

Dizzy?

Then your liver isn't acting well. You suffer from biliousness, constipation. Ayer's Pills act directly on the liver. For 60 years they have been the Standard Family Pill. Small doses cure. All druggists.

Want your monotone or hoarse or breathless voice? Then use **BUCKINGHAM'S DYE** for the **Whiskers**.
50 CTS. OF DRUGGISTS, OR R. P. HALL & CO., MANITOBA, N. H.

TO CONSUMPTIVES.

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Coughs, Bronchitis and all throat and lung troubles. He hopes all sufferers will try his remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address: **DR. EDWARD A. WILSON**, Brooklyn, New York. 15-11.

NEW

Millinery Store!

I wish to announce to my friends and the public that I will have my

FALL OPENING

of the Latest Styles of Millinery on

THURSDAY, FRIDAY AND SATURDAY,

Oct. 2nd, 3rd and 4th,

in Cole's Building, No. 6 Connell Street

All are cordially invited to attend.

MRS. M. BREWER.

September 29, 1902-14-40.

Farm For Sale.

The undersigned offers for sale her valuable Farm at Summerville, containing 250 acres. One hundred acres under cultivation; good buildings; Orchard of 100 trees, besides small farms. Part of the purchase money may remain on mortgage at 6 per cent. Enquire of **F. B. CARVELL**, Woodstock, N. B., or to the undersigned.

MRS. MATILDA J. DAY.

JACOB VANWART

SHOW ROOM:

Hale's Building, King Street,

and South Side Bridge, Main St.

Woodstock, April 1, 1901.

A historic London inn, Clifford's Inn, was put up for sale on the 11th ult. It was sold for £100,000.

General News Items.

Journalism is looking up in New York. One newspaper man is going for the North Pole and another for the Presidency. Both will encounter frost.

It is estimated that persons seeking divorce in South Dakota spend, while gaining residence for that purpose, \$900,000 a year.

It is said that the King's extraordinary success as a diplomatist is due largely to his perfect mastery of several Continental tongues.

Minard's Liniment Cures Distemper.

The most widely separated points between which a telegram can be sent are British Columbia and New Zealand. A telegram sent from one of the other would make nearly a circuit of the globe, and would traverse over 20,000 miles in all.

Pimples, blotches and all other spring troubles are cured by Hood's Sarsaparilla—the most effective of all spring medicines.

Dr. Henry Jackson, of Vermont, and SK Crocker, of Seattle, have just started from San Francisco to make the trip from coast to coast in a twenty-horse power automobile.

Minard's Liniment cures Garget in Cows.

The Sultan is a crack shot with a pistol, and has been seen to write his name on a wall 25 paces away with bullets.

Perfectly Harmless and yet effective. Painkiller may be administered by inexperienced persons without fear of accident. For all bowel complaints it is a sure specific. Avoid substitutes. There is but one Painkiller, Peary Davis.

The most lofty clouds measured last year were at a height of 39,000 feet, and moved at 149 miles an hour.

Strength and vigor come of good food, duly digested. "Force," a ready-to-serve wheat and barley food, adds no burden, but sustains, nourishes, invigorates.

At the time of her marriage forty years ago, Queen Alexandra received forty pianos as wedding presents. No wonder after all these years the King wants to take a few days vacation in Portugal.

Don't Forget About Your Corns. Cure them in one night, by Putnam's Corn Extractor. It is sure, safe and painless, guaranteed to cure or your money back.

A footless race of men is said to have been discovered in New Guinea. They live in the midst of lakes, moving about on little canoes and possessing a few cabins built on wood piles. Their feet are so undeveloped as to be practically useless for walking.

The Evidence You Value.

By word of mouth from friend to friend Dr. Chase's Ointment has received more unsolicited recommendation than probably any medicine you can mention. The fact that it is an absolute cure for piles has put it in a class all by itself as a preparation of inestimable value and people recommend it knowing that it is a certain cure.

At the recent review before King Edward at Malta the pet donkey of the British warship Bacchante marched in front of the men.

The World Needs Nerve.

Needs it in business, in the study, in the household. Irritability, weakness, lack of strength—the blue feeling—why they just tell you that you lack nerve. You'll use Ferrozone? My! What an appetite you'll get. How quickly the color will return to your cheeks, how buoyant you will feel! Work! of course you'll work, for you will enjoy it. That is, if you will use Ferrozone. It gives nerve strength, muscular endurance and invigorates the brain splendidly. Sold by all druggists and medicine dealers.

At Butte, Montana, Tuesday, "Dick" Stanifer, a cowboy, was shot and killed by Mrs. Leo Brown, who formerly was his wife. Stanifer, it is said, after twice knocking the woman down, drew his pistol. Mrs. Brown, however, was the quicker, and her bullet sped true to its mark.

WANTED—FAITHFUL PERSONS TO TRAVEL for well established house in a few counties, calling on retail merchants and agents. Local territory. Salary \$200 a year and expenses, payable \$10.70 a week in cash and expenses advanced. Position permanent. Business successful and rising. Enclose self-addressed envelope. Standard House, 215 Casson Bldg., Chicago.—101-16.

A man who recently died in Greenwich Workhouse Infirmary has left £20,000. He paid the entire cost of his treatment, and left legacies to the doctor and the nurses who waited upon him.

GROWING FORAGE CROPS.

Feeders of Live Stock Should Prepare for the Summer Droughts.

Dept. of Agriculture, Commissioner's Branch, Ottawa, June 4, 1903.

Nearly every summer we hear the same old story of midsummer droughts and consequently scanty pastures. Many of our best farmers have learned to guard against loss by having a supply of succulent feed to fall back upon in case the pasture fails. A small silo, filled especially for summer use, will go a long way to meet the difficulty and a partial system of soiling has also found favor among progressive stockmen.

The Live Stock Commissioner, Mr. F. W. Hodson has frequently drawn attention to the advisability of growing some green crops for summer feeding, and has recommended a number of such crops as suitable for general growth, but only personal experience will enable a farmer to select the varieties of fodder plants best suited to his requirements.

It will be necessary to consider the most suitable crops to grow and the periods during which each will be available. Rye, clover, rape, peas and oats, vetches, millet, sorghum and corn will afford a satisfactory supply of green feed all through the summer if sowings are made at suitable intervals.

Rye sown in the fall will furnish the earliest feed in the spring, but as grass is usually abundant at that time, this crop is not likely to be needed unless a complete system of soiling be practised. The clovers where they grow well come next on the list and will provide an abundance of good feed during the latter half of June. Where it is possible to grow lucerne or alfalfa, it will be found the best of all soiling crops. It can be cut in the spring almost as early as rye, and yields at least three crops per season of rich feed. It is readily eaten by all kinds of live stock, but like other clovers it is apt to cause bloating if carelessly pastured.

In Southern Ontario it usually stands the winter well and lasts for years without reseeded. It should be sown in the spring, either alone or with a light nurse crop of barley, wheat or oats, and at least twenty pounds of fresh, good seed per acre. It is a little slow to gain a foothold and should not be pastured the first year, but after that it is very tenacious of life and withstands droughts particularly well.

Rape may be sown about the first of May for early feeding, and additional sowings may be made at intervals as desired. It is advisable to sow rape in drills about two feet apart on rich, well prepared land, and to cultivate as for turnips. If drilled in, one to two pounds of seed should be sown to the acre; if sown broadcast, double the amount. Dwarf Essex is the best variety. Rape produces large quantities of green feed, and it is one of the best foods for keeping pigs, sheep and calves in good condition. It is not satisfactory for milch cows, owing to its tendency to injure the flavor of the milk.

Oats and peas make one of the very best soiling crops for general growth, particularly for feeding dairy cows. They should be sown as early as possible in the spring, and at intervals thereafter, at the rate of about three bushels per acre, (equal parts, or two bushels oats to one of peas.)

Vetches or tares are now grown in Canada to a considerable extent, particularly by dairymen. They are likely to prove of value in nearly all the provinces. The common spring vetch has been most generally grown but recent experiments have shown that the hairy vetch will yield a much larger amount of green fodder per acre in Ontario. The latter is very desirable for soiling especially in dry districts, and appears to be relished by all classes of farm stock. Owing to the high price of the seed, it will probably be found best to sow vetches along with peas at the rate of one bushel vetches, one bushel peas, and two bushels of oats per acre. This mixture will produce an excellent crop for July and August feeding, and if cut early will afford good pasture afterwards.

Millet is another plant that particularly excels as a catch crop. It can sometimes be sown after a forage crop of peas and oats has been taken off the ground, and if there is moisture enough to start it, will yield a fair crop. If sown early in June, at the rate of about thirty

pounds per acre, it will furnish a large crop of good fodder by the middle of August. The Japanese Barnyard and Japanese Panic are the best varieties, the former preferring a moist soil.

Corn is, in most localities, the great standby for fall feeding. Another very valuable fall fodder plant for the Southern parts of Canada is sorghum. The Early Amber is the variety best suited to our latitude. It should not be sown until the weather has become settled and warm on land that has been prepared in the same way as for corn. If sown in drills, three pecks of seed will be ample for an acre but if broadcasted, more will be required. It is slow in starting, but after it has attained a height of a few inches growth is very rapid and the crop heavy. It is greedily eaten by stock, but like corn it is carbonaceous in its nature, and some additional feed such as clover or alfalfa should be added to balance the ration.

Soja or soy beans are also likely to prove valuable in the southern districts. They produce a large amount of forage of excellent character if sown on land prepared as for corn at the rate of two to four pecks per acre. The Yelloy Soy is the best variety for Canada and is worthy of trial.

CURED HIS BRIGHT'S DISEASE.

Former President of Bricklayers' Union used Dodd's Kidney Pills.

Andrew McCormick, of Toronto, tells of a Cure for the Most Dreaded of all Diseases.

TORONTO, June 15 (Special).—In these days when the dreaded Bright's Disease seems to be selecting its victims at will the report of an authenticated cure is received with relief by all classes of the community. And such a report comes from Andrew McCormick, of 243 Spadina avenue, this city.

That Mr. McCormick is well known and highly respected, is evidenced by the fact that he has held high offices in several fraternal societies, and was for several years President of the Bricklayers' Union.

Interviewed regarding the cure, Mr. McCormick says: "I suffered from an attack of Bright's Disease and naturally was much troubled concerning it. I heard of the wonderful cures effected by Dodd's Kidney Pills and concluded to try them. The result was so satisfactory that it gives me pleasure to recommend them."

Make and keep the Kidneys sound by using Dodd's Kidney Pills and there can be no Bright's Disease.

TWENTY YEARS' SLEEP.

New York, May 29—Marguerite Boyenval, of Theneles, near San Quentin, who had been in a cataleptic state since May 21, 1883, awakened on Wednesday, says the Paris correspondent of the *Herold*. For some time past she has been suffering from phthisis, and it is believed that the effect of this malady on her system conducted to her reawakening. She moved her hand on Saturday for the first time and groaned slightly. When a doctor took hold of her arm she said: "You are pinching me," and subsequently replied to questions by "Yes" and "No." She was, however, in a state of the greatest weakness and gradually sank, dying yesterday.

Her lethargy was caused by fright. She had a child, which died shortly after its birth under circumstances which led to a judicial investigation. One day in May, 1883, while Marguerite was ironing a neighbor said to her: "The gen d'armes are coming to arrest you." Marguerite had a series of fits and gradually fell into her long slumber. Marguerite Boyenval was about 35 years old, and was a French peasant girl, her mother being the wife of a mason who abandoned her soon after marriage. A child was born to Marguerite in May, 1883. The child died a few days later and rumors were spread that she had murdered it. The police determined to investigate the matter, but Marguerite sank into her sleep before they began.

In 1896 the girl was described as being white as a statue and as corpse-like as a mummy. Her body wasted away almost to a skeleton and her bones seemingly were covered with parchment instead of skin. The body was rigid and only the pulse beats showed that she was living. Life was sustained by washing the girl's body in milk every day and pouring a few drops of milk or spirits into the sleeper's mouth through a reed. The mother allowed anyone to see her for a small fee. Many prominent physicians visited the patient during her twenty years' sleep.

The loss to railroads, by the late Kansas floods, is placed at from two to three million dollars. The lowest estimate of the loss to crops is \$5,000,000.

Mother's Ear

A WORD IN MOTHER'S EAR: WHEN NURSING AN INFANT, AND IN THE MONTHS THAT COME BEFORE THAT TIME.

Terrible Tale of Murder.

Detroit, Mich, June 10—A Journal special from Kalkaska, Michigan, says: "After two weeks work prosecutor, E. C. Smith secured the confession of Mrs. Mary McKnight to the cold blooded, premeditated murder of her own brother, John Murphy, Gertrude Murphy, his young wife and their three months old baby. Last night she said: 'I did not intend harm to any of them. I did give the baby the strychnine. It woke up and cried while its mother was gone and I mixed up a little strychnine in a glass with some water and gave a spoonful to the baby. I really did not quite mean to harm any of them. When they found the baby dead, the mother grew awfully nervous. She came and said: 'Mary can't you give me something.' I said that I would. I didn't think it would hurt her if I gave her one of the capsules, and the strychnine killed her. Then John seemed to feel so badly about it, so broken up, that I thought it better that he should go too. He came to me and wanted three of the capsules on my dresser, and I told him to go and get one of them. I did not mean to hurt him, but I thought that it would soothe him and he helped himself. I don't know whether he took one or two. Then he went to bed and by and by he called me. Mother came too and he began to have the spasms. I suppose that the strychnine was working on him.'"

ALL DOCTORS ADMIT.

PURE BLOOD IS THE BED ROCK OF HEALTH.

Our bodies and minds are refreshed and strengthened by blood, and upon its purity our health depends. A thousand disorders can be traced either directly or indirectly to an unhealthy condition of the blood. Among the most common are Rheumatism, Neuralgia, Nervousness, Eczema, humors and female irregularities.

When disease has entered the system through the blood, of course the only certain cure is a thorough purification of the blood. This is best accomplished by Ferrozone, which attacks poisons of every description and makes the blood pure and rich. No cases are known where Ferrozone ever failed to disturb debilitated people. It contains abundance of nourishment and strengthening elements that have lifted many physical wrecks from beds of sickness and made them well.

Speaking of restorative properties of Ferrozone, Mr. Cyrus R. Sargeant, of Sydney, says: "I was in a dreadful condition with poor blood and palpitation of the heart for two years. I had scarcely any appetite, and suffered from rheumatism in the left shoulder. I noticed a slight change after the first box of Ferrozone, and when eight boxes were used I was a well man."

It may be exhausted nerves, a weak stomach or bad kidneys that drag you down. Be it one or all of them, Ferrozone will cure. Let Ferrozone assist you in finding and maintaining health. Price, 50 cents per box, or six boxes for \$2.50, at all druggists or by mail from The Ferrozone Company, Kingston, Ont.

FERROZONE ASSURES HEALTH.

In pulling down the old Cathedral of Metz a strong-box has been found containing coins and watches valued at £120,000.

Hotels.

RIVERSIDE HOUSE.

THIS House situated at the foot of Regent Street, is now open to the public. The proprietor, Colin Campbell, who ran so successfully for thirteen years the Newburg Junction Eating House, also for two years the McAdam Junction House and for years the Havelock Junction Restaurant, is so well and favorably known to the travelling public that further recommendation is not necessary. He guarantees to sustain that reputation in his new quarters. The Riverside House will be found as good as a DOLLAR A DAY HOUSE as can be found in the Province. No charge for conveying baggage to and from the House to the Station. OPEN for transient or permanent boarders. COLIN CAMPBELL. Woodstock, April 17, 1901.—16.
