THE PANAMA SITUATION.

General Reyes states that if his mission to Washington fails to result in an arrangement concerning the situateon on the Isthmus of Panama satisfactory to Colombia, the United States will have to fight the entire Colombian people, and there will be a second Boer war. True it is that the entire population of Colombia is only about four millions, but the white population of the Transvaal before the war was only about a quarter of a million, and of the Orange Free State less than a hundred thousand. General Reyes' statement has some significance, because his utterances have been characterized by great moderation and he is avowedly and obviously most anxious for peace. It is so evidently in the interests of the people of the Isthmus and in the interests of the world's commerce that the United States should constuct and control the canal, that it would be a pity if the rough shod diplomacy of Washidgton should lead to war. The United States has nothing to gain by unnecessarily ensue apon a war between the United States and any one of the South American republics. It would be worth something also to give the whole transaction a semblance of legality.-Star.

# A WOMAN'S FACE

of Her Health.

HOW TO OBTAIN BRIGHT EYES, ROSY CHEEKS AND THE ELASTIC STEP OF PERFECT HEALTH.

"A woman's face," said a well known physician, "is a mirror which reflects unfailingly the condition of her health. One can tell at a glance if she is well or not and usually one can tell what the trouble is. It so often happens instead of bright eyes, rosy cheeks and an elastic step, there are dull eyes, pale, sallow or a greenish complexion, and a languidness of step that bespeaks disease, and perhaps an early death if the right treatment is not resorted to. The whole trouble lies with the blood, and until it is enriched and blood, and until it is enriched and invigorated there will be no release from suffering and disease. Unques-tionably the greatest of all blood-renewers is Dr. Williams' Pink Pills. Good blood means health, vigor, life and beauty, and the one sure way to make your blood good is to take Dr. Williams' Pink Pills.

Out of many cases that illustrate the truth of this may be cited that of Miss Amanda Damphousse, Ste. Anne de la Perade, Que., who says:
"For more than six months I suffered greatly from weakness, bordering almost on nervous prostration. I suffered from headaches, palpitation of the heart, and pains in all my An organization of drummers named The Gideons which was started in Wisconsin two years ago, has a membership of nearly 3,000. The new line, which is at present designed for the winter season only, is to be established by the Dominion Atlantic Railway Company, which maintains the fast express steamships Prince Arthur and Prince George between Boston and Yarmouth, N. It believes that where so many tourists are willing to sail from Boston to the Mediterranean every winter, there are as many others who would as gladly spend their midsummer vacation amid the delightful scenery and climate of the West India Islands if only the facilities for a

comfortable trip were provided. The Dominion Atlantic Line is prepared to meet these requirements with its twin-screw steamship Prince Arthur, which has carried so many delighted tourists to and from Boston and Nova Scotia. This popular steamship is in every way suited to the purposes of such a service and it is proposed to inaugurate, having airy and well appointed staterooms, excellent cuisine and shaded promenade decks-all the requirements,

in fact, for a sub-tropical voyage. The new service is to be inaugurated Jan 16 next, the round trip to consume about 30 days. The Prince Arthur will call at Philadelphia after leaving Boston, and take on a number of passengers who have been

booked from that city. The cruise will include the most interesting of the West India Islands, short stops being made at St. Thomas, D. W. I.; Martinique, St. Lucia, St. Vincent, Kingston, Jam.; Santiago and Nassau. For a holiday trip nothing could be more delightful or restful than a cruise like this. It transfers the tourist from the rigors of a northern winter to the salubrity of a semi-tropical climate, with a daily and almost kaleidoscopic change of scenery and incident. Some of the places visited, too, are famous in history-one of them, the island of Martinique, terribly soand the trip will really mean an edu-

At every meeting he tion to compete on or befor March has addressed in England, so far as select a third, the award of the vised two-, and the English people must wonder how we came to let so valuable a bird escape. On the strength of his Canadian experience Mr Foster assures the British that if they will introduce protection it will e the foreigners who will pay the duties. In terms of his vaunted Canadian tariffs this means that it is the British who have been paying the duties on the goods we have been importing. We certainly wish we could buy our clothes at the same price at which they can be brought

in Britain. Mr Foster also says that "night and day the tariff war against Great Britain wages ceaselessly. Every country in Europe has industrial spies at work in England." If Mr Foster goes on crowing after this gloomy fashion with any effect, foreign industrial competition will become as big an English bogey as once upon a time was Napoleon Bonaparte. But while there are Joseph Arches to write: "This is my seventyseventh birth-day. Pray do not be deluded by Mr Chamberlain's protection scheme, or Mr Balfour's retaliation dodges," we do not expect that Mr Foster will be able to crow all England's good sense away. And the president of the Scottish Miners' Federation says the claim that the Scottish miners are converts of Mr Chamberlain is too "preposterous for words." Still we are glad to learn that Mr Foster, after all his painful political experiences in his own country, is able to crow so loudly in England .- Montreal Witness.

Mrs. Nation Paid Big Fine.

FOR CAUSING DISTURBANCE IN UNITED STATES SENATE.

Washington, Nov. 25 .- Mrs Carrie Nation, after calling at the White House yesterday went to the capitol and appeared in the senate gallery a few minutes before the senate was called to order at noon. She took a seat well to the front in the ladies' senate but when told she would not be allowed to do so she acquiesced readily and took her departure. She had been absent from the gallery about ten minutes when she appeared at one of the doors of the ladies' galley and raising her right hand far above head shouted in a loud and clear tone:

"Saloons are anarchy; saloons are treason and conspiracy."

She was preparing to go on when a door keeper caught her and pushed her out of the door.

The senate was at the time engaged in the receiving of bills, but Mrs. Nation's voice was so much more penetrating than the reading clerk's that it was distinctly heard throughout the senate chamber, and even in the corridors. The incident created a ripple of excitement. Senators generally smiled, but no public attention was given to the matter. When Mrs. Nation entered the gallery Detective Redfern of the capitol police took a place by her side and as soon as she was expelled from the gallery he prevented a futher scene by placing her under arrest. Mrs. Nation took this proceeding as an ordeal with which she was familiar and the police experienced no difficulty in inducing her to go with them to the capitol guard room. The district police was informed of the arrest ane Mrs. Nation was taken to police headquarters. She was up before Judge Kimball on a charge of disorderly conduct and breach of the peace. A fine of \$25 or 30 days in jail, the maximum pentilty for the Lots number three and said Lot number four offence charged, was imposed. Mrs. Nation made an appeal for assist-
