A SUCCESSFUL DRAMA.

Another successful entertainment has been added to the many former ones given by the Woodstock Dramatic Co. On Friday evening last, in Graham's Opera House, W. Lawrence Gallagher, supported by the members of the company, presented the four-act comedy drama, "Waifs of New York," to a crowded house. On the whole it was a wonderfully clever performance, and the members have been receiving many compliments on the successful outcome. When Mr. Gallagher came here on a vacation from Lawrence, Mass., where he is manager of the Casino Theatre, knowing the ability of the members of the company, he told them that the drama could be successfully put on the boards inside of three weeks and with five rehearsals, and his words were verified. The receipts, amounting to \$130 were for the benefit of St. Gertrude's Church.

Mrs. Tilley-Brewer, as Mamie Carter, again showed ability of a high order equal to that possessed by star actresses. She has a splendid stage presence and well modulated voice, which showed to advantage in the scene with Mercer at his home.

Miss Daisie Hughes, as Aunt Bridget, the apple woman, took the part in a creditable manner, showing that the characteristics of Aunt Bridget as a friend to the waifs were well understood by her.

Miss Sadie J. Brown, as the newly-arrived German girl Lena, had not a very difficult part, but in dress and speech she correctly portrayed the character.

Miss Jean Beardon's appearance as Marie, a waif, was very pleasing, and the little Miss did justice to the part.

Mr. Gallagher, as Johnnie Reilly, proved his capabilities not only as a manager of theatres, but as a favorite performer as well.

Dr. G. B. Manzer is well known as a first-class amateur actor, his forte being comedy; this time he had a very difficult part as Antonia, the Italian "bad man." The character, however, was so well taken that nothing more could be desired, proving the Doctor highly successful as a versatile actor.

E. W. Mair made a great hit as Burton Stevens, the lover of Mamie. Mr. Mair, always a good amateur actor, is improving steadily, and the acting, in the scene of the banking office of Mercer, when charged with theft, was highly creditable to Mr. Mair, and worthy of a professional.

J. N. Jones took the part of Mercer very acceptably, showing dramatic ability of a high order all through his part.

Murray Milmore as a character actor, whether Irish or German, is excellent, and the part of Jacob, the German bartender, lost nothing in his interpretation of it.

I. E. Sheasgreen, as Marie's uncle, James Roberts, presented the character before the audience in a natural and pleasing way.

Dr. M. G. McLean made a creditable exposition of the part of Detective Foley; Lewis Milmore had the dual parts of Lawyer Russell and Dan Burke, and did excellent work; the other gentlemen, who took the parts creditably, were Marshall Kelly as Lawyer Beach, Thomas L. McCaffery as Judge Bowlin and Ambrose Kelly as a policeman.

PROMENADE CONCERT.

The Century Ice Rink was the scene of gayety on Tuesday night, the occasion being the promenade concert of the 67th Regt. Band. That splendid organization of 15 members under the leadership of R. S. Dixon, rendered excellent music. An audience of 600, containing "fair women and brave men," spent an enjoyable evening. The games participated in were Bowling Alley, Bean Toss, Ring Toss, Guessing Pole and Bean Jar; to the winner of each class was given a handsome prize. The following was the musical program:—

Waltz.....Village Bell
Serenade.....Cupid's Charming

The Bank Refuses to Lend More Than \$5,000.

Scott Act Committee Appointed.

OTHER MATTERS OF INTEREST.

The regular monthly meeting of the Town Council was held on Monday evening, His Worship Mayor Belyea in the chair and a full board present.

Treasurer Bourne reported for the month of July: Receipts, \$13,274.22; expenditures, \$3,454.28; debit bank balance, \$2,367.60. Referred to usual committee.

Marshal Gibson reported for July, \$139.35 taxes collected, and \$5 licenses. Report received and usual commission on licenses voted.

Mayor Belyea thought for several reasons it was advisable to appoint a Scott Act Committee.

On motion the suggestion was adopted and the mayor appointed Couns. McManus, Dibblee and Jones as said committee.

Coun. Jones did not feel like serving on the committee but in deference to the mayor's wishes he accepted the appointment. He was not in favor of running Scott Act as at present, but he thought he would give the method a trial and see if it would be more successful than he thought it would. As a member of the committee, if he was not satisfied with the present method, he would tell other members quite plainly of the fact.

Coun. Dibblee said the committee was a very unpleasant one to serve on, but he felt it was his duty to serve on any committee to which he was appointed. He purposed to do his duty in the interests of the town, without fear or favor, as he had no axe to grind in the matter.

Marshal Gibson was heard before the board. He said, as inspector, it was difficult at times to ferret out violators of the Scott Act, without having the necessary cash for the purpose. Appointing a committee would enable him to be in a position to draw on the funds if necessary, but possibly it might not be necessary.

Coun. McManus, as chairman of the electric light, spoke on the question. He did not feel as if he had carried out in its entirety the course he had in view to give the town a fairly good light, although doubtless the light was much improved. The committee wished to have 90 lbs of pressure from the engine room to enable it to give a successful light; this pressure he had been unable to get from the engine. The water committee was charging the electric light committee \$300 yearly for power furnished, and in view of that fact he would ask the chairman of water works if the boilers are capable of giving 90 lbs of steam. The new lamps were not wholly satisfactory, on account of the low pressure; the agent of the company from which the lamps were purchased, who was in town last week, was willing to exchange the lamps for six new ones that could run on a lower pressure, but he (McManus) would sooner keep the present lamps until he gave them a fair test with 90 lbs of steam.

Coun. Dibblee was unable to answer the question for he did not know what the boiler would carry, but he would co-operate with Coun. McManus to enable the latter to give a good light.

Supt. Munro was heard before the board. He said the boiler used to blow off at 100 lbs. Three years ago it was dropped down to 75 lbs., but the boiler was then in a bad condition; a new sheet had since been put in and he saw no reason why it would not be safe to carry 100 lbs.

The matter was left to the chairman of water works and electric light.

On motion Coun. Jones, seconded Coun. Garden, Marshal Gibson will be given a two weeks' leave of absence after the carnival celebration.

On motion Coun. Garden, seconded Coun. Burt, J. J. Evans' name was struck from the assessment list for this year, he having paid a poll tax at Upper Woodstock.

A petition from P. McAnna, asking for a rebate of \$7, amount paid during the seven years since he reached the age of 60, was referred to finance committee for a report on Friday night.

On motion Coun. Garden, seconded Coun. Dibblee, the treasurer was instructed to issue executions on all unpaid taxes for 1903.

Mayor Belyea said that a large amount of taxes had been paid, that this year but about \$9000 was still unpaid. Patience ceases to be a virtue with some ratepayers, and the most stringent means will be applied to compel payment.

Coun. Dibblee said considerable unfavorable criticism had been made by a local paper against the board, on account of the large amount of the bank debit balance, and the consequent violation of the law which allows only \$5000 overdraft. There was no doubt about the correctness of the article in the paper, but the ratepayers who will not pay their taxes are responsible for the state of affairs; those ratepayers who do pay, expect the board to keep up the usual town services. The manager of the local bank thinks the town should not in future overdraw the \$5000 allowed by law. If people will not pay their taxes, when the limit is reached, all work should cease instantly.

Coun. Garden said the taxes will have to be collected or the town go out of business. It was now up to the officers holding the executions to get the unpaid taxes and place the money with the treasurer; no sentimental reasons should enter into the matter. If the bank takes the suggested action, then all town work must stop.

Couns. Burt and Sheasgreen made remarks in connection with work on the streets. Several bills were read, and the meeting adjourned until Friday evening.

THE DRAMATIC COMPANY ENTERTAINED.

Rev. W. F. Chapman gave the members of the Dramatic Company who put on the "Waifs of New York" a pleasant surprise on Saturday evening. The genial clergyman asked them to be his guests at Troy's Restaurant. Major Troy had received full authority to have ready a tempting repast, and the manner in which he did his part left nothing to be desired. The tables were loaded with the delicacies of the season, and the guests did ample justice to the generosity of their host. Music and speeches followed the other good things, and long before midnight the gathering broke up. The members of the Company wish to return thanks to Father Chapman for his kindness in providing the banquet.

Vanwart, George F. Smith and Jacob Vanwart. Numerous beautiful floral offerings were received, among them being several magnificent wreaths from Boston and St. John. A male quartet consisting of Messrs Ross, Matheson, Donovan and Lockwood sang "Cast Your Care Upon Him" and "Nearer My God to Thee." Mrs. R. E. Holyoke rendered "Calvary." The bereaved family have the sympathy of the entire community in their sad affliction.

Benton.

Aug. 4th, 1903.

Last evening Leslie Mills left on the express train for Vancouver. A large number of his friends were at the depot to see him depart, and just before the train came, Mr. Walter Hyman presented him with a beautiful gold watch chain and charm, on behalf of the workmen of the Arscott

& Co tannery, where he has been employed for some time. The address which accompanied the present reads as follows:—

Drs Sprague and Griffin have been consulted.

On July 25th at Houlton, Miss Minnie Teeling of this place and Mr. Hermon Segee of McAdam were united in marriage by Rev. Kenneth McKay.

Grand View.

August 3rd.

The weather is such as is needed for hay making. When the farmers thought they should be making hay, the weather was very unfavorable, but the needed change has come and haying is in full blast. The crop will be a full average, if not more. The grain crop is also promising well.

Our school room is undergoing much needed repairs. A good substantial hardwood floor is being laid. The whole interior is receiving two coats of paint. New and improved blackboards are to be put in position.

A number of adults and children are afflicted with mumps.

Mrs. James Hale who has been in a very critical state of health for some time past, is still confined to her bed in a helpless condition. An operation was performed upon her body a few days ago by Dr. Saunders of Lower Southampton, assisted by Dr. Rankin of Woodstock, and Dr. Shaw, lately graduated, since which there appears to be some improvement in her condition.

Mrs. Arlington Wright, who has been in poor health, and for a time in a very serious condition, is convalescent and progressing favorably.

Miss Beatrice Tompkins our local music teacher has quite a number of pupils, to whom she is giving her best attention.

Mr and Mrs P. M. McDonald of Fredericton have been visiting relatives and friends in this place for a number of days. They, with a number of others from this place, made a two or three days excursion to Skiff Lake and vicinity.

Frank Patterson, late of the Grammar School of Fredericton, was in town one day last week.

Outside of Haying and the coming and going of summer visitors it's quiet, as to business in general as it always is at this time of the year, and it is likely to be so periodically, until the transcontinental passes through this way, which we hope may be in the near future.

Kirkland.

Aug 3rd 1903.

The farmers are busily engaged with the hay making. There has been much showery weather, but the last few days have been favorable.

Mrs. W. J. Fowler returned home last week from a visit to Nova Scotia.

On Thursday, Miss May Freeze left Kirkland for her home in Doaktown.

The monthly meeting of the mission Band of Kirkland and Bel River was held at the Manse on Saturday the 1st inst. There was a good attendance present. They expect to have their annual picnic in the near future.

London is said to possess at present no less than 313 parks and open spaces, while in 1884 there number was only 103.
