## A Scientific Voice Improver.

Because of its strengthening in-fiuence upon the vocal chords, Ca-tarrhozone cannot be too highly re-commended as a wonderful voice improver. It almost instantly removes huskiness or hoarseness, thus insuring clearness and brilliancy of tone. Catarrhozone keeps the mucous surfaces in perfect condition, and its regular use absolutely pre-vents colds and throat irritation, thereby removing the singer's great-est source of anxiety, unfitness of voice. The most eminent speakers and Prima Donas would not be without Catarrhozone and credit in no small degree their uniform strength and brilliancy of tone to its influence. The hard rubber inhaler fits conveniently into a purse or vest pocket, and may be used in the church, theatre, any place or time. Com-plete outfit \$1. Small sizes 25c.
