LIBERAL VICTORIES.

The local bye elections in Toronto, Wednesday, were a triumph for the liberals, and gives the Ross government a majority of five. In North Gray, A. G. Mackay, liberal, was elected, with a majority of 150; North Norfolk gave S. M. Little, liberal, a majority of 55; North Perth returns John Brown, liberal, with a majority of 240. North Norfolk and North Perth, in the general election were carried by conservatives.

TOWNELECTION.

It is now probable that there will be no contest, but that the old councillors, Burt, Dibblee, Albert Jones, Balmann, will be returned, and that the two men to supply the vacancy created by the resignation of Couns. Lindsay and R. B. Jones will be James McManus and I. E. Sheagreen, both good men, and their election, it is said will not be opposed. But then, you know, it is hard telling what a day, or an hour, may bring forth.

There will be a three-cornered fight for the office of Mayor, the candidates being, the present Mayor Belyea, R. B. Jones and John A. Lindsay. These gentlemen have all had experience at the Council board. Mayor Belyea has already filled the position for two terms, and many, even of those who consider that the duties of the office have been well discharged by him, think it would be unwise to establish the precedent of continuing one man in office, for more than two terms. However, the three Candidates are well known to the people of Woodstock, and they are the ones who have the right of choice. Choose ye, and choose ye well.

HYMENEAL.

ESTEY—BARTON.

A very interesting event took place at the home of Mr. and Mrs. W. D. Barton, the Range, Gr. Lake, on New Year's eve, when their sister, Mary L., was united in marriage to Fred Estey of Jacksonville, Carleton County. The ceremony was performed by Rev. F. S. Todd assisted by Rev. Mr. Dresser, in the presence of a large number of friends.

SQUIRES—GEE.

Miss Alfreda Gee, daughter of Mr. Israel Gee, was married on New Year's Day to Mr. Upton Squires of Wicklow. The ceremony was performed by Rev. L. A. Fenwick, at the residence of the bride's father, Upper Wicklow.

ANNUAL FESTIVAL.

The Sunday School connected with Christ Church, here, held their annual Festival, in the school room on Tuesday evening. Archdeacon Neales presided, and the attendance was sufficient to pack the hall to its utmost capacity. One of the pleasing features of the evening was the presentation of the school to the Superintendent, Mr. Lee Raymond, of a handsome Teachers Bible. The musical and literary program was interestingly carried out.

January Canadian Magazine.

There are two articles in the Canadian Magazine for January, either of which would make the issue a notable one. John Ridington describes "The Doukhobor Pilgrimage" with a sympathetic and penetrating insight, and the numerous illustrations give a vividness to the description. The other is an illustrated description of the Wireless Telegraph Station at Glace Bay, Nova Scotia, by Thomas J. Curran. In addition to these two special articles there are numerous excellent features, besides the first instalment of Dr. Hanney's "History of the War of 1812."

OBITUARIES.

MRS. EDWARD HAYES.

Mrs. Edward Hayes, formerly of New Brunswick, died at her home, Staceville, Me., after a long and painful illness of Bright's disease which she bore for the last three years, with Christian resignation. Since two weeks ago she contracted a severe cold which reacted on an already enfeebled constitution, terminating fatally. She was in her 68th year and leaves a husband, five sons and one daughter to mourn her loss. She was highly esteemed in the community where she resided. She was a daughter of the late Alexander Marr, of Sussex, N. B., and had lived with her husband and family in Moncton for many years; then she removed to Millville, York county, where she lived for a number of years, then moving to Staceville, where she died Dec. 17th. Her remains were taken to Millville and interred in the cemetery alongside her daughter and mother. Funeral services conducted by the Church of England minister of that place. Her burial took place on Saturday, the 20th, and the last tribute of respect showed how deeply and sincerely she was mourned.

MISS MINA FISHER.

On Monday, Mr. Williamson Fisher received, by wire, the news of the sudden death of his niece, Miss Mina Fisher. Deceased was a daughter of the late James Fisher. She was a graduate of the Normal School, was for some time a teacher in one of our town schools, and, later, a teacher in the Ladies Acadia College, Wolfville, N. S. Her health failing her, she came home to recuperate, when consumption rapidly developed and her condition became so alarming that she concluded to go to the Southern Pines Sanitarium, North Carolina, in hopes to be benefited thereby. Accompanied by her brother Edgar, she left for that place a few months ago, and at once entered the sanitarium. But it was too late, the insidious disease had made too great headway; cure was hopeless and though death came suddenly it was not entirely unexpected. Miss Fisher was a young lady of gentle disposition and attractive manners and made friends of all whom she met. These will join her relatives in sincere regrets at her early death. The remains are expected here today (Friday) in which case the funeral will take place at 3.30 p.m., from the residence of Mrs. John Fisher, corner of Main and Elm street.

Samples of Choice Grain for the Improvement of Seed.

To the Editor of Carleton Sentinel:

By instruction of the Minister of Agriculture another distribution will be made this season of samples of the most productive sorts of grain to Canadian farmers for the improvement of seed. The stock for distribution is of the very best and has been secured by the Director of the Experimental Farms from the excellent crops recently had in the Canadian Northwest. The distribution this Spring will consist of samples of oats, Spring wheat, barley, Indian corn and potatoes. The quantities of oats, wheat and barley to be sent this year will be sufficient to sow one twentieth of an acre. The samples of Indian corn and potatoes will weigh 3 lbs. as heretofore. Every farmer may apply, but only one sample can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat, barley or potatoes and applications for more than one sample for one household cannot be entertained. These samples will be sent free of charge through the mail.

Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time before the 1st of March, after which the lists will be closed, so that all the samples asked for may be sent out in good time for sowing. Parties writing should mention the sort or variety they would prefer, and should the available stock of the kind asked for be exhausted, some other good sort will be sent in its place.

WM. SAUNDERS,
Director Experimental Farms,
Ottawa, December 22, 1902.

Appreciation That Carries Value

In the Church of England, Fredericton Junction, after service on New Year's evening, an address and purse of \$75 were presented to Rev. H. E. Dibblee as a token of the appreciation of his parishioners in the parishes of Burton, Blissville and Gladstone. R. D. Wilnot, M. P., made the presentation, and Mr. Dibblee's reply was both full of feeling and appropriate. Herbert H. Smith, of Hoyt Station, started the idea of the presentation to Mr. Dibblee, and his friends gave it a hearty support. Under Mr. Dibblee's care the Church of England in these parishes has made a rapid growth. Two churches have been lately erected, one at Fredericton Junction and one at Hoyt Station. Telegraph.

The *Houlton Times*: The laugh is on a certain High street lady who went to Woodstock, Monday, to do some shopping. She borrowed a fur lined coat, a fur cap and mittens from a gentleman rooming in her house to keep her warm on the drive over. Her own hat and outer wraps were placed in a grip, along with her pocket book, to be used after reaching the neighboring city. The journey to Woodstock was a pleasant one. After reaching the Carlisle Hotel the lady in question discovered that she had come away leaving the grip containing her wraps, and pocket book sitting on the barn floor at home. She failed to make the intended purchases, and refrained from parading the streets with a man's overcoat and cap on.

The meetings during the week of prayer have been well attended and interesting. To-night the meeting is in the Methodist church—Subject "The Ministry of the Gospel."

It was designed by Carr & Gibson, and both in design and workmanship is creditable to the taste of the designer and the skill of the manufacturer. The Delineator for February.

The number of *The Delineator* for February is replete with interesting and valuable matter. The display of fashions is inviting and up to date, and the literary contributions are of a high order. In fiction, two admirable short stories are presented: A change for the Better, a Western tale, by Louise Hardenburgh Adams, and Pamela's Great-grandmother, by Arabella Kenaley; and the interest in the serial, Thyra Varrick, is sustained in the development of the plot. Waldon Fawcett's article on The Road to Opera, is entertained and finely illustrated. Miss Clara E. Laughlin's series entitled Miladi should be of deep interest to women; in the present paper she considers the claims of the home against the attractions of the business world for the young woman. A modern house artistic and convenient in arrangement and furnishings is illustrated and described. Dr. Grace Peckham Murray presents the first paper of a series treating health in the household. The paper considers the house itself and is a practical discussion of the various problems contained therein. Dancing: Aesthetic and Social, is the title of an article explaining a novel phase of exercise for women. The lessons in plain sewing designed to instruct children should prove beneficial and the stories and other matter for the children are as amusing and instructive as ever. The various Departments are up to the usual standard.

Maritime Farmer Special Number.

Historical matter, present doings and forecasts of the future all figure prominently in the make-up of the bright Maritime Farmer paper which has reached our desk in the form of a Special Winter Fair number that easily takes rank as the most elaborate undertaking yet on record in agricultural journalism in Eastern Canada.

The whole work is of our own people, about our own country, and should appeal to us accordingly. Amongst other articles is an exhaustive record of the pure-bred stock importations to New Brunswick. Similar data regarding the other provinces is promised for future issues. There are also splendid papers dealing with dairy work, fruit growing, live stock and the farm home, all profusely illustrated.

Ten pages are devoted to a report of the Maritime Winter Fair, recently held at Amherst, making by long odds the most complete account of the proceedings at that most interesting event that will be placed before the public.

The paper, presswork and illustrations are high class, in keeping with the nature of the undertaking. It might be pointed out that the illustrations, while not so strikingly artistic as those in some other similar publications, are exact life reproductions and consequently of far more value to the student of correct animal form.

This issue comes out in the face of a reduced subscription price, 80 cents per year being the rate at present given cash subscribers. At that price no farmer can be without this up-to-date journal. The Maritime Farmer is published at Sussex, N.B.
