have been and is considered as "live stock," and the 2nd prize will be given in each case.

On motion, three prizes will be given in the saddle horse competition.

The following officers and directors were elected:—

President—C. H. L. Perkins,  
Vice-president—R. E. Holyoke.  
Second vice-pres't—Judson Briggs.  
Sec-Treas—C. L. Smith.

Directors—Arthur Raymond, Robt Brown, N. F. Phillips, J. R. Brown, C. F. Rogers, Geo. Sharp, C. P. Bull, Allan Bull, Stephen Peabody, H. B. Smith, Thomas Strong, John Lindsay, W. B. Belyea, Lincoln Tompkins, H. E. Gallagher, Wm. Flemming, W. Speer, James Watts, J. S. Leighton, J. S. Leighton, jr., Whit. Shaw, Alex. Brown, Sterling Peabody, Ezra Briggs, B. B. Mauzer, J. A. Lindsay, Geo. Balmain, J. T. A. Diblee, R. B. Jones, A. E. Jones, H. E. Burt, J. J. Rogers, Joseph Speer and Harry Sharp.

Votes of thanks were tendered the president, secretary and directors of last year, for their successful management of the society.

On motion Mr. Watts, seconded Mr. Holyoke, \$50 was tendered the secretary for his valuable services during the year.

On motion Mr. Holyoke, seconded Mr. Briggs, it was unanimously decided that an exhibition would be held next year.

The society then adjourned.

## ISOLATION.

The Roman poet says, in his own strong way, "One man is no man." He is for that above him, and for that around him. A unit in a unity. A point in a circle. The solidarity of the race is scientifically true. Parts are we of one great whole, and each for each. The unit for the unity; the point for the circle. Perfection of the unit, through the unity.

The motto of our King Edward VII is: "I serve."

God is what? "God is Love."—Love is what? "I am among you as one that serveth." Love finds its meaning in service. The beautiful spirited Whittier realized it:

"Our friend, our brother, and our Lord,  
What may thy service be?  
Nor name, nor form, nor ritual word,  
But simply following Thee."

Our Lord called "twelve that they should be with Him, and that He might send them forth to preach."

Fix attention on the *with!* A community of spirit, love, and sympathy. Then what? Sent forth—service. Found themselves in other's good. Their own lives in others. But, a whole practical theology is found in that word *with*. Just track it. "So I am with you always." "With Him." . . . "All things." "With me in Paradise." But the *with* always meaning His will, His spirit, His service, His joy. Now comes the question fully acknowledging difference in temperament, can there be the *with Him* and isolation? Is it too dogmatic to say clearly not? For, what we love we are. And if His spirit is our motive power, then service will be the expression, of the great love wherewith He has loved us.

The form of service as varied as human need. For all work is Divine work if done in the Divine spirit. Yet, there is a work seeking not our own. A work of our benefit and others blessing.

The Sabbath School teacher receives more than he gives. Blest in blessing. So in all helpful work for others mind enlarged, spirit widened and experience made fruitful.

So of public life, with all its hard places, it becomes an education and a benefaction.

Fame soon withers, but the blessedness of duty faithfully done "never dies."

Well has it been said isolation is death! And is it not true? Try it in any sphere of thought! Let a man cut himself off, or try to do so, from "ought" that inward sense indestructible, and what? A loss of good—death! Less man, less life.

Or, let him withdraw from citizen obligation and will he not suffer loss? (1) in himself; (2) in the common life around him.

The tone, the vigor of a community is of the individual units. As they are, so the character of the town or village.

Or, a man may say I will work God at home. That is good. The men who add, I don't see the need of the church, "the worship at home," experience says, is more than doubtful.

The Christian life is a life in unity. "members of one family;" "branches in one vine." So it is social, and in community finds itself.

Further, how can the blessing belonging to, "when two or three are gathered in my name" be claimed without the gathering?

A boy sat on the limb of a tree busy with a saw. A man asked him what he was doing. "I'm sawing myself off." That's isolation. How much we have of it! And how unwise it is.

T. H. SIDDALL.

## BATH WATER WORKS.

Work on the Bath water works is progressing splendidly, under the supervision of Joseph Fewer, who is rushing the work as fast as possible. On Monday a crew of men went from here in charge of Alfred Fields to assist in digging the trench, 1900 feet of which had been completed last week. The total length of trench will be little short of a mile; a six inch pipe is being used. The standpipe has been completed by Winslow Dyer. It is 20 feet in height, 110 feet in circumference and will hold 40,000 gallons. The standpipe has 55 pounds of pressure to the square inch. It has been erected on the hill near Giberson's mill, and the water is pumped from the Monquart stream. As a convenience to the inhabitants of the village and as a protection against fire the water works will be of incalculable benefit. It is expected that a hose house will be erected at each end of the village, each to contain about 500 feet of hose for use on the hydrants.

The SENTINEL is the favorite journal of the fireside. Of course you're a SENTINEL reader; if not, why not?
