A Superior Service Drugs and Medicines.

No Doctor can obtain the desired results in the sick room unless his prescriptions are filled as he intended them to be, i.e., with drugs of the Highest Quality. The sick room is the one place above all others where Quality counts above everything else. If you want the patient to improve, to respond to the physician's labors you must be particular with the medicine. You must have his prescriptions filled with nothing but pure and fresh drug and chemicals. We cordially invite your Medicine Quality First Importance. Importance. Importance.
