

## ASTHMA

Of all diseases that afflict humanity, none is so distressing and trying as Asthma.

If you are a discouraged Asthmatic and have tried many remedies without result, let us send you a generous free sample of Himmrod's Asthma Cure and prove to you the wonderful efficacy of this remedy. Used as an inhalant, it instantly relieves the oppressive sense of impending suffocation enabling the patient to breathe freely at once and by a soothing medication of the bronchial passages, quickly lessens the severity and frequency of attacks until a cure is attained. As Asthmatics are generally dyspeptic and should avoid internal remedies liable to impair the digestion. For over a quarter of a century Himmrod's Cure has been prescribed by eminent physicians throughout the world. It is a remedy in which you can place entire confidence. If your case is a chronic one, or only of a few months standing, send for a free sample at once and try it. It will not disappoint you.

From a school in the remote districts in the mountains of Kentucky a little incident comes that illustrates the quaintness of the southern mountain folk. Several of the pupils were six-footers. One quiet lad asked to be excused for a week.

'What is the reason?' asked the teacher.

'Got some law business to do.'

'What have you got to do with law business?'

'Laying over a killing,' was the laconic reply.

'Well, what have you got to do with it? You did not see it, did you?'

'I allow I did. I'm the feller they tried to kill.'

A little 3-year-old boy a few days ago stood by his mother's knee gazing at his baby brother, a few weeks old.

'Mamma,' he asked, 'did God make this little baby?'

'Yes, dear.'

'Did God put on his ears?'

'Certainly.'

'And make his eyes?'

'Yes.'

'Well, mamma,' after a moment's silence, 'couldn't God spare no more hair?'

Stratford, 4th Aug., 1893.

MESSRS. C. C. RICHARDS & CO.

Gentlemen—My neighbor's boy, 4 years old, fell into a tub of boiling water and got scalded fearfully. A few days later his legs swelled to three times their natural size and broke out in running sores. His parents could get nothing to help him till I recommended MINARD'S LINIMENT, which, after using two bottles, completely cured him, and I know of several other cases around here almost as remarkable, cured by the same Liniment and I can truly say I never handled a medicine which has had as good a sale or given such universal satisfaction.

M. HUBERT, General Merchant.

Mr Skimmerhorn (as the participants in the debate became personal)—I was a thundering fool when I asked you to marry me! Mrs Skimmerhorn—Well, you looked it, dear.

Poor Girl, Pity Her.

Growing! Yes, into weakness, but not strength. Studies—plenty of them. Tired, of course she is, and weak too. Does not eat enough, and digests far less than enough. This condition is so frequent, but how seldom noticed even by fond parents. Give her Ferrozone, then watch her appetite improve, her cheeks and lips grow ruddy, her step elastic, her spirits buoyant. All this simply the result of eating and digesting enough, making blood, and thereby strengthening the nerve and brain power. Ferrozone gives a woman's strength to weak girls. Your daughter or wife needs Ferrozone. Get it today.

A Texas debating society recently had for a subject, 'Is it proper to sound the "d" in dorg.'

The Glow of Health.

When the blood is rich and pure there is a healthful glow to the complexion which speaks of the vigor and vitality of the system. There is no more certain way for pale, weak people to attain the glow of health than by the persistent use of Dr. Chase's Nerve Food, the great food cure which forms new, rich, red blood and creates new nerve force.

What tree is nearest the sea?—The beech.

WANTED—SEVERAL INDUSTRIOUS PERSONS to visit coal mines and establish eleven years and with large capital, to call upon merchants and agents for successful and profitable trade. Permanent engagement. Weekly cash salary of \$18 and all travelling expenses and hotel bills advanced in cash each week. Experience not essential. Mention reference and enclose self-addressed envelope. THE NATIONAL, 334 Dearborn St., Chicago.—10-29.

Minard's Liniment cures Dandruff.

An ingenious small boy hit upon the brilliant idea the other day of standing before a mirror while eating a piece of cake to make it seem like two pieces.

Lifeline Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

He—I suppose now that I shall have to ask your father for his consent.

She—No, Harry. After the first time you called, pa said I might have you if I wanted you. Pa and I have understood it for a long time.

Paralysis and

Locomotor Ataxia

Cured positively by Dr. Chase's Nerve Food

MR. JAMES A. DEAL, Bridgewater, N.S., writes:—"About a year ago I suffered a stroke of paralysis, which left me in a very bad state of health. To add to my troubles, last winter I took a gripe, which completely exhausted my nervous system. I could scarcely walk or talk, my legs and arms were partially paralyzed, my blood did not circulate properly, and I could not do any work. In fact, I was so bad that the doctors gave me up and thought I could not live through the summer."

I began the use of Dr. Chase's Nerve Food, and persevered in the treatment, until now I am at work again. The change in my condition has been most remarkable. It is a surprise to everyone to know that I am able to be around again. My nervous system has been built up wonderfully by this remedy. I am able to rest well, my circulation is normal, and my general health good. My appetite is first class, and I have gained considerably in flesh."

To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

Benham—I believe a woman can love two men at the same time.

Mrs. Benham—If she is a married woman, she has to try to.

Benham—What do you mean?

Mrs. Benham—She has to try to love her husband, and he isn't the same man when they have company that he is when they haven't any.

The Mistress—But what made you leave Mrs. Smythe so suddenly, Maria?

The Maid—Oh! me an' 'er husband couldn't agree, so I thought it best to send in my resignation at once. It come to the pint where one of us 'ad to go.

The young housekeeper who told the fishman that she wanted some eels and when he asked her how much, replied, 'About two yards and a half,' has a rival.

'I wish to get some butter, please,' she said to the dealer.

'Roll butter, ma'am?' he asked politely.

'No. We wish to eat it on toast. We seldom have rolls.'

'Johnny,' said his mother severely, 'some one has taken a big piece of gingercake out of the pantry.'

Johnny blushed guiltily.

'Oh, Johnny!' she exclaimed. 'I didn't think it was in you!'

'It ain't all,' replied Johnny. 'Part of it's in Elsie.'

What color does a whipping make a boy?—It makes him yell O.

Why is a waiter like a racehorse?—Because he often runs for steaks (stakes), plates or cups.

'No, sir,' declared Gazzan as he warmed up to his subject, 'you'll never be happy so long as you are in debt. Pay your debts, Swayback; pay your debts.'

'But I have no money,' said Swayback.

'Then borrow it.'

'Young man,' said the stern parent, 'you have been making love to my daughter!'

'Yes, sir,' admitted the trembling wretch, 'but, indeed, I didn't mean it, sir. I—'

'Didn't mean it? Why, you scoundrel! That is—er—that is, sir, I do mean it. I love her devout.'

'What? You presumptuous upstart, how dare you!'

How One Million Is Spent.

Not less than one million dollars is annually spent by people seeking an absolute cure for Catarrh, Bronchitis and Consumption. Numerous are the remedies, but the one standing pre-eminently above all others is Catarrhazone. It cures these diseases because it is sure to reach them. Catarrhazone is inhaled into the lungs, throat and nasal passages and bathes every part of the diseased membrane with its germ-killing, healing vapor. You simply breathe Catarrhazone and it cures. Price 25c and \$1 at druggists, or Polson & Co., Kingston, Ont.

Why is your eye like a severe schoolmaster?—Because it always has a pupil under the lash.

Catarrh.

Called an American disease, is cured by an American medicine, originated and prepared in the most catarrhal of American countries.

That medicine is Hood's Sarsaparilla.

It cures radically and permanently, in that it removes the cause, cleansing the blood of scrofulous and all other impurities, it overhauls the system, catarrh, too, and builds up the whole system.

What trade would you commend to a small boy?—Grow sir (Grocer).

Minard's Liniment cures Burns, etc.

'Professor,' inquired the thoughtful member of the class, 'don't you suppose there will come a time when all the coal and all the coal oil stored away in the earth will have become exhausted?'

'Certainly,' said the instructor.

'What will we do then?'

'We shall be playing harps, I hope.'

Mrs. Grim—'People know you a great deal better than you think they do.'

Mr. Grim—'How?'

Mrs. Grim—'Our church society is getting up some tableaux, and they asked me to take the part of "Patience on a monument."'

'Can any little boy or girl tell me the meaning of the word "widow"?' asked the teacher. Well, Willie?

To an urchin who waved his hand vigorously.

'A widow,' said Willie, breathlessly, 'is a man's wife that's lost her husband.'

In reply to the inquiry of a reader from St. Louis, I would state that the only kings of England who as such have visited Rome previous to the stay there of Edward VII. the other day, were King Ethelwolf, in A. D. 838, King Canute the Great in 1029, and King Edward I., who in 1272 received the news at Rome of the death of Henry III, and of his own accession to the English crown. From that time forth—that is to say, for nearly seven centuries—no king of England set his foot as such within the walls of the Eternal City until the recent visit of Edward VII.—Marquis de Fountemery.

## THE LIFE GIVING VIRTUES OF Paine's Celery Compound

Rescued a Lady Who Was Drawing Near the Grave.

The Life Building Medicine That Wives and Mothers Need in May.

Paine's Celery Compound does a wondrous work for sick and half dead women in May. The conditions of winter have been detrimental to the health of women and girls everywhere; they have declined in nervous vigor, the blood is reeking with impurities, the excretory organs do not perform their work, and the digestive machinery is sadly out of gear. The human machine must be cleansed, repaired and strengthened in May. Paine's Celery Compound does the work surprisingly fast, and gives a guarantee of permanent health and long life. It is the one spring medicine that truly nourishes, regulates and invigorates the entire nervous system from the brain to the minutest nerve filament. It gives a full, rich supply of energizing blood, it clears the muddy, unhealthy skin, it gives an increase in weight, and more refreshing sleep. Whatever be your condition, unhappy sufferer, give you a blessed assurance of a new and lasting health, through the use of Paine's Celery Compound.

Mrs. Flora S. Brantley, Lewis, P. Q., writes thus: "Eighteen months ago I was terribly afflicted with daily headaches and was despondent, nervous and weak. Medical assistance and patent medicines failed to bring me any relief. My sufferings increased, and I was told I would not get better again. I was suffering so much that I was satisfied to die if I was God's will. A neighbor kindly suggested the use of Paine's Celery Compound, and, to please her, I consented to try it. The first few doses seemed to send a feeling of new life into my blood, and I went on using the compound. I have taken five bottles and can honestly say I am fully cured. I am sleeping well, appetite in good condition, getting back lost flesh, and feel as active as a girl of fifteen. I think my cure is a permanent one. I thank God for Paine's Celery Compound; it saved my life to my husband and children."

If you are in need of free medical advice, write to Consulting Physician's Department, The Wells & Richardson Co., Limited, Montreal, Que. All correspondence is sacredly confidential.

ST. JOHN LETTER.

Notwithstanding the discomfiture of the dock laborers in Montreal who aspired to control the business of the port, there are indications that there will be an industrial disturbance here when the business of the winter port is resumed next fall.

A prominent member of the Lord's day alliance has suggested to the ship laborers that, though all over the world the business of loading and unloading ships, especially if their cargoes are perishable, has since the first ship was launched, they should decline to participate in such work hereafter, and it is said that the suggestion will be acted upon. Of course the ships will have to be loaded and unloaded as heretofore, even if laborers from the other side have to be imported to do the work, and of course any disturbance of business will end most disastrously to the disturbers, but that makes no difference to the demagogues who claim supremacy in the labor world. So far as morality goes, it is no more sinful to load or unload a ship on Sunday than it is to cook his lordship's dinner or drive him in his carriage to church on Sunday, but morality has nothing to do with the matter. The question is, Shall the employer conduct his business his own way or shall it be conducted in the way of his employee?

The police were called in the settle three family quarrels in different parts of the city last Tuesday night.

Miss Jennie B. Robb of this city, will soon leave for Korea as a missionary under the auspices of St. David's Presbyterian church. The impression prevails that we need missionaries here quite as much as they do in Korea.

There is an active demand for lime and several of the Kilns, in the Narrows, that have long been idle, are in operation.

Peter Devine, charged with the murder of John Mangan at Musquash on election day, will be placed on trial next Tuesday. He is under 6000 bonds for his appearance.

The C. P. R. will expend about \$30,000 in repairing the damage occasioned by the late fire at Sand Point.

The writer of "Appleton's Canadian Guide Book" says St. Pierre is a barren rock miles across, lying under the flag of France, and densely populated with soldiers and fishermen. Quite as much Union Blend Tea is used in St. Pierre as in any town of similar size in Canada.

EDWARD EDWARDS.

St. John, May 16.

HINTS ON ADVERTISING.

By W. Arthur Lydell in "The Canadian Grocer."

Not so very long ago I asked a merchant if he ever realized any returns from the advertising he was doing in the daily papers.

'Oh, we have no doubt it pays us,' said he. 'We have been advertising for a good many years, and while we have never had any direct evidence that our advertising brought any results still we have faith in its value, and feel that it does us some good.'

There was a man who had too much faith. He felt satisfied that the advertising he was doing was beneficial to his business, and when he didn't get any direct results from his ads. it didn't trouble him much—he didn't worry about it as some do.

Advertising that doesn't bring results is not good advertising. If you cannot see that you are getting direct returns from the advertising that you are doing, you had better look for the reason and change your methods. I have never yet seen a retail business that would not quickly respond to intelligent advertising. There is no retail business anywhere that is not susceptible to the influence of advertising.

The merchant who is not getting direct returns is not getting what he is entitled to. His "faith" only serves to bind him to the faults in his methods. It is all very well to have confidence in the efficacy of advertising in bringing increased business, but it is advisable to look for results—see to it that your advertising pays you a profit. If you don't get the results you should, seek a reason, remedy it, and keep constantly changing your tactics until you are satisfied that you receive the full benefit of your advertising expenditure.

Many men start in advertising as if they did not expect it to pay. Like the general who starts into a battle expecting to be whipped, they are usually not disappointed. The merchant who rents a store, buys a stock of merchandise and opens for business, doubtful of success, is reasonably certain to fail. The man who advertises without expecting any results usually does not realize any.

Have faith, expect to win, determine to succeed. But "be sure you're right—then go ahead." Be sure the methods you adopt are successful when applied to your case. See that you get all that you pay for in advertising. Then go ahead with the confidence born of success, and the extent of your business will only be limited by the effort you put into it.

Don't have too much faith; don't have too little.—The Canadian Grocer.

In the United States last year there were 540,000 bicycles sold. This figure represents a material excess over the sales of all other transportation vehicles combined. The probabilities are that the sales this year will be even larger, for the factories are all busy and the demand appears to be remarkably large.

The newest sky-scraper is the Etna building, in New York. It beats all records with its 30 storeys and 455 feet of height from the pavement.

BODY STRONG

BRAIN CLEAR.

This Makes the Perfect Man—the Happy Woman.

South American Nerveine.

The seat of the majority of chronic diseases is the nerve centers. Cure them—build up nerve force there—and you cure the disease. This is the secret of the amazing results attending the use of the South American Nerveine—a veritable life-builder and eradicator of disease. Cures Stomach and Liver Complaints, General Debility, Impure Blood, Female Complaints, and every disease which indicates impaired nervous force. Read what it did for the family of A. W. Stephens, Strathaven, Ont. He writes: "A bottle of South American Nerveine Tonic did more for my sister Ida than a whole summer's doctoring and drugging for
