## The Carleton Sentinel.

FRIDAY, JUNE 26, 1903.

Published by THE CARLETON SENTINEL PUBLISHING CO. at their office, in VANWART'S BUILDING, King Street, Woodstock, N. B.

## A DEFINITE ANSWER NEEDED.

We are pleased to publish Mr. A. W. Hay's gentlemanly and interesting letter, which will be found in another column in this issue, but unfortunately Mr. Hay has neglected to touch upon the two points about which the tax-payers of the town are most interested at the present time.

First. He has not told the public how many men he proposes to employ, or even how many he is employing at the present time. The only possible reason why the town should grant Mr. Hay a bonus would be because he would increase the working population of the town and thus by the extra taxation thereby derived and by the extra amount of goods sold by our merchants, place the city of us in a position to help pay this handsome present. We have waited patiently for this interesting piece of information, but in vain, notwithstanding the "number of men", etc, etc, mentioned in the exceedingly rosy and optimistic article of our Contemporary, *The Dispatch*.

Second. It was stated by a correspondent in our last issue, and is currently reported around the town that the Council have already agreed that they will accept the buildings, machinery, and experience of Mr. Hay, at present at Meductic, at \$10,000, or one half of the whole proposed investment, and if the town pay \$5,000 then Mr. Hay will only have to contribute the same amount in cash. Surely no sane person thinks for a moment that Mr. Hay intends moving his present buildings to Woodstock, and we very much doubt if he could produce machinery for half that amount.

The Act of Assembly authorizing the granting of bonuses provides in Sec. 6 as follows:—"Provided always that before the said bonus or any part thereof shall be paid to the said company or individual, the said company or individual shall have erected and completed all necessary buildings and machinery for the successful prosecution of the said industry, and the same shall actually be in operation, and the bonus then to be paid shall not exceed in amount twenty five per centum of the money actually invested in said buildings, plant, machinery, and the lands actually used in connection therewith situate in said town; and in case any differences shall arise as to the amount of money actually invested, as a condition precedent to receiving the said bonus" arbitration is provided for.

Can it be possible that the members of the Town Council, with this Act staring them in the face have agreed to any such proposition as above stated. If so then we have no hesitation in stating that it has the impress of fraud at the very outset, and fully justifies other grave rumors which are in circulation regarding the motives of some of the Councilors.

We have the utmost faith and confidence in Mr. Hay's business ability and truthfulness, and what the public want is a definite statement from Mr. Hay himself, as to the truth or falsity of the above statements, and so far as the SENTINEL is concerned we will have no trouble in accepting them in toto. It is true that some of the Councilors have waxed eloquent over the amount of business to be done, but this neither binds Mr. Hay nor protects the taxpayers. We sincerely trust that this state of uncertainty, almost suspicion, may be speedily dispelled, and the columns of the SENTINEL will be open to Mr. Hay or any other person for a full discussion of the question, which we consider of vital interest to the town.

## NOT ANSWERED.

The only answer received so far to the several questions in our last issue, with reference to the duties of the Superintendent of Water and Sewers, was a call from Mr. Donald Munro, who, after calling the SENTINEL some very uncomplimentary names, which would not bear publication, stopped his paper. This shows that the questions must have touched a tender spot, and is another reason why the Council should have the whole matter thoroughly investigated.

We beg to remind Mr. Munro that notwithstanding the withdrawal of his big dollar per year, the SENTINEL will be issued every Friday, at the old stand, just the same as in the past.

## BASE BALL.

COLTS, 19—BANKERS, 9.

A series of evening base ball matches are now being played. On Saturday evening of last week, the Colts played the allied Bankers and Merchants, and had an easy victory, the score being 19-9 in their favor. The umpire was Harry McKinley; scorer, A S McKinley. Seven innings were played before darkness stopped the game.

COLTS, 10—FOUNDRY, 8.

The game on Monday evening was between the old base ball rivals, the Colts and Connell's Foundry, and ended in general dissatisfaction, owing to a misunderstanding as to the number of innings to be played; the Foundry claimed it was to be a seven innings game, but the Colts understood it to be a five innings match; the former claimed there was lots of daylight, but the latter said it was too dark to play any more than five innings; the umpire gave the game to the Colts, the score by innings being:

Colts — 0 7 1 2 0 —10

Foundry — 2 0 0 2 4 —9

Batteries—Colts, Mercer and Milmore; Foundry, McKinley and Donnelly; umpire, Frank Sullivan.

Colts—W Dalling, F McLean, C McLean, R McLauchlan, L Milmore, G McLauchlan, G Mercer, A Glidden, F McRae.

Foundry—C Donnelly, A McKinley, W Courtney, H McKinley, C Fournier, F Buck, G Buck, J Long, R Corbett.

COLTS, 11—BANKERS, 5.

On Wednesday evening, in the Park, the Colts played a five-innings game with a mixed team, Bankers, Druggists, etc. It was an interesting game, although the Colts were as usual easy victors. The pitching of Cornelison, Houlton, for the mixed team, was very effective, and his general work was first class; Harry McKinley was at the receiving end; Milmore and Mercer, the old reliable, officiated for the Colts; James Long was umpire, and A S McKinley scorer. The personnel of the Colts were as above, with the exception that W Courtney took the place of Fred McLean. The players on the mixed team were: Anderson, Waite, Cornelison, Don Connell, Stevens, H McLauchlan, G Connell, H McKinley, M Tapley.

Grammar School Closing.

The closing exercises of the town schools will this year partake of a character somewhat different to that of former years. The trustees have engaged the Opera House for next Monday evening, and the public are invited to attend and witness the presentation of diplomas, prizes and medals. Several essays and musical selections will be rendered. The graduating class numbers twelve, and is one of the best. The Grammar School has ever turned out.
