

Indispensable in Winter.

There's a need in every home for

GRAY'S SYRUP OF RED SPRUCE GUM

A few doses, at the first sign of a cold, will allay all throat irritation—take away hoarseness—check the inflammation—strengthen the lungs—ward off the cough.

All the healing, soothing, curative properties of Canadian Spruce Gum—combined with aromatics. Pleasant to take. 25 cts. bottle.

The Carleton Sentinel

Announces the most remarkable proposition ever made by a Canadian publication to its readers:

TWO DOLLAR-PAPERS FOR ONE DOLLAR

By special arrangement, and at heavy cost—justifiable only by the certainty of largely increasing our subscription list—we are enabled to offer our paper and The

MONTREAL WEEKLY HERALD

a great dollar weekly, for ONE DOLLAR per year. This offer is exclusive, and can be made by no other paper, as we have purchased the exclusive rights for this district.

REMEMBER THIS FACT—Every subscriber paying one dollar in advance for our paper will receive The Montreal Weekly Herald for one year without extra cost. The expense to us is so great that we can make no deviation from this rule—the money must be paid in advance, and all arrears must be paid.

As a Newspaper.

THE MONTREAL WEEKLY HERALD was established in 1868, and is the second oldest Canadian paper. In its old age it has renewed its youth, and stands in the forefront of Canada's great journals. As a newspaper, it is edited with special reference to its constituency of readers, who desire a comprehensive summary of the world's news of the week. Everything is viewed from the standpoint of the Canadian who wishes to keep abreast of the times, without having to wade through columns of irrelevant matter. Careful condensation marks The Herald's treatment of every line of news. Do not confuse it with other papers of somewhat similar names. The Herald is a compact paper, not a blanket sheet.

As a Home Paper.

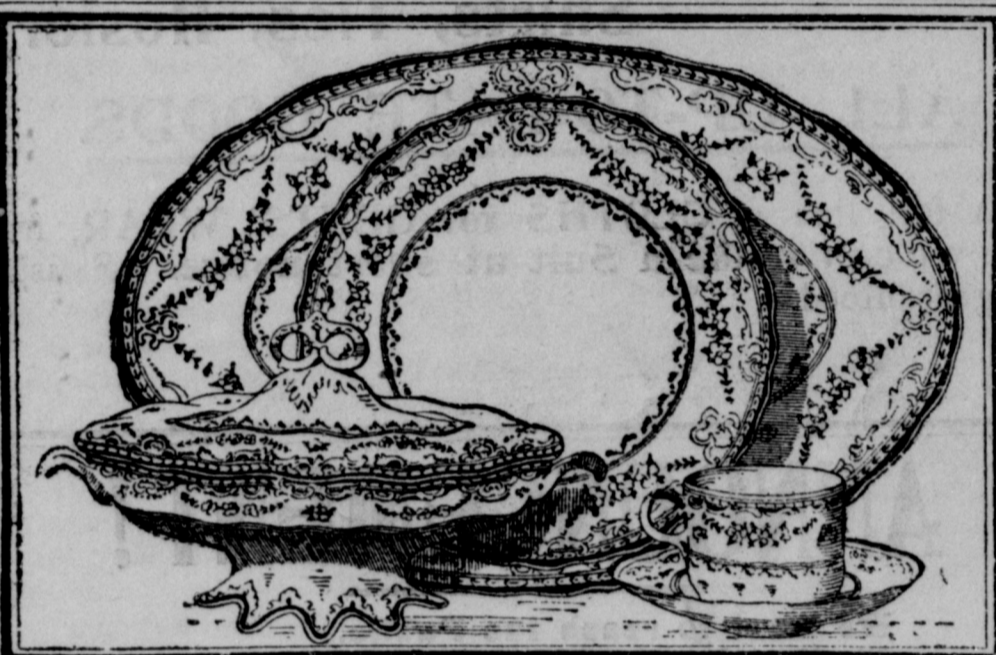

THE MONTREAL WEEKLY HERALD is pre-eminently a paper for The Home. In the first place, nothing is permitted in its columns that cannot be read with profit and instruction by every member of the household. In the second place, it is edited with special reference to the interests of the kind in any Canadian paper. They are veritable "heart to heart" talks with the women of the Dominion, and are appreciated in thousands of homes. In this department are given Hints to Mothers; time-tested Cooking Recipes; the latest Fashions; Illustrated, and a hundred and one topics of feminine interest.

THIS COMBINATION is a great one. Your home paper gives you in full the local news, the local markets and the local gossip. The Montreal Weekly Herald gives you the general news of the world, reports of the great markets, departments of interest to farmers, and, in particular, features of value and interest in The Home. One paper is the complement of the other. They dovetail into each other, and never overlap.

SUBSCRIPTIONS may begin at any time. If your subscription is already paid in advance, and you want The Montreal Weekly Herald at once, send in your dollar, and your subscription will be advanced a year.

EDUCATION DEPARTMENT.

High School Entrance Examination Medals.

His Honour the Lieutenant-Governor has been pleased to offer thirteen silver medals to be competed for by the pupils of the eighth grade at the High School Entrance Examinations in June next, and thereafter annually during his term of office.

The examinations will be held in accordance with the provisions of Regulation 46 at the several Grammar Schools, and at such of the Superior Schools as shall make application to the Chief Superintendent not later than the first day of June.

One medal will be competed for by the pupils of each County, except that for the purposes of this competition Madawaska and Victoria will be reckoned as one county, and Sunbury and Queen's as one county.

The medal will be awarded to the pupil making the highest aggregate marks in each case, provided that no candidate falling below the second division shall be entitled to a medal. The papers of the candidates awarded the highest marks by the local examiners shall be submitted for a final examination to special examiners appointed by the Board of Education whose decision shall determine the award.

J. B. INCH,
Chief Sup. of Education.
Ed. Office, Nov. 10th, 1903.

MAN SAWN IN TWO.

Lindsay, Nov. 14.—A shocking accident occurred at the Kennedy & Davis Co.'s sawmill this morning, a man named La Liberté being the victim. The unfortunate man was operating the butting-saw, and in some unaccountable manner fell or was drawn into the saw and literally sawn in two. One part of his body, including the head and right arm, fell on one side of the huge saw, while the remainder of the body fell on the opposite side. Those who witnessed the frightful sight gave the alarm and the mill machinery was stopped. Dr. Burrow, coroner, was called to the scene of the accident, and began an inquest this evening.

THE SENSIBLE MOTHER.

When little ones are ill the sensible mother no longer doses them with nauseous, griping purgatives, nor puts them asleep with the so-called "soothing" preparations that always contain harmful opiates. Baby's Own Tablets have been used by thousands of mothers who cheerfully testify that they are gentle in their action, absolutely safe, and make little ones sleep soundly and naturally, because they remove the trouble that made baby irritable and wakeful. On this point Mrs. T. Sarsfield, Ont., says: "I have used Baby's Own Tablets and find them a very valuable medicine for young children. When baby is cross and fretful I give her a Tablet, and it soon puts her right."

These Tablets cure all the minor ailments of little ones. They are good for all children from birth onward. Sold by medicine dealers or sent by mail at 25 cents a box by writing The Dr. Williams Medicine Co., Brockville, Ont.

In making a nice soup for children peel and cut into slices one pound of potatoes, put into a stewpan with a little dripping and two small onions thinly sliced; cook gently for ten minutes without getting brown, cover with water or weak stock, simmer till tender. Then pass all through a sieve, put it back into the stewpan, add a dessertspoonful of sago. Boil till clear, then put half a pint of milk, pepper and salt to taste, boil three minutes and serve.

STOMACH

and Bowel Troubles,
Torpid Liver, Sick Headache, Constipation and Biliousness, speedily cured by

McGALE'S BUTTERNUT PILLS

They are safe and prompt, free from Calomel or any Mercorial preparations; can be taken at any time and in any climate. Over fifty years a household remedy for Burns, Sprains, Wounds, Bruises, Coughs, Colds and all accidents liable to occur in every home.

CAUTION—There is only one Pond's Extract. Be sure you get the genuine, sold only in sealed bottles in buff wrappers.

Shame, Shame, Bro. Clarke.

The St. Stephen Courier publishes the following alleged funny article in its issue of last week.

A Woodstock woman, who is noted for her skill in the culinary art, had some company for dinner the other day. When dessert was passed one of the guests remarked upon the beautiful appearance of a pie, and inquired how she got such a pretty 'scallop' on its edge. He nearly fell dead when she replied: "Oh, that is easy. I use my false teeth."

RAILROAD MEN

GET SURE RELIEF.

They Use Dodd's Kidney Pills for the Troubles Brought on by Their Work.

They Profit by the Experience and Advice of Mr. Lew Duke, of the Duke House, St. Thomas—Dodd's Kidney Pills Cured Him.

St. THOMAS, Ont., Nov. 16th—Special.—Mr. L. Duke, the well-known proprietor of the Duke House here and one of the most popular men in this railroad centre, is completely cured of Backache and Kidney Disease of five years standing and he has no hesitation in stating that the cure was effected by Dodd's Kidney Pills.

"Yes," Mr. Duke says speaking of his cure, "I am perfectly satisfied that the two or three boxes of Dodd's Kidney Pills cured me, as I have not been troubled by my kidneys since I took them."

"I had been troubled with my Kidneys and pains in my back for over five years and nothing I used gave me any relief till I took the advice of a friend and tried Dodd's Kidney Pills. I advise all my friends to try them."

Many of the railroad men have taken Mr. Duke's advice and are using Dodd's Kidney Pills. This work is particularly hard on the Kidneys and they find Dodd's Kidney Pills bring them sure relief.

Illustrated Poultry Stations—There Location in Canada—Different Kinds of Stations.

The Dominion Department of Agriculture has in operation in Canada three poultry breeding stations, three chicken rearing stations, and ten chicken fattening stations—sixteen in all.

The poultry breeding stations are located at Holmesville and Bowmanville, Ont., and Bondville, Que. At each of these stations a modern poultry house is erected and about 125 utility-type Barred Plymouth Rock pullets are kept. At Holmesville and Bowmanville double poultry houses are built. These houses are 90 feet long and 16 feet wide and contain ten breeding pens of Barred Plymouth Rocks. The roosting quarters are separated from the exercising pens and are planned to withstand the cold; the fowls are kept warm at night. The single poultry house is erected at Bondville, Que., and is 100 feet long and 12 feet wide. During cold nights the roosting quarters are closed by a cheap bur-lap-covered frame. The fowls are kept warm at night. On account of the cold winter weather throughout Canada a warm roosting pen should be built in every single poultry house.

It is the intention of the Department of Agriculture to develop the utility-type strain of Barred Plymouth Rocks and to distribute them to the farmers at a nominal price. Last year about 800 Barred Plymouth Rocks were sold to the farmers. The demand for Plymouth Rocks has greatly increased this year.

The poultry breeding stations are equipped with incubators, brooders, and movable houses. One incubator will generally hatch as many chickens as 20 sitting hens. The most satisfactory method of rearing 200 or more chickens a year is with these movable houses and indoor brooders. The house and brooder are cheap in construction and can be built at home. It is profitable for almost every farmer near a large city to raise and fatten from 200 to 500 chickens a year.

The chicken rearing stations are operated at Chicoutimi, Que., Andover, N. B. and Vernon River Bridge, P. E. I. They carry on the same work as the poultry breeding stations excepting that the eggs for hatching are brought from farmers who possess good flocks of Barred

Plymouth Rocks. There are no specially selected Plymouth Rock pullets at these stations.

The chicken fattening stations are located at Sandwich, Ont., Stanford, Que., Rogersville, N. B., East Amherst and North East Margaree, N. S., Alberton, Glenfinnan, Montague Bridge, Mount Stewart and Eldon, P. E. I. These illustration stations purchase chickens from the farmers for fattening. The stations have an equipment of fattening crates, shaping boards, etc. The chickens are fattened for 24 days in the crates and at the completion of that time are starved 36 hours, killed by dislocation of the neck, pressed into a square shape and packed into boxes.

This year it is the intention of the Dominion Department of Agriculture to sell fatted farmers' chickens on all the principal Canadian markets and to show the consumers the improved quality of crate-fed chickens. Up to the present time no chickens have been exported by the Department to Great Britain. The price received per pound is from 10 to 13 cents, plucked weight. This course will be pursued so that farmers in any part of Canada fattening their chickens can sell them to dealers who recognize the value of fatted chickens and pay an increased price per pound for them.

It would be to the advantage of the farmers living near the fattening stations to visit the chickens and learn the modern methods of killing, plucking and shaping chickens. The men in charge of the stations will give information regarding the disposal of the fatted chickens.

NEWFOUNDLAND.

Canada must on no account repeat the blunder of 1895. In that year Newfoundland came knocking at the gate of our Confederation. The guardian of the Gulf of St. Lawrence was in evil case. Misfortune after misfortune had occurred, culminating in the fearful crash of 1894. She sued for admission to Canada and sent delegates to Quebec to meet a group of Canadian Ministers. Those were the days when the Government of Canada was in feeble and irresolute hands. The representatives of Canada seemed to think that the plight of the respective Province was so desperate that she would be obliged to accept any terms. They haggled over money matters. The story goes that Sir Mackenzie Bowell, who bears the blame of possibly the greatest national mistake made by Canada since Confederation, was in a measure driven into his course by the positive refusal of his Finance Minister, Mr. George E. Foster, to furnish the means to treat Newfoundland generously. The Island Colony declined the hard terms offered, raised a loan, and recovered the prosperity. To-day the report comes that Newfoundland once again may prove willing to negotiate. The chance should not be let slip.

INTERCOLONIAL RAILWAY.

Tender for Submarine Blasting and Dredging at Halifax, N. S.

Sealed Tenders, addressed to the undersigned, and marked on the outside "Tenders for Dredging at Halifax, N. S.," will be received until

SATURDAY, THE 21ST DAY OF NOV. 1903, for Submarine Blasting and Dredging in the Dock between Piers 3 and 4 at the Deep Water Terminal of the Intercolonial Railway at Halifax, N. S.

Plans and specifications may be seen at the Freight Agent's Office, Halifax, and at the Chief Engineer's Office, Moncton, N. B., where forms of tenders may be obtained.

All the conditions of the Specification must be complied with.

D. POTTINGER, General Manager.

Moncton, N. B., November 5th, 1903. 31n-46

THE VERY LATEST.

We have received the right for Exclusive Use of and are adding to our equipment the latest, best and only up-to-date course of Actual Business Practice. It prepares the student for everything that may ever be required of him in the most modern business office. It covers dealings not only with banks, but with freight offices, real estate and insurance agencies, commission houses, travelling salesmen, etc. Send for circular describing plan and routine of this practice.

SALES ARE SHARP.

UNDERTAKING given careful personal attention.

THE A. HENDERSON FURNITURE CO., LIMITED.

Sneezing has been said by at least one great medical authority to be evidence of a robust constitution. In proof of this he declared that people in feeble health never do sneeze.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the wrapper of every bottle of Emulsion you buy.
