WOODSTOCK, N. B., FRIDAY, NOVEMBER 8, 1903.

WHOLE No. 2963.

TOWN COUNCIL.

There were present at the regular monthly meeting of the Town council, Monday evening, Mayor Belyea and the full board of councillors.

Treasurer Bourne reported for the month of October: Receipts, \$1093.50; expenditures, \$4208.79; debit bank balance, \$7267.22; cash since received, \$577.77. Report referred to usual committee.

Marshal Kelly reported collections for October: Taxes, \$561.57; licenses, \$50. Report referred to usual committee, and an order drawn on treasurer for the ten per cent commission on licenses.

Coun. Sheasgreen reported for the committee appointed to secure tenders for lighting the town hall.

On motion Coun. Burt, seconded Coun. Dibblee, a contract will be entered into with the lowest tender, Small & Fisher, for one year.

On motion Coun. Sheasgreen, seconded Coun. Garden, the clerk was instructed to prepare a contract with Small & Fisher, under the terms of the tender.

Coun. McManus said he had been requested by many ratepayers to give a longer service by electric light system, at least to have the lights run until midnight. He (McManus) had an interview with Mr. Hayden, the engineer, who was unable to comply with the request; as he would have to hire an assistant if he were to give a longer service than at present. The committee endeavored to give a good service, but it did not come up to anticipations. As the line and lamps were now in good condition, he hoped to give a better service in future.

On motion Coun. McManus, seconded Coun. Dibblee, the clerk will serve notice on the engineer that the lights must be kept up until midnight in future.

On motion Coun. Dibblee, seconded Coun. Garden, Thomas Winchester, night watchman for the Imperial Packing Co., was appointed a constable and member of the police force.

Coun. Garden said it will be noticed that the debit bank balance was \$7267.22. During the month the town paid off a bonded indebtedness of \$1925. The correct debit bank balance should be about \$5000, as a large amount of money will be deposited in the bank when the bonds are sold.

On motion Coun. Garden, seconded Coun. Dibblee, a committee was appointed to wait upon Mr. Dalling, agent for N. B. Telephone system, ask him if it is the intention to leave the company's phones in the town building free, and if not, notice is to be given for the removal of the same. Couns. Garden and McManus were appointed said committee.

Marshal Kelly was given three days vacation.

Orders were drawn on the treasurer in favor of E. L. Hagerman for \$1.02 rebate on taxes, and John Donnelly a rebate for 75 cents.

Coun. Dibblee remarked that the newspapers think the Scott Act money might possibly have been squandered. He could inform them that this year \$450 had been collected and handed to the treasurer, while the only expense was \$50 which was paid to the inspector. Last year all the money taken in was expended in salary and law expenses. While the committee had held no meetings, it was in touch with the S. A. Inspector, and the committee and inspector were endeavouring to do their duty. It was impossible to abolish the sale of liquor, and, at the worst, there was no more liquor sold in town this year than in previous years.

After reading the usual budget of bills, council adjourned until Friday evening.

Promotion for T. W. Murphy.

The many Woodstock friends of the genial Tommy Murphy will be pleased to hear of his success in Massachusetts. The following item is clipped from *The Electric Magazine*, published in Lynn.

Mr. T. W. Murphy, secretary and treasurer of the Thomson-Houston Mutual Benefit Association, Section 7, has accepted a more lucrative position with the Boston Elevated Railroad. Mr. Murphy is an old-time train dispatcher, having worked in that capacity for 14 years with the Canadian Pacific. "Tom," as he is familiarly called, will be greatly missed by a host of friends, as well as the T. H. M. B. A., which he took a great interest in since its inception, working with might and main to accomplish any object which he had in view. Good-luck, Tom!

That Carleton County people are frugal and prosperous is well shown by the amount of business done in the Woodstock Savings Bank. Official sources state that a greater amount was deposited here than in any other New Brunswick office during the past year.

The SENTINEL of Oct. 9th published a list of "Cheap Groceries" copied from its issue of Oct. 10th, 1893. They are not "in it" with the prices prevailing at Carr's, Hartland, at the present time. 21 lbs Standard Granulated Sugar for \$1.00; 3 lbs our best Tea for \$1.00; 3 lbs extra quality Coffee for \$1.00; 5 gals American Paraffine for \$1.15; Raisins, 10-12c; Starch, 10-12c; Soap, 5c per lb; etc, etc. And yet we still hear talk of the high cost of living.

Again we scored heavily for all of our clients last month. Again we landed the money and landed it in chunks. Three years of organization, with the best facilities that money and brains can procure to make our service of picking and backing winners at the horse races the most accurate and profitable in the land, has had its natural sequence, and each week our showing demonstrates a good profit for every client.

How \$50 Netted \$201.75 in Less than a Month.

Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of \$50 is required by us, as a matter of conservatism, to make a \$10 play on each horse that is considered by us a good betting proposition.)

The above showing is no improvement over that of September, and is not remarkable, since we have excelled it time and again during the past three years of our uninterrupted operations. Good as it is, however, we are confident we will make it "look sick" by comparison with the showing we are going to make at the meeting of 100 days which begins at New Orleans this month.

WE PICK THE WINNERS.

The system we employ to locate winners is identical with that used by "Pittsburg Phil," John A. Drake, John Gates, W. Langdon, Joe Yeager, and other famous plungers who win hundreds of thousands on the turf every year, and it proves just as successful.

We gather our information of prospective winners through a force of expert horsemen who hold a watch on the horses in their early morning trials, and in that way learn when they are ready to win.

The money that is played into the game by persistent losers, such as the large mass of uninformed players are bound to be, goes into the pockets of the big operators, of which the Maxim & Gay Co., representing a large clientele, stands at the head. The work of the Maxim & Gay Co. is to place the general public upon a level with the winning plungers, and our success in this accomplishment has made us famous on two continents.

We do business only on the great racetracks of the U. S. We number among our clients some of the best known sportsmen, financiers and merchants in the country. Investment on the turf is now deemed as legitimate as any other high-class form of speculation. The present high standard to which racing has been brought, and the absolutely good faith in which turf affairs are conducted under the auspices of the Jockey Club

Our Clients Won a Million Dollars.

As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked: "Why do not Maxim & Gay simply sit down and back their own selections instead of running a considerable clerical force and spending large sums in advertising in newspapers throughout the country?"

The answer is simple enough if one stops to consider the situation. Maxim & Gay, by dint of ability, energy, organization, capital and advertising, have secured an enormous clientele, which means the command of immense capital. If we can pick winners for this immense number of investors, our profits are larger than if we played our own money only, on a basis of 25 per cent. of the bets, which is the maximum allowed by the transactions of one man out of every four of our customers is practically betting for us. The proof that this plan works for the benefit of the public as well as that they win three weeks out of four and our books show that no customer who stuck to us for two months ever failed to get well ahead of the game, while not a few of those who now own winning stables

A Few of Hundreds of Recent Endorsements of the Press:

(Cincinnati Commercial-Tribune, March 1, 1903.)
Maxim & Gay, who have been so successful in selecting winners at the New Orleans races, are in a class by themselves and have no relation to their system of operation to the "get-rich-quick" schemes that have recently gone to pieces disastrously to those who patronized them. Maxim & Gay do not guarantee their clients profits nor against losses, but merely play the money of their subscribers and deduct a fixed percentage from winnings for placing the commissions. This point is made clear in all their announcements. What they guarantee to do is to confidentially handle all money forwarded them and place it on the races just as if it were their own. They have in their employ as "clockers" the most expert judges of track work in the country, and there is not a horse at the New Orleans meeting that they have not a record of. The information collected in this way is used to the benefit of their subscribers, and its reliable character is attested by the numerous winners they have picked in the past two weeks.

(St. Paul Dispatch, February 24, 1903.)
An investigation of the methods of the Maxim & Gay Co. shows them to be conducting their business on straightforward business lines. They have been established nearly three years. They do not guarantee clients profits or against loss, but merely place subscribers' money on judgment of experts, charging a fee for information and a fixed percentage from winnings for placing the commissions. They are the pioneers in this line of investment.

(N. Y. Morning Telegraph, February 21, 1902.)
Since the introduction of the Maxim & Gay Co., the casual racer or one who possesses himself of a modicum of knowledge of the comparative merits of the horses, and their chances of success, as the "regular" was hitherto, the intelligent study from experts. He can secure through this company, which is incorporated under the laws of New York State, the expert knowledge and expert judgment of an experienced combination of horsemen who day in and day out for him such things as training, the horses as he could not possibly find out for himself, unless he devoted his entire time and attention to the business. Even then, to do as well he would have to possess a peculiar talent and an especially ability by experience and natural ability.

(Cincinnati Times-Star, March 2, 1903.)
The Maxim & Gay Company, well known purveyors of information, should not be confounded with "get-rich-quick" turf investment or concerns of similar character. They have been established nearly three years. They place subscribers' money on judgment of their experts, and deduct a fixed percentage from winnings for placing the commissions. They are the Napoleon in this line of investment or speculation.

(Memphis Evening-Scholar, March 2, 1903.)
The advertisements that appear from time to time in the columns of various newspapers with reference to the turf plan of Maxim & Gay Company tell a story entirely different from the exploits of the infamous "get-rich-quick" concerns.

JOIN OUR WINNING ARMY.

The greatest race meeting in the history of the South begins at New Orleans within a fortnight. In magnitude it will eclipse all other turf gatherings of the past. The Crescent City Jockey Club knows this to be a banner year and has prepared for it. So have we. If there are more horses at the New Orleans racetrack than ever gathered there before, we have more expert "clockers" and handicappers than we ever employed at any other meeting. They cannot make the game too big for us to handle. We move with the time.
