It Cures Corns Quickly.

Putnam's Corn Extractor is warranted to cure Corns without pain, in a few hours. Give "Putnam's" a trial and you will be satisfied. It is sure, safe and painless.

English Freemasons who used to meet almost invariably in public houses, now show a preference for public halls and other premises where no liquor is sold.

The Cause of Nervous Headache.

This most distressing and common malady doubtless has its origin in some unbalanced condition of the nervous system. Probably the simplest, safest and most efficient remedy is Polson's Nerviline. Twenty drops in sweetened water gives immediate relief, and this treatment should be supplemented by bathing the region of pain with Nerviline. To say it acts quickly fails to express the result. Sold every where in large 25c bottles.

Eagles have been noticed flying at a height of 6,000 feet and storks and buzzards at 2,000 feet. A lark will rise to the same height, and so will crows. As a rule, however, birds do not fly at a greater height than 1,000 feet.

The Fires of Eczema.

So keen is the suffering of many people who endure the stinging, itching sensations of Eczema that they speak of the skin as being on fire. By its soothing, healing, antiseptic influence Dr. Chase's Ointment positively cures Eczema, Salt Rheum, and every form of itching skin disease. It is of inestimable value in every home, and when once introduced becomes a household necessity. Dr. Chase's Ointment is the standard of the world over, and has no worthy rival.

The Earl of Leitrim, who owns about 60,000 acres of Irish land, is an enthusiastic motorist. While enjoying it as a pastime he also recognizes the possibilities the motor possesses in sparsely populated districts. In the northwest of Donegal the earl is organizing an auto car service, which will open up the country and render it possible for tourists to penetrate into what has hitherto been a terra incognita to them.

News from the Country.

Benton.

One of those rare celebrations, a golden wedding, took place here on Aug 4th, the bride and groom being Mr and Mrs Alex F Brittain. Friends to the number of over fifty were gathered to do honor to the occasion. The day being fine, dinner was served on the lawn adjoining their residence, at the close of which Rev O Flemington, after making a few remarks, read a poem composed by himself for the occasion. They were presented by their family and friends a purse containing \$100.00 in gold coin, besides many other valuable presents. The evening was a very enjoyable one, being spent in singing and other amusements. After wishing the aged couple all enjoyment possible in the future, the friends departed for their homes. Mr and Mrs Brittain were married in 1853 and their family consists of six daughters and one son, twenty one grandchildren and one great-grandchild. They have been unusually fortunate in the lives of their posterity being spared, as death has not once entered their ranks during the fifty years of their married life.

John Gibson, our well known general merchant, is away from the village at present, but is expected to return in a few days with a bride from "the Celestial."

Elmer Teeling, the young man who was injured by a fall in the tannery, is gradually sinking. His case is considered hopeless and his brothers Herbert and Arthur have arrived from Houlton and Calais, also his sisters Mrs H Segee, McAdam, and Mrs Frank Leighton, Monticello.

The Percheron Horse.

The Percheron horse is unquestionably the best draft horse ever imported into this country. Stallions of other breeds have been imported from time to time. About twenty years ago the number of each breed imported was about evenly divided. At the present time ten times more Percherons are imported from France than any other country. This is due to the fact that the Percheron horse under all conditions in America has proven himself manifestly superior to any other breed. He is intelligent, honest, docile, and is par excellence the horse for moving heavy loads rapidly. Probably the Percheron horse's superb activity has gained for him the highest admiration of the Americans. The Percheron is as large as other draft horses, and along with his great size he can move with the grace and the ease of a carriage horse.

The Percheron is the favorite draft horse breed of the world. The French government has controlled the breeding of horses in that country, has selected the very best stallions and crossed them with the best

mares for hundreds of years, so matter whether the times were good or bad. This sort of selection in breeding has established in the Percheron a breed of horses unparalleled. When times are hard and business does not flourish from a financial standpoint the government interests do not abate. Here in America farmers sell their best mares, castrate their stallions, and quit the breeding business because it does not pay when times are hard, but such conditions never exist in France and this is the reason why the best horses come from that country today, although we have been breeding Percheron horses in America for thirty or forty years.

CRUEL BACKACHES.

Pains that Make the Sufferer's Life Miserable.

Dr Williams' Pink Pills Never Fail to Relieve, and Cure Ailments of this Kind.

Mrs Walter Book, wife of the postmaster at Silverdale, is well known to all the residents of that locality, and the family is well known throughout Lincoln county where they have resided and been identified with its history for four generations. In speaking of Dr Williams' Pink Pills, Mrs Book says: In giving my testimony I do so frankly and without reserve, as I am convinced of the complete reliability of the pills. For a couple of years I had been troubled with a severe pain in my back which sometimes extended to the stomach and gave me great distress. At times I was completely incapacitated with it. I felt much discouraged because I had been treated by a good doctor and had taken a number of advertised medicines without obtaining a cure. Finally I decided to try Dr Williams' Pink Pills, and almost from the first I noticed an improvement, and by the time I had used five boxes the old complaint was a thing of the past and I was feeling better than I had for years. I keep the pills in the house and whenever I feel the need of a medicine take a few and always find them a splendid tonic and regulator of the system.

Dr Williams' Pink Pills are the greatest blood builder and nerve tonic in the whole world. That is a fact beyond dispute and it accounts for the fact that there is no corner in the whole civilized where a sufferer has not been cured by building up the blood by these pills. There is no other medicine so widely used. And there is no trouble due to poor, watery blood, or weak nerves that Dr Williams' Pink Pills will not cure. Protect yourself by seeing that the full name "Dr Williams' Pink Pills for Pale People" is printed on the wrapper around every box. Sold by all medicine dealers or sent postpaid at 50c per box or six boxes for \$2.50, by writing direct to the Dr Williams' Medicine Co., Brockville, Ont.

WASHINGTON LETTER.

It has been definitely determined that President Roosevelt will lose at least one member of his cabinet before January 1st. Secretary Root has placed in the hands of the President his resignation, to take effect whenever the latter sees fit, but with the stipulation that it must be by January at the latest. Mr Root considers that in the establishment of peace in the island possessions of this country he has performed the chief duties for which he was called to the cabinet and he has finally yielded to the urgent wish of his wife, and advised the President that he can remain in his present position but a short time longer. On the 22nd of this month, the Secretary will sail for England where he goes as a member of the Alaskan Boundary tribunal. He does not expect to be detained there but a few weeks, however, as it is expected that the final meetings of the commission will take place in this country. As soon as he returns he will prepare his annual report, which is not yet begun, but most of which will be drafted during his absence, and when that is completed it is announced that, much to Mr Roosevelt's regret, his resignation will take effect.

It is a foregone conclusion that Secretary Root will be succeeded by Governor Taft whose intimate knowledge of Philippine affairs will enable him to meet the many important problems with which the War Department will have to deal in the near future. It is the belief of the President and the Secretary of War that the army, under the new staff organization, will practically run itself and that, save in time of war the Secretary of War will be largely free to turn his attention to any other important matters which may arise. If Governor Taft is selected for Secretary of War, as is now expected, it will probably prevent his name being urged upon the republican convention for the second place on the national ticket, next year.

The President has written to Governor Durbin of Indiana a letter that contains a homily on the subject of lynching which has compelled expressions of approval from members of all parties in all parts of the country. Mr Roosevelt dwells with emphasis on the fact that the violation of the laws of the land by lynchers weakens the power of the law and the respect in which it is

a food because it stands so emphatically for perfect nutrition. And yet in the matter of restoring appetite, of giving new strength to the tissues, especially to the nerves, its action is that of a medicine.

held by all persons and thus, while serving to satisfy a desire for vengeance on the part of the community guilty of taking the law into its own hands, it lays that and every other community open to the danger of that same disrespect of law which occasioned of original lynching.

Officers of the War Department express satisfaction at the fact that Cardinal Gibbons is in Rome, and its vicinity, at this time, as they feel certain that the Cardinal will use his good offices with the new Pope to secure a satisfactory and amicable settlement of the Frars' lands problem. It is learned that Governor Taft, some time ago, made an offer to the Frars, of approximately \$6,000,000. The offer was promptly rejected and was met with a demand for \$12,000,000. This also was rejected as exorbitant but it is probable that with a continuance of the policy of Leo XIII, a price somewhere between these two extremes will be arrived at.

Damascus now contains about the same number of Jews that it had in the time of St. Paul. In the middle of the first century of our era some ten thousand Jews lived in Damascus and were governed by an Ethnarch; the present Jewish community is computed at about eleven thousand.

General Botha's letter was the subject of strong criticism on the 16th ult. in the Legislative Council of the Transvaal. A Dutch member (one of the renegades) described the letter as the work of a disappointed politician. Dutch was being more thoroughly taught now than under the late Government.
